

PRESS RELEASE

ARTOPOULOS showcases its pita and flatbread portfolio at SIAL Paris 2026

ARTOPOULOS, a Greek pita and flatbread specialist, will participate in SIAL Paris 2026, presenting a portfolio developed for retail, foodservice and private-label markets. Visitors will be able to discover the company's Greek pita, Arabic pita and pizza-base ranges, together with its latest product developments.

A key highlight is the new High Protein Arabic Pita, a 270 g retail pack offering 10 g of protein per pita, with no added sugars, a vegan recipe and sourdough. The product reflects ARTOPOULOS' focus on combining familiar Mediterranean flatbread formats with contemporary consumer needs.

At Hall 2, Stand J249, ARTOPOULOS will welcome international buyers and partners interested in branded, foodservice and private-label flatbread solutions.
