## SCORE SHEET

**ROMAN REIGNS**

**JOHN CENA**

### HOW TO WIN

"The Big Dog" and "The Champ" go snarl to snarl and thumb to thumb in this point-scoring power match! The aim is very simple: you have to score 10 points before your opponent, using any combination of the three pin areas. You'll need to be fast and accurate to nail a victory here!

**WINNER:**

**ASUKA**

**BECKY LYNCH**

### HOW TO WIN

In this match, an unstoppable force meets an immovable object! Asuka has to stay firmly in the safe area for 30 seconds. Lynch's job is to push her sideways into one of the two defeat areas. Will Lynch dis-thumb-her opponent, or will she be no contest for Asuka?

**WINNER:**

**THE NEW DAY**

**THE USOS**

### HOW TO WIN

Give a big thumbs up to the power of positivity—or maybe to the power of twins! In this tag team tussle, the action switches territories every 15 seconds. Each team can only pin their opponent in their own territory. There's no time limit for this one—the match is only over when one team makes two pins. You'll need a referee to count to 15 for this face-off!
