

Save the eggs

A Maiasaura has been separated from her babies. Find something to use as counters and help guide her back to her nest.

Start

Roll a dice and move the correct number of steps along the board.

1

2

3

Slide down the Barosaurus's neck. **GO FORWARDS** to step 19.

4

5

Hitch a ride on a Pterodactyl. On your next turn, **ROLL AGAIN**.

10

Egg fact

Some species of dinosaur would sit on their nests in a similar way chickens sit on their eggs today.

9

A Brachiosaurus offers you a shortcut. **GO FORWARDS** to step 23.

8

7

You hear a deadly Tyrannosaurus nearby. **GO BACK** to step 2 and hide.

6

11

12

You're being chased! Climb a vine to escape and **GO BACK** to step 1.

13

14

You get slowed down by a passing herd. **MISS A TURN**.

15

16

You take a break and feel rested. **ROLL AGAIN**.

17

Egg fact

Scientists weren't always sure that dinosaurs laid eggs until a fossilized nest was found in China in the 1920s.

18

19

20

21

You're almost crushed by a Barosaurus! **MISS A TURN**.

22

23

24

An Ankylosaurus is blocking your path. **ROLL A SIX TO END THE GAME**.

Finish
