

Match the dinosaur to the time period

The Mesozoic Era is divided up into three different time periods - the Triassic period, the Jurassic period and the Cretaceous period.

Can you correctly identify which dinosaurs and other prehistoric life belong to which period?

ANSWERS:
 TRIASSIC PERIOD: Stegosaurus; Brachiosaurus; Liopleurodon.
 JURASSIC PERIOD: Stegosaurus; Brachiosaurus; Liopleurodon.
 CRETACEOUS PERIOD: Velociraptor; Patagotitan; Plesiosaurs.
