

Cranberry truffle : When fruity tang meets French chocolate

A bold, elegant twist on the classic cocoa truffle

A bold recipe that blends tradition with freshness

Chocolat Mathez has been crafting cocoa truffles in France since 1934, staying true to tradition while embracing new flavour trends.

Our **cranberry cocoa truffle** combines the smooth, melt-in-the-mouth texture of our Gourmet cocoa truffle with the tangy bite of **real cranberry pieces**. No artificial flavours — just a rich cocoa base and naturally fruity notes for a modern, premium twist.

Naturally vibrant

Cranberries may be small, but they offer nutrients and health benefits, earning their reputation as **a true superfood**. Rich in **vitamin C, minerals, and flavonoids**, these compounds provide antioxidant, anti-inflammatory, and immune-supporting effects. Their tangy, flavorful pieces are blended into our cocoa truffle, creating a deliciously balanced treat.

A format for every occasion

Whether it's for gifting or everyday indulgence, we have the perfect packaging. For instance, our tin adds a premium and elegant touch making it perfect for gifting or display. The ballotin offers a refined presentation and is a true nod to French tradition and savoir-faire. Each format is designed to catch the eye and meet your customers' needs.
