

Favourite tote bag

If your favourite T-shirt is wearing out, turn it into a great tote bag! Carry it around in a pocket so you never have to use a plastic carrier bag again.

1

Cut the arms off your T-shirt to make the handles. Cut off a semicircle under the neck.

These will be the bag's handles.

2

Turn the T-shirt inside out. Snip slits along the bottom, leaving long thin strips of fabric that you can tie into knots.

3

Work your way along the bottom tying the fabric strips into double knots. This will bring the sides of the T-shirt together.

From the rubbish

An old T-shirt

Extra bits

Scissors

Zero-waste shops are places where you can buy groceries without any packaging. Shoppers bring their own reusable bags and containers to cut down on waste.

4

Turn the T-shirt the right way round and enjoy your new bag!

Top Tip: Ensure you tie the knots extra tight, so your tote bag is strong and secure.

Suitable for 5-9 years
