

Favorite tote bag

If your favorite T-shirt is wearing out, turn it into a great tote bag! Carry it around in a pocket so you never have to use a plastic carrying bag again.

1

Cut the arms off your T-shirt to make the handles. Cut a semicircle off under the neck.

These will be the bag's handles.

2

Turn the T-shirt inside out. Snip slits along the bottom, leaving long thin strips of fabric that you can tie into knots.

3

Work your way along the bottom tying the fabric strips into double knots. This will bring the sides of the T-shirt together.

From the garbage

An old T-shirt

Extra supplies

Scissors

Zero-waste stores are places where you can buy groceries without any packaging. Shoppers bring their own reusable bags and containers to cut down on waste.

4

Turn the T-shirt the right side out and enjoy your new bag!
