WELCOME

After a long time spent grounded, the urge to explore is stronger than ever.

There's no doubt that the travel landscape has changed. Since the outbreak of the pandemic led to the postponement of large parts of our publishing, we've been working on updating and modifying our list to meet the needs of our readers. So, in our new 2021 guides, there's increased coverage of outdoor activities, healthcare provisions and alternative options away from the crowds. With ongoing changes in demand, we've arranged our publishing schedule to focus on post-pandemic trending destinations. We've also been working hard on the launch of a brand new series, Like a Local, highlighting under-the-radar-spots to empower readers to support small businesses; plus our new standalone inspirational titles that encourage outdoor exploration, whether by seasoned adventurers or inexperienced newcomers.

The strong partnership DK Eyewitness shares with retailers continues to be an invaluable way to reach out and offer trusted, on-the-ground information, indispensable in an ever-changing world. The goal is to enable travellers to make informed, eco-conscious and safe choices without compromising on their experience. We believe in travel as a force for good and know that celebrating differences in culture is more important than ever.

Climbing

Traditionally the preserve of mounties and adventurers, climbing is now much an activity with its roots in the world's wildest places. There are different ways to approach it - either as sport climbing, with harness and ropes on predefined routes, or traditional 'free' climbing, where you place your own equipment as you ascend - but whichever you choose, one thing's for sure:

Trail Running

The idea of trail running seems simple - it's running, just not on roads. But this fails to describe the sheer variety it offers: you'll stride out on rocky mountain paths, along shady forest tracks, over muddy fells and across sandy beaches. Trail running is wonderfully versatile, too - your feet needn't feel the ground, connecting fully with the landscapes you traverse, reading the contour lines with your legs. With essential fitness and the right gear, the content is yours to explore.

DILOMITES, ITALY

I gaze around the hilly region of Dolomites peaks for epic alpine views, and a mix of Italian and Austrian culture, where your feet dig at the limestone craggy outcrops or scree descent for paths on weathered rock. These trails are usually well marked and clear of the weather, but these mountains can get hot in summer. The weather here is ideal for a run, but the heat can be a little tricky, and the limestone can be a little tricky to run on. TRENDING DESTINATIONS

After a year of being grounded, our readers are ready to travel again. Here's where they want to go:

ICELAND

Ever-present on UK government travel green lists (so far), Iceland has been preparing itself for a post-pandemic travel boom with significant investment in top attractions and facilities during the pandemic. With out-of-this-world natural wonders and naturally socially distanced activities to do all year round, interest in the island is set to soar.

THE GREEK ISLANDS

After the events of the past year, it's time to relax and come back to what you know – with a difference. The Greek Islands have been trending ever since restrictions were briefly eased following the end of the first pandemic. But this interest goes beyond the usual islands of Corfu and Crete – lesser-known islands are seeing a rise in bookings, such as Mykonos, Andros and Paxos – particularly from the luxury travel sector.

IRELAND

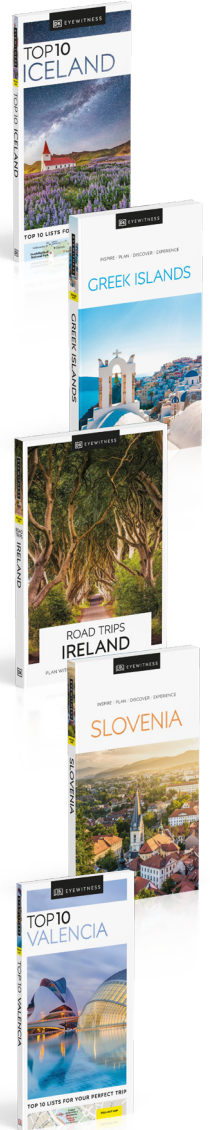

Our closest neighbour is a great alternative for those wanting a romantic, scenic break away from France and Italy. Home to windswept cliffs, expansive national parks and tiny, picturesque villages, it's the perfect place to take a road trip. Don't forget the vibrant city of Dublin, captivating historical sights and, of course, the famous cosy pubs.

SLOVENIA

Named European Region of Gastronomy 2021, Slovenia's nascent foodie culture has finally been recognized. Slovenes have been innovators when it comes to green culinary initiatives, with chefs using local ingredients, finding new ways to keep a low carbon footprint and endorsing a zero-kilometre philosophy of foraging for or growing ingredients on site.

VALENCIA

Flight numbers have been on the rise to Valencia for years now, as it steps out of the shadows cast by Madrid, Barcelona and Seville. Visitors are treated to medieval backstreets, quirky vintage shops, pristine sandy beaches, and arguably the best paella in Spain

STAYCATIONS

It's no surprise that staycations are trending up.

Not only do travellers feel safer staying closer to home, many are keen to support local businesses and appreciate the wonders on their doorstep.

DK Eyewitness and Top 10 guides will help readers discover everything that Great Britain and Ireland have to offer.
