

From Taiwan to the World | T FOODS Showcases Taiwanese

Manufacturing Excellence at Paris Food Exhibition

T FOODS will participate in the Paris Food Exhibition from October 17 to 21, connecting with food industry professionals from around the world and showcasing our expertise in Taiwanese food manufacturing.

With over 30 years of experience in tapioca pearl manufacturing, T FOODS has expanded from a local supplier in Taiwan to an international manufacturer, with products exported to more than 100 countries worldwide. All products are manufactured at our own factory in Taiwan, ensuring consistent quality and reliable supply.

At the exhibition, T FOODS will showcase a range of bubble tea and beverage ingredients, including tapioca pearls, flavored syrups, popping boba, and instant tapioca pearls, providing versatile solutions for beverage, food service, and food industry customers.

We also offer flexible OEM/ODM services, supporting customized product flavors, specifications, and packaging to meet different market needs.

Through this exhibition, T FOODS looks forward to connecting with importers, distributors, food businesses, and brands from Europe and around the world, bringing Taiwanese manufacturing expertise and quality to global markets.

October 17–21 | Paris Food Exhibition

We look forward to seeing you there!
