Les Apiers d'Aliénor

«Where flowers, bees and people meet»

I am Cédric Corazza, passionate beekeeper located in Charente Maritime. Five years ago, I created Les Apiers d'Aliénor, a family farm that today has 250 colonies.

My work is based on a simple philosophy: to transmit to you, thanks to bees, the best of nature through exceptional honeys, exclusively from my hives.
They are the authentic reflection of a terroir and a season.

I harvest 6 vintages in three different territories during the beekeeping season: Spring flower, acacia, buckthorn, forest, wildflower and summer honeys.

Two of my honeys - spring honey and forest honey - were rewarded with a gold medal in the fall during the last Saveurs Nouvelle-Aquitaine competition.

From Saturday February 22 to Sunday March 2, 2025, I will be present at the Show International de l'Agriculture to help you discover all the richness of my honeys and share my job with you.
