

# NATURE'S TREASURES

## OUTDOOR TIME TRACKER

No matter where you live or what month it is, the natural world has plenty of fascinating secrets to uncover. Have a parent or guardian help you keep track of how much time you spend playing and exploring outside. Using the design below, color in a leaf section for each new milestone you reach. After you fill in the whole image, cut out the leaf along the dotted line and use it to decorate an area inside your house. If you spend a lot of time outside, you can continue to track it by using multiple leaves!

**"The more time we spend looking at the world around us, the more we will notice and the more we will learn."**  
—Ben Hoare

# NATURE'S TREASURES

## INTERESTING OBJECTS

In addition to tracking the amount of time you spend outside, use this sheet to note any interesting natural objects you find along the way. The three main types are objects that are parts of animals, plants, and minerals, such as feathers, leaves, and crystals. Try to find something from each category!
