Theropods

These meat-eaters were the deadliest hunters of the dinosaur age.

Pterodactylus

One of the best-known pterosaurs. It had a short neck and long tail that helped it fly.

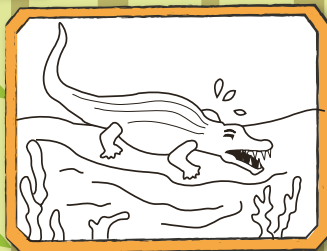

Archaeopteryx

Archaeopteryx was one of the first bird-like dinosaurs.

Brachiosaurus

This sauropod used its long neck to reach high treetops.

Deinosuchus

Deinosuchus was a relative of the alligators. It had fearsome jaws and a powerful bite.

Cryolophosaurus
