PRESS RELEASE

Ukrainian Sweets. Global Trust. Ukrkondprom Brings Ukraine's Leading Confectionery and Coffee Producers to SIAL Paris 2026

The Association "Ukrkondprom", Ukraine's leading industry body for confectionery, food concentrates, starch-syrup products and coffee, will take part in SIAL Paris 2026, held 17–21 October at Paris Nord Villepinte. Visitors will find the association at Stand 1 A 215 (Hall 1), where it will present the capabilities of Ukraine's food industry and connect international buyers with verified Ukrainian manufacturers.

Ukrkondprom was founded in 2009 and now unites 30 manufacturers. They range from SMEs and major national producers to Ukrainian subsidiaries of international food groups. Together, members account for about 70% of Ukraine's confectionery output, 55% of its food concentrates, 90% of its starch-syrup products and 55% of its coffee, including 90% of its instant coffee.

Members' products span the full range of Ukrainian production: chocolate, sweets and caramel, biscuits, cookies and wafers, sweet and savory snacks, roasted and instant coffee, instant soups and porridges, and starches and syrups.

A free gateway to verified suppliers

International buyers, distributors and retail chains can use Ukrkondprom free of charge to reach verified Ukrainian manufacturers. The Association:

- finds partners and shortlists suppliers for specific requests;
- arranges B2B meetings and factory visits;
- organises inbound and outbound trade missions.

All member companies work to internationally recognised food-safety and quality management systems, including FSSC 22000, ISO 22000, IFS and HACCP. Many products are Halal- and Kosher-certified. Each member is a verified producer whose products are independently assessed against Ukrainian national standards.

"Despite the war, Ukrainian food producers keep working, investing and exporting," said Oleksandr Baldyniuk, President of Ukrkondprom. "At SIAL Paris we want to show European and global buyers that Ukrainian manufacturers are reliable, certified and ready for long-term partnerships."

Ukrkondprom's participation in SIAL Paris 2026 is supported by SIPPO, the Swiss Import Promotion Programme.

Meet us at SIAL Paris 2026
