

PAINT A FLUFFY CHICK

A chick can have very fluffy, black-and-white feathers, making it the perfect animal to paint with splashes of ink.

1 Using your ink, paint little dashes in a circle shape.

2 Add two dots for eyes and a small, triangle beak in the centre.

3 Then paint dashes in an oval-ish shape, with a slight point for the tail. Add two little "v" shapes for wings. Paint lines for the toes.

4 Using a clean, wet brush, dip lightly into your ink and make small brushstrokes to fill in the body of the bird with a feathered texture. Add more ink for darker patches. Now you have a fluffy chick!

YOU WILL NEED

- charcoal ink
- 2 paintbrushes
- paper
- small cup of water

TIP

Add some pencil scribbles over the top for extra texture!
