COLOUR IN THE BEE AND DRAW A BACKGROUND

**Where will your
honey bee be flying?**

In a garden, a park, or
somewhere different?

Its up to you!

Remember that honey bees
love flowers because they
need nectar to make honey.

BUZZ BUZZ

You could add different types
of bees to your picture too.
Here are some different types,
have you seen them before?

Carpenter bee

Bumble bee

Red mason bee

Blue orchard bee

COLOUR IN AND DESIGN YOUR OWN HONEY JARS

Imagine that you're a beekeeper. What will you put on the honey labels?

This honey was made by
and the bees.

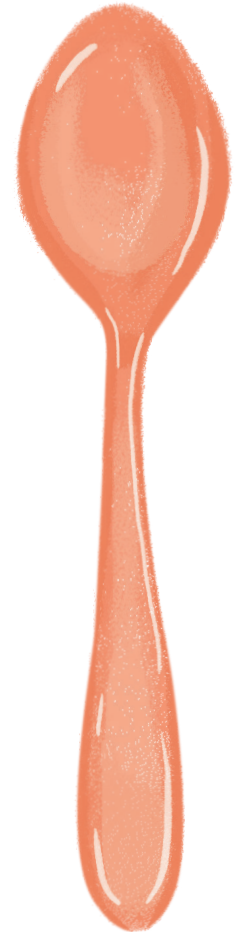

Honey bees make honey by collecting nectar from flowers, did you know that honey can taste different depending on what flowers the bees visited?

⋮

SWEET HONEY

Can you guess how many honey bees it takes to make just one teaspoon of honey? Turn the page upside-down to see the answer.

It takes the lifetime's work of 12 honey bees to make one teaspoon of honey.
