

TSE Certificate for Simit

DMR Bakery Products became the first company to receive a TSE Conformity Certificate for simit

DMR Bakery Products, Simit Sarayı's subsidiary and production facility, has broke new ground. DMR Bakery Products, which produces simit using modern methods and global standards, has become the first company in Türkiye to receive a TSE (Turkish Standards Institute) Conformity Certificate for simit.

DMR Bakery Products has led the way as the first company in Türkiye to receive the TSE (Turkish Standards Institution) Conformity Certificate for simit. This important certificate certifies that simit, an indispensable part of Turkish culture, is produced in accordance with national standards, while highlighting the product's quality assurance.

DMR Bakery Products, preserving the authentic structure of simit while adapting it to global standards through modern production methods, has once again proven its commitment to high quality with the TSE Conformity Certificate it has received.

With the aim of making simit a beloved delicacy not only in Türkiye but also on the international stage, the company is making a significant contribution to strengthening the presence of traditional street simit in both local and global markets with this certificate.
