

CasaFolino Brings Italian Gourmet Innovation to SIAL Paris 2026

17–21 October 2026 | Paris Nord Villepinte

CasaFolino, an Italian producer of premium gourmet specialties, will exhibit at SIAL Paris 2026, presenting innovative sweet and savory concepts that combine Italian culinary tradition, carefully selected ingredients and contemporary product development.

Innovation rooted in Italian tradition

At SIAL Paris, CasaFolino will showcase premium sweet and savory products developed for international retail, foodservice and distribution markets. The portfolio includes gourmet sweet spreads, flavored honey, Mediterranean crispy chilli, savory mousses, chocolate products, biscuits, risotto and seasoning mixes.

Among the company's latest concepts are **Drinking Creams**, an alcohol-free reinterpretation of the traditional Italian cream spread, transformed into a smooth and velvety ready-to-drink experience. Available in flavors such as lemon and pistachio, the concept offers a contemporary and versatile way to enjoy familiar Italian flavors.

Don Gennà reinterprets the traditional Italian babà in a modern, ready-to-enjoy format. A non-alcoholic babà is combined with CasaFolino's gourmet spreads or flavored honey, creating an original dessert concept for retail and foodservice.

Distinctive gourmet concepts

CasaFolino will also present innovative combinations such as **Orange & Truffle Crispy Chilli**, balancing the heat and crunch of crispy chilli with aromatic truffle and fresh citrus notes, and **Fig & Truffle Mousse**, a smooth sweet-savory specialty designed for cheeses, appetizers and gourmet dishes.

Alongside its own-brand portfolio, CasaFolino develops **private label and custom product solutions**, adapting recipes, formats and concepts to the specific requirements of international partners.

Meet CasaFolino at SIAL Paris

CasaFolino invites retailers, importers, distributors, foodservice operators and private label partners to discover its latest products and explore new business opportunities during SIAL Paris 2026.
