# HOW TO MAKE
FEED THE MONSTERS

You'll need a huge sheet of cardboard for this project, so you can fill it with lots of hungry monsters. Make sure you also have enough cardboard to make two identical stand pieces, so that your board stays upright when you feed the monsters.

This project is **quick and simple**. Make the monsters' mouths nice and big.

Difficulty level: Easy

YOU WILL NEED

Paintbrushes

Large cardboard sheet

Paints

Scissors

Pencil

Coloured paper

Sticky tape

Strong tape

Ruler

1 On a large sheet of cardboard, draw lots of monster faces with wide open mouths and sharp teeth.

2 Carefully cut out holes where you have drawn the monsters' mouths. You might want to ask an adult to help.

3 Make the stand for your board. Take a square piece of cardboard and draw three lines on it as shown above.

Draw this horizontal line on both pieces for your stand.

4 Cut along the diagonal line. Then, use your first stand piece as a template to create another.

5 Score along the horizontal lines on both stand pieces to make tabs. Fold the tabs upwards.

6 Tape the tabs to each side of the board at the back. The diagonal edge of each stand piece should touch the floor.

7 To make your paper balls, scrunch up coloured paper into tight balls and wrap them in sticky tape.

8 Decorate your board and leave the paint to dry. Then stand it upright and you're ready to play!

Put your skills to the test and see how many monsters you can feed in a minute, or challenge a friend to see who can feed the most monsters.

NOW TRY THIS

Make one big monster by cutting a single monster mouth out of a cardboard box. Use more card to add arms or hair if you like. Make cardboard rings and try to feed the monster yummy hoops.

Use more card to add details to your mega monster.

Paint the whole box.

Cut out one big hole for the mouth.

FEED ME!

OUT of the BOX
