

PRESS RELEASE

SELF-SERVICE LOCKERS

Stand 5.3 C083

Casiers Libre Service is delighted to meet you at the 2026 International Agricultural Show.

Come and discover our secure, autonomous, and connected lockers, which can be fully controlled from your phone.

At Casiers Libre Service, we design different locker formats and offer several temperatures to suit the needs of producers. Our solutions are suitable for a wide variety of products: fruit and vegetables, meat, cheese, dry goods, prepared meals, and more.

Our expertise is based on more than 24 years of experience in automated payment systems, a key component of self-service lockers.

This expertise allows us to offer reliable, secure solutions designed for continuous operation.

As designers and manufacturers based in Auvergne, we develop solutions that are 100% Made in France. Committed to short supply chains and the local economy, we support our customers at every stage of their project with responsive customer service.

Gain freedom
Choose how much time you spend with your customers thanks to Click&Collect and self-service.

Offer your customers greater convenience.
Convinced by the quality of your products, they can make purchases even when you are not there.

Boost your revenue
Grow your business by opening more points of sale equipped with high-performance, sustainable tools.

Come and see us at Pavilion 5.3, Stand C083!
