

PRESS RELEASE

AGRO-FILM Packaging at SIAL Paris 2026: 30 Years of Expertise Serving Flexible Packaging and the Food Industry

Sétif, Algeria – 2026

AGRO-FILM Packaging Meets International Industry Professionals

A leader in flexible film processing in the Maghreb region, with a Mediterranean ambition, **AGRO-FILM Packaging** will participate in **SIAL Paris 2026**, a major international event for the food industry.

With **30 years of experience**, nearly **670 employees**, and **3 industrial production sites**, AGRO-FILM Packaging supports companies and multinational corporations operating in the region through a local offering built on proven expertise and experience.

Comprehensive Flexible Packaging Expertise

At **SIAL Paris 2026**, AGRO-FILM Packaging aims to showcase its expertise in **Flexible Packaging & Printing Solutions**.

The company specializes in particular in:

- **Flexographic printing**
- **Rotogravure printing**
- **Lamination**
- **IML – In-Mold Labeling**
- **MDO films**

These different areas of expertise enable AGRO-FILM Packaging to provide solutions tailored to its customers' needs in the flexible packaging sector, from **packaging development and graphic design to film conversion and printing**.

Solutions for the Food Industry

AGRO-FILM Packaging's participation in SIAL Paris also provides an opportunity to showcase its **food films and packaging solutions**, as well as its **aseptic packaging solutions**, while engaging directly with professionals looking for reliable packaging solutions adapted to their specific requirements.

Through its presence at the event, the company aims to foster discussions with **food manufacturers, multinational corporations, distributors, partners, and international prospects**, while developing new business opportunities and partnerships.

A Mediterranean Ambition

With an industrial presence in Sétif and expertise developed over three decades, AGRO-FILM Packaging aims to strengthen its presence across regional and international markets.

Its participation in **SIAL Paris 2026** represents an opportunity to showcase its know-how, increase its visibility among international professionals, and build new business relationships.
