FOR IMMEDIATE RELEASE

Alamir Group Announces "Alamir Ingredients": A Major Expansion into Premium Aseptic Food Concentrates at SIAL Paris 2026

CAIRO, EGYPT – September 20, 2026 – Building on a rich agricultural legacy that spans over five decades, Alamir Group is proud to announce the launch of its newest industrial division, **Alamir Ingredients**. This major expansion will be officially showcased at SIAL Paris 2026, marking a significant milestone in the company's evolution from a leading agricultural trader to a comprehensive global food manufacturer.

Currently in the final stages of commissioning, the new state-of-the-art facility is located in Sadat City, covering 38,000 square meters. Alamir Ingredients is dedicated to the production of high-quality aseptic tomato paste and fruit concentrates. Engineered to meet the highest global standards, this facility utilizes advanced thermal processing to ensure commercial sterility, extending shelf life while preserving natural color, flavor, and nutritional value.

"For over 50 years, Alamir Group has been rooted in relentless work and unyielding quality standards," said Abdelrahman Ali, Commercial and Marketing Director at Alamir Group. "With Alamir Ingredients, we are engineering the future. This expansion perfectly complements our established portfolio of premium pulses, spices, herbs, and dates, allowing us to offer a truly comprehensive B2B solution for food manufacturers worldwide."

Operating a massive 70,000-square-meter complex in Beheira, equipped with 11 production lines and immense storage capacities, Alamir Group already exports to 65 countries. The addition of the Sadat City plant fortifies the company's global supply chain. All operations are strictly governed by international food safety accreditations, including ISO, HACCP, Halal, GPC, and GAFTA.

Alamir Group invites all attendees, partners, and media representatives at SIAL Paris to visit **Booth 5A F 162** to discover the new Alamir Ingredients product line and explore tailored B2B solutions.
