Education Catalogue
2023-24

Begin every child's knowledge adventure with the engaging and exciting books in the DK Learning 2023-24 catalogue.

At the beginning of a child's learning adventure, DK board books are perfect for developing early literacy skills as they provide the foundation for early language development. From the preschool years, board books can help build vocabulary and foster a love of reading.

At DK, we know how vital early literacy is for setting children up for success in their lifelong reading journey; that is why we are truly delighted to have welcomed Phonic Books into the DK family. Phonic Books has a range of truly decodable readers, which follow a structured progression of phonic skills and thereby support reading development and build confidence in emergent readers.

Once a child has learnt to decode and blend new words, they need opportunities to develop their reading fluency, their love of reading and the confidence to tackle more challenging texts. DK Super Readers have been carefully levelled using the Metametrics Lexile to help readers choose the right reading material for their level. The collection of 125 non-fiction titles, 25 at each level, introduce children to the wonders of the world. The range of non-fiction readers encourage children to use their reading superpower to learn more about animals, vehicles, the natural environments, and of course the ever-popular dinosaurs!

In education, there is a renewed focus on the role of knowledge. At DK we've always believed that knowledge is an adventure, but it is also the foundation for learning. Those with a rich knowledge base find it easier to learn more. In addition, knowledge enhances cognitive processes like problem solving and reasoning. DK's range of knowledge-rich titles will engage children in learning more about the world around them.

DK's reference books are jam-packed with facts, making knowledge acquisition a real adventure. Our ever-popular encyclopedias, and much loved Eyewitness series, cover a wide range of science, history and geography topics bringing to life an array of curriculum topics covered in the classroom.

If you'd like to search these books by curriculum area, have a look at the series listing pages.

Together let's start a knowledge adventure.

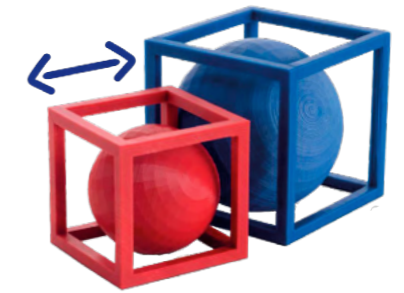

Hilary Fine

Educational Development Director

14-15	Year 10	Key Stage 4 (GCSE)	9th Grade (Freshman)	MYP 4-5 (Middle Years Programme)	Upper Secondary
15-16	Year 11		10th Grade (Sophomore)		
16-17	Year 12 (Lower 6th)	A Levels	11th Grade (Junior)	DP (Diploma Programme)	Advanced
17-18	Year 13 (Upper 6th)		12th Grade (Senior)		

How to order

Online order forms are available for both the UK and US titles by topic and as well as age range. Please enquire with your local representatives.

For all other UK queries, please contact sales@uk.dk.com

For all other international queries, please contact dkinternationalsales@uk.dk.com

What do educators think of DK Learning?

As a first year Early Career Teacher, I have found the DK Learning website to be an invaluable resource when planning my lessons. Not only is the content covering a wide range of curriculum areas, but being from a trusted publisher, it is of an extremely high quality - as I would expect from DK.

The activities and resources have come from beautiful books that translate key curriculum content in an engaging and relatable way for my KS2 pupils. The range of downloadable resources has significantly aided in reducing planning time, as has the intuitive nature of the website itself; allowing for advanced searching by level, subject, topic and subtopic."

LARA LOPEZ, EARLY CAREER TEACHER

We all really enjoy the Mrs Wordsmith resources, the illustrations, the humour, and most of all the robustness of the pedagogy."

EMMA MADDEN, HEAD TEACHER

When you pick up a DK book, you know it's a DK book... You know, before you open it, that it's going to be really interesting. Students and children absolutely love these."

PRIMARY TEACHER

DK Learning's resources offer a unique and innovative opportunity to explore the wider curriculum. Teachers can explore several aspects of learning, from core subjects to games and activities and discover a range of books that link to the curriculum. I found the resources for Black British History a particularly useful addition in my classroom."

SHAREEN WILKINSON, DIRECTOR OF TEACHING AND LEARNING AT LEO ACADEMY TRUST

We absolutely love the DK books here. They are such a stunning and beautiful resource for our children to use and explore."

PRIMARY TEACHER

I tout English For Everyone every chance I get because it's staggeringly brilliant in every regard. EFE actually succeeds where most others have failed - the English language is broken down into its most basic components and then repackaged in a way accessible to everyone."

CRAIG, ENGLISH LANGUAGE TEACHER, GERMANY

I love being able to recommend a DK book to my students to use for research and inquiry about a topic. They are so engaging and well-organised, I know that students will find good information and come back excited to share what they have learned."

ELIZA STINE, YEAR 5 TEACHER

Early Years Collection

Encompassing fundamental learning goals from the Early Years Foundation Stage Framework, the Early Years Collection is a curated collection of books that feature simple language, colourful pages and lots of photos to excite and engage preschool children and early readers.

Over 40 fun-filled titles encourage early learning and help little ones discover the fascinating world around them, one book at a time.

Focusing on the themes of:

- Communication and language
- Physical development
- Personal, social and emotional development
- Literacy
- Mathematics
- Understanding the world

English

Created with education experts, DK's English workbooks follow the key stages of the UK curriculum and help develop their literacy skills in grammar, spelling, punctuation, and handwriting. These titles also encourage readers to understand language forms and features, and are useful revision tools for SATS.

Phonic Books

For beginner and catch-up readers, Phonic Books titles are designed to engage and enthuse readers.

The highly-structured phonic sequence ensures reading and building of confidence from the very beginning.

Children love the vibrant colors and mixed media of both photographs and illustration overlays. This really makes them stand out from your average decodable book. The stories are playful, and my students feel successful reading them."

EMILY GIBBONS

I find that children love the suspense element of the [catch-up] stories which is brought to life with the detailed illustrations. I also like the vocabulary section which explains terms succinctly. The reading practice is useful as a way to start my group sessions - it helps to indicate that the session has started and children read words together, helping them to focus."

SHARON DHERAJ

What is decoding?

Decoding is the process of reading a word by sounding out the letter sounds and blending them together.

/m/ /a/ /p/ → "map"

Decodable books:

- Contain words using the letter sounds the pupil has learnt
- Provide essential practice of phonics skills
- Encourage children to sound out and decode each word
- Feature fewer than 20% high-frequency or "heart" words

What are decodable books?

Designed for beginning reading, decodable books are carefully written stories and texts using only the letter sounds pupils have been taught. Decodable books provide pupils the opportunity to practise decoding skills with the phonics they have learnt.

Why Phonic Books decodable books?

Phonic Books decodable books are created by reading specialists and have a history of engaging and delighting children learning to read.

Dandelion books for beginner readers

Dandelion Launchers and our new non-fiction series Dandelion World cover the sounds of the alphabet and double consonants. Dandelion Readers progress readers from sounds of the alphabet to split vowel spellings.

Decodable books for older readers

Highly decodable books to support practice and build confidence in readers who need continued support with their phonic skills. With seventeen series to choose from, each book includes gripping quests and contemporary, age-appropriate stories to engage older students. These decodable books take the pupil from sounds of the alphabet through to adjacent consonants, consonant digraphs, suffixes, and the introduction of alternative spellings for vowel sounds.

The phonic focus for the book is listed on the front cover.

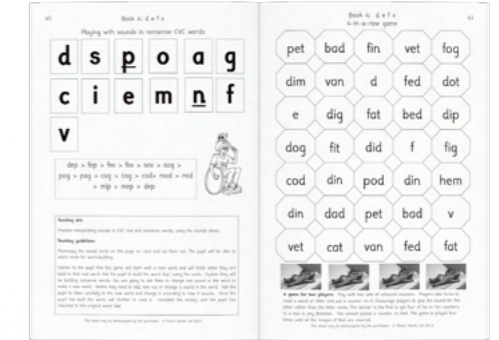

To find out about the scope and sequence of each set, visit phonicbooks.co.uk.

Phonic Books decodable readers provide reading practice for a **structured literacy** programme, aligned with the **Science of Reading**.

Activities correspond to the individual readers within the set.

Each set has an accompanying book of photocopiable activities for you to use in the classroom or as reading interventions.

DK Super Readers

Power up non-fiction reading skills and knowledge to help children become reading superheroes!

DK Super Readers is an evolution of the ever popular DK Readers series which have sold over 600,000 copies.

Develop vital non-fiction English reading skills and knowledge whilst encouraging reading as a hobby and passion.

The beautifully designed DK Super Readers series:

- covers engaging, motivating, curriculum-aligned topics.
- provides carefully levelled content.
- perfectly supplements core literacy programmes.
- builds knowledge while progressing reading skills.
- develops subject vocabulary.
- gradually introduces features for using non-fiction.
- boosts understanding and retention through comprehension quizzes.
- includes new online support for educators and parents, in line with current best practice in teaching reading.

“

These types of books are great because they are high interest, colorful, and have pictures that go along with vocabulary to increase the comprehension and learning.”

LIZ LEBLANC

“

These are engaging, interesting, and current topics.”

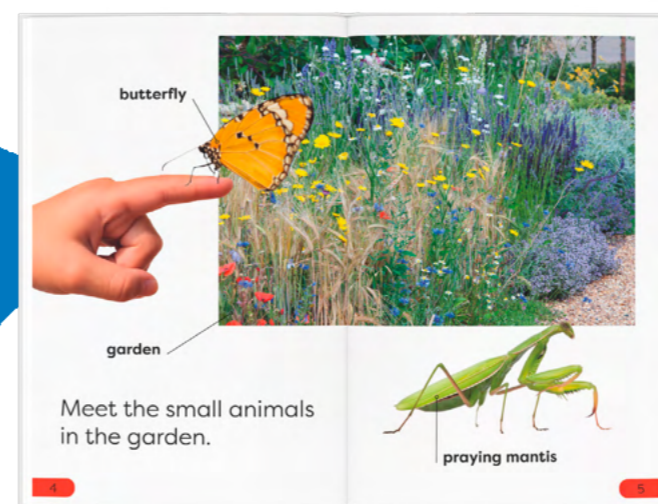

TAYLOR GRABMILLER

Pre-level	Learning to Read	For children ready to enter the world of reading. Introduces children to the wonder of non-fiction.
Level 1	Beginning to Read	For children beginning to read with help. Builds vocabulary through a non-fiction world of amazing facts.
Level 2	Beginning to Read Independently	For children beginning to read independently. Expands subject knowledge and vocabulary for young readers who want to learn more about the world around them.
Level 3	Reading Independently	For newly independent readers ready to advance. Motivates children to improve their non-fiction reading skills and understand more about exciting topics.
Level 4	Reading Confidently	For confident readers who are ready for a challenge. Challenges young readers to broaden their subject knowledge and hone their non-fiction reading skills.

Look inside!

Progression of subject vocabulary, fonts and introduction of key non-fiction features, such as illustrated contents pages, glossaries, indexes, labelled diagrams and illustrations, fact call-outs and information panels have been carefully considered by experts in this field.

Mrs Wordsmith Series

Mrs Wordsmith®

Mrs Wordsmith is a team of award-winning artists, game designers, writers, data scientists, teachers and researchers with the aim of improving every child's reading age.

By fusing cutting-edge curriculum design with award-winning creativity, Mrs Wordsmith's books and games empower kids aged 4 to 12 to meet lifelong reading challenges and do better at school.

“Each time we've used the book, it always comes back to the characters. That is the hook for the children; it is something that they really enjoy.”

Maths

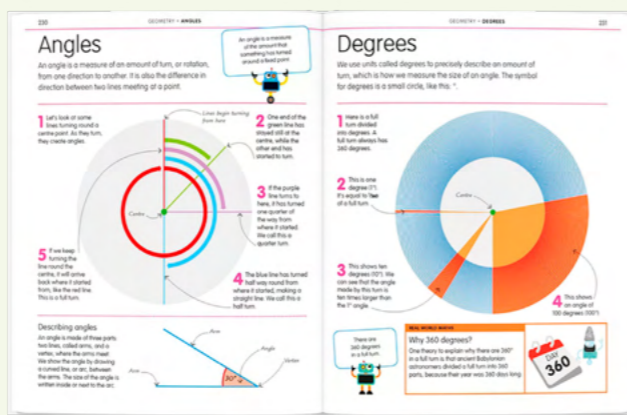

DK's maths books are not only designed to help children learn maths and strengthen their numeracy skills in school and beyond, they are written to engage children in the world of maths and make maths an inspiring and rewarding subject.

Aligned with the UK curriculum and curated alongside education experts, DK's wide range of maths titles suit the needs of all different age and ability levels.

- **Number Skills:** addition, subtraction, multiplication, and division
- **Further Skills:** fractions, decimals, percentages, and money
- **Measurement & Geometry:** graphs and shapes.
- **Problem Solving and Algebra**

What's The Point of Maths?

How to be Good at Maths

What's The Point of Maths?

Perfect for those who need some inspiration when it comes to numbers, *What's The Point of Maths?* combines fascinating stories from history with simple visual explanations to bring maths to life.

Maths Workbooks

Developed in consultation with leading educational experts to support curriculum learning, DK Maths Workbooks are an innovative series of workbooks that help make learning easy and fun. Using clear questions and supportive illustrations, each title is packed with exercises and activities to strengthen children's numeracy skills and understanding of maths. Each workbook is graded according to the age and school stage of the child.

Science

Science-based learning provides the essential foundations for understanding things from the human body, to the natural world around us, and the galaxies and universe beyond. Our range of science books supports this notion.

DK's science books introduce and expand on the methods, processes and uses of science. Through building up a body of key foundational knowledge and concepts, pupils will be encouraged to recognise the power of rational explanation and develop a sense of excitement and curiosity about natural phenomena.

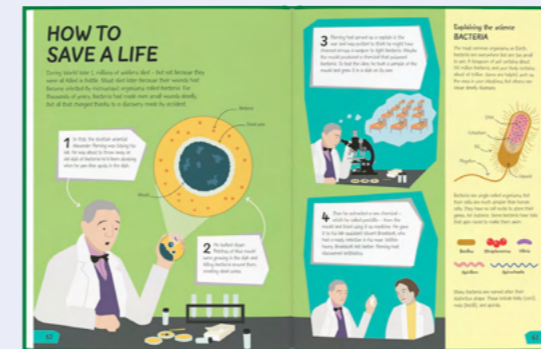

All DK science books are developed in consultation with leading educational experts to support science curriculum learning and to help make science fascinating and exciting.

What's the Point of Science?

Winner of the 2022 Sharjah Children's Reading Festival Award for Best International Children's Book, *What's the Point of Science?* explains in super-simple terms how science really works and why it changed the world.

The Way Things Work

In *The Way Things Work*, David Macaulay explains machines in a way no other illustrator can. From the basic lever to the modern microprocessor, this bestseller has now been completely updated with the latest technologies - find out how a touchscreen works, look inside an optical mouse, and see the inner workings of a smartphone.

Eyewitness Periodic Table

Part of DK's best-selling *Eyewitness* series, and packed with stunning photography, *Eyewitness Periodic Table* explores the building blocks of our universe. Beginning with a concise history of chemistry, scientific pioneers, and the creation of the first periodic table, this comprehensive guide then launches into a visual tour of each individual element.

How Not To Get Eaten

From camouflage and colour-changing, natural armour, playing dead, great escapes, detachable body parts, and impressive ways of fighting back, the range of survival tactics in the natural world is quite astonishing (and sometimes pretty disgusting). *How Not To Get Eaten* is a brilliant introduction to the ingenious anti-predator strategies of the natural world.

Computer Coding for Kids

If they like playing computer games, why not make their own? Become an expert coder, using the latest version of the popular programming language Scratch™ 3.0 in this new edition. Pick up the fundamentals of computer programming in steps that make even the most difficult coding concepts fun and easy to understand. Don't just learn how computer code works - understand why it's done that way.

Science Study Guides & Workbooks

DK's science study guides are the ideal tool for student home learning, coursework and revision. The Super Simple series covers the core GCSE science topics with simple, logical steps to make science success achievable for all students.

For key ideas, a "How it works" panel explains the theory with the help of bright, simple graphics. And for revision, a handy "Key facts" box provides a simple summary students can check back on later. Guides include both vivid photographs and engaging illustrations to bring science to life and make the facts crystal clear.

Dinosaurs

For many students a love of dinosaurs is the introduction to the study of natural science and history. DK is the world's largest publisher of dinosaur books covering everything students need to know about prehistoric life through the triassic, jurassic, and cretaceous periods.

With books for all ages, students can learn all there is to know about dinosaurs big and small - from tiny, chicken-sized Compsognathus to the mighty, long-necked Brachiosaurus, and expand their understanding of these mysterious and magnificent creatures.

Climate & Sustainability

It's important to have the facts when considering the climate emergency, and to remember how precious our home, planet Earth, truly is. DK brings to life the reality of the situation in an easy-to-understand and positive way, focusing on what we can do to be more sustainable and look after our home.

History

DK's history books help children to understand the complexity of human history, the process of change, the diversity of societies and relationships between different cultures, as well as their own identity and the challenges of their time. Our visually stimulating range of history books take readers through the evolution of early humans to life in the 21st century. Covering the historical figures, events, cultures and inventions that have shaped our modern world from Greek mythology to the Vikings, Ancient Rome, the Victorians and Black History.

History: A Children's Encyclopedia

In the same series as the New *Children's Encyclopedia* and DK children's encyclopedias of Science, Art, and Geography (among others), this children's history encyclopedia will help children, parents, and educators get to grips with the events, personalities, and inventions that have changed the world.

The History Book

Travel thousands of years into our past and discover the significant events that shaped the world as we know it. From the founding of Baghdad, and the colonisation of the Americas, to the inception of Buddhism, The History Book highlights and succinctly explains key ideas, themes, and events of world history without complicated jargon.

English as an Additional Language

English for Everyone brings what DK does best to the English language learning segment:

- Visualise complex information to make it manageable for learners and teachers
- Ensure knowledge is not assumed through graded exercises and scaffolding
- Lay out content in a clean, structured, unthreatening way

English for Everyone is a CEFR aligned course that provides an engaging, manageable, and structured approach to learning English. With more than 2 million copies sold in 90 countries, *English for Everyone* is the illustrated and comprehensive English-language course for your students.

English for Everyone Course Book Level 1 Beginner

Our Course Book Level 1 is a great reference guide to introduce English for beginners including key language skills, grammar, and vocabulary. The Course Book uses visual teaching methods to introduce the English language. Its flexibility allows for use in lessons or for self-study.

PSHE & Citizenship

Introduce children to personal, social, health and economic topics designed to create productive, responsible and considerate members of society, by equipping children with the necessary resilience to handle whatever life might bring. Topics covered in this range of books include feminism, politics, law, careers and sociology.

How to Talk so People Will Listen

Find your voice and own the room, even when your legs are shaking! In this book, professional cartoon voice artist Lizzie Waterworth tells you all about her strategies for confident speaking, from breathing exercises to what to do with your hands, and how to conquer that pesky inner voice that whispers "what if...?".

How to Talk so People Will Listen

Wonderfully Wired Brains

An informative and inclusive children's guide to neurodiversity for those not in the know and to inspire children who are neurodivergent. This inspirational book written by neurodiverse author Louise Gooding challenges misconceptions and shows how neurodivergent brains work a little differently.

DKfindout!

All the answers for every child to find out!

Fun and revealing facts for children across core school subjects, including History, Geography and Science. Brought to life with beautiful photography, lively illustrations, and key curriculum information. Over 30 books in the series.

5-9 Years / KS2 / 235 x 183mm/ 64pp / FLX / PB*

“

The Findout! series is exceptional. It's age-appropriate, and really helps to tap into the curriculum for the topics that the children are doing."

PRIMARY SCHOOL TEACHER, UK

What is energy?

Energy makes everything happen. All moving objects have energy, but light, heat, magnetism, and electricity are types of energy, too. Energy can change from one form to another, such as electrical energy becoming light energy in a lamp, or it can be stored ready to use later, like the energy in a battery.

Begin with a bang

Scientists have found evidence that a massive explosion, 13.8 billion years ago, made all the energy that exists in the Universe. This giant explosion that created time and space is known as the Big Bang.

Indestructible energy

Energy cannot be created or destroyed, it just changes from one type of energy to another. This is called the conservation of energy.

Viking longship

The Vikings were skilled sailors. Their well-built longships - the longest and fastest Viking warships - were special as they could be rowed or sailed. These ships carried them on dangerous voyages through rough seas, hidden rocks, and jagged icebergs.

Superior senses

Big cats have heightened senses, which are far better developed than ours. A big cat's senses need to work well together when hunting alone at night. Eyes closely observe surroundings, the ears detect even the slightest sound, and the nose can sniff out any creature close by.

Jacobson's organ

A special organ in the roof of the mouth allows big cats to accurately identify different scents from other cats and wildlife. They use this information to communicate with each other.

Sight

The weight of a big cat is no virtue better than that of a human. They have big, bright eyes, but the pupils change size depending on light levels. At night, the pupils expand and light floods in, giving excellent night vision.

TASTE

A long, rough tongue allows big cats to taste different prey, recognize rotten meat, and get bits of meat off the bone. Their tongues have no sweet receptors, so they are not interested in eating anything sweet!

Smell

A cat's sensitive nose can pick up scents over long distances. This helps big cats communicate with each other, find mates, and detect and track prey. Scents enter their nostrils and reach over small receptors for the big cats to identify.

TOUCH

Naturally cautious, big cats use their paws to feel and examine anything unfamiliar. Once they know it's safe, they use their nose and whiskers for further investigation.

SOUND

Most big cats have large, movable ears to recognize sounds and the direction they are coming from. They can identify prey by the noises they make. Cats can detect some sounds that we as humans cannot pick up.

Whiskers

Whiskers are an important tool that helps the other senses. These long, stiff hairs help big cats judge the amount of prey in their paws. They also help with biting prey. Whiskers are called barbs as they have small barbs at the ends, which helps make the bite more accurate.

Big Cats

“

These books are great for our curious-minded children who want to know every last bit of information about something. ... There are just loads of facts... They get so much of the answers in schools, but these are the bits that they will want to know more and more of – and, every single page, there are new facts for them to find out."

LINDA HAVES, LIBRARIAN

SAVE THE DATE! ASK AN 'OLOGIST 2024

Our very first **Ask an 'Ologist schools webinar** saw over **700 tricky questions** posed by kids to some of the world's finest 'Ologists: the brains behind our Eyewitness books. Make sure your class are ready to put a new batch of 'Ologists to the test on **20 March 2024!**

DK International Baccalaureate Collections

Explore DK's International Baccalaureate Collections, specially curated to support the development of every IB learner.

Supporting the IB Classroom

Explore DK's IB Collections for the PYP, MYP (Years 1-3 and 4-5), and DP Programmes.

Each collection features a curated selection of DK's non-fiction, highly illustrated books, matched with the IB curriculum to support learning in the IB classroom and cultivate life-long learners.

With DK's free IB lesson plans and articles on using DK books in the IB classroom, our collections provide students with unmatched resources for the IB education.

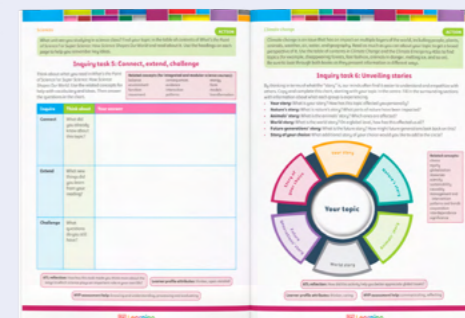

For PYP:

- A collection of 18 PYP books grouped around the six transdisciplinary themes.
- Beautifully illustrated titles to support social and emotional learning.
- Inspirational examples of how local actions can have positive global impacts.

"I'm always interested in how the supplementary materials can help my students develop their skills and support their progress as readers, writers, speakers, listeners, and critical and creative thinkers."

JENNIFER GRYZENHOUT, IB MYP AND DP ENGLISH LANGUAGE AND LITERATURE TEACHER.

For MYP:

- Two collections, one for MYP 1-3 and one for MYP 4-5, each containing 14 books.
- Matched to the core disciplines with a focus on creative and critical thinking.
- Thought-provoking content to inspire topics for community projects.

For DP:

- A collection of 13 books with resources for integrating Theory of Knowledge (TOK).
- Opportunities to explore the global topics of development, conflict, rights, and the environment.
- Interdisciplinary content ideal for internal assessment and extended essay topics.

Each collection comes complete with a free downloadable guide offering:

- Suggestions for activities to support the growth of learner profile attributes.
- Practical ideas for promoting transdisciplinary thinking.
- Examples of how to use the Collections to develop ATL skills.

Content Licensing

DK goes beyond the book, licensing our content to partners for use in digital formats, providing content for e-learning solutions, reading platforms, assessment materials, online tutoring, video and multimedia, and educational apps. We work with leading providers in each territory and educational sector to establish lasting partnerships.

Why work with DK?

- We have always put children's interest at the heart of what we do, so our dynamic content engages students at all levels.
- Build our content into your curriculum and assessment tools to drive results in the classroom.
- Scale up your content offering to reach all of your market in a timely way.
- Cover key subjects including maths, literacy and STEM.
- Source from our archive or commission the skills of our editing and design teams to create new content.

What do we license?

- Full ebooks from our catalogue.
- Over 100,000 impactful images.

- Engaging text from DK authors.
- Dynamic worksheets and quizzes.
- Page spreads covering curriculum topics.
- Compelling educational videos.
- Content in English, Spanish and other languages.

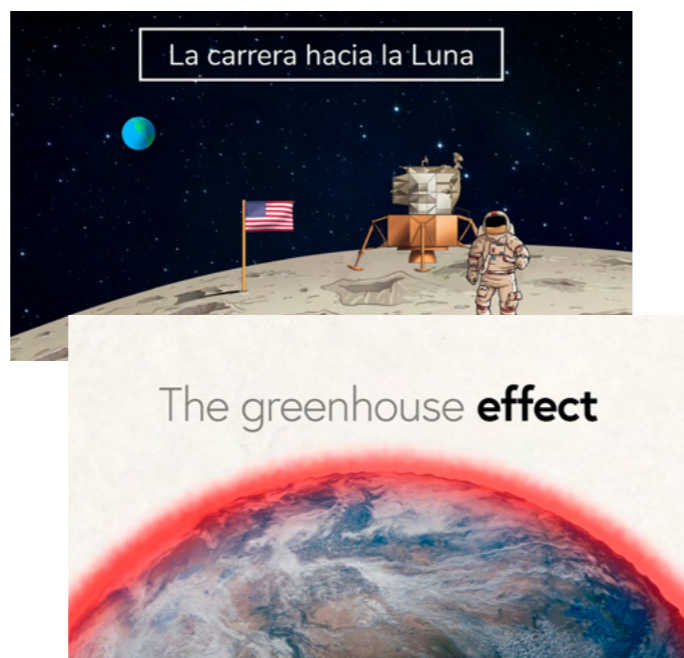

Join our list of global partners, including 2Simple, Inception, LGU+, Proquest, Renaissance Learning, Savvas Learning and more.

Educational Videos

Collaborating with educational video specialist **Makematic**, we are creating 500 short educational videos. These are available for licensing by publishers, edtech companies and others who want to reach children in school or at home. They can be used in association with DK books, or as stand-alone videos in their own right.

Each three minute video gives an overview of a curriculum topic - from Ancient Egypt to the Greenhouse Effect. The videos are taken from DK books and brought to life through film and animation. With highly visual production and compelling narration, the videos drive student engagement and understanding. Our first video collections cover STEM, important people, and past events: Timelines, Inventions That Made History, and Eyewitness Climate Change.

View the video collection at plus.makematic.com/collections/dk.

Series Listing

To accompany the titles presented by subject throughout the catalogue, this list showcases these books in the series they are originally part of.

If you're looking to complete a series collection, or want to explore more of the series ranges, this list is a useful guide to getting the most out of this catalogue.

MAKE EVERY LESSON YOUR BEST YET

“

I love being able to recommend a DK book to my students... they are so engaging and well-organised, I know that students will find good information and come back excited to share what they have learned.”

ELIZA STINE, YEAR 5 TEACHER
