

PRESS RELEASE

Malaysian Botanical Infusion Brand Rhymba Hills® Honoured at AVPA Paris

Three signature Rhymba Hills® botanical infusions receive international recognition at the prestigious Teas of the World competition

Malaysia / Paris — Rhymba Hills®, a Malaysian brand specialising in premium botanical infusions, received international recognition at the AVPA Paris “Teas of the World” International Contest, with three of its signature blends receiving the Gourmet Award.

- **Rhymba Hills® Reelax** — Lemongrass & Pandan
- **Rhymba Hills® Reevitalise** — Lemongrass & Bentong Ginger
- **Rhymba Hills® Lemongrass Blend** — Lemongrass, Kaffir Lime Leaves & Pandan

The official AVPA 2021 results list all three products under Ladang Sari International Sdn Bhd / Rhymba Hills in the herbal blend category, with each receiving the Gourmet distinction.

Founded in Malaysia, Rhymba Hills® creates botanical infusions inspired by the country’s rich diversity of tropical ingredients. The brand brings familiar Malaysian botanicals—including lemongrass, pandan, Bentong ginger and kaffir lime leaves—into contemporary infusions designed for both local and international consumers.

The three award-winning blends reflect Rhymba Hills®’ philosophy of creating beverages from 100% natural ingredients, with a focus on naturally caffeine-free and sugar-free alternatives to conventional beverages.

The AVPA recognition in Paris represents an important international milestone for Rhymba Hills®, providing independent recognition for Malaysian botanical ingredients on an international gourmet platform.

“Malaysia has an incredible wealth of botanicals that we often take for granted. Receiving recognition in Paris for three of our blends gives us an opportunity to introduce ingredients such as lemongrass, pandan and Bentong ginger to a wider international audience,” said Ciinndey Wong, Founder & CEO of Ladang Sari International Sdn Bhd.

The recognition also supports Rhymba Hills®’ ambition to bring authentic Malaysian botanical infusions to international retail, hospitality and specialty food markets, while showcasing Malaysia as a source of distinctive botanical ingredients.
