Uwe Baykowski, Anna-Marie Frick

Care and Maintenance of classic Yachts

160 pages
290 illustrations
210 x 280 mm
Hardcover

ISBN 978-3-667-12372-5
€ 39.90 (D)

Published in January 2023

The Authors:

As a globally established expert for modern and classic yachts, the trained master boat builder Uwe Baykowski from Strande near Kiel has gained decades of sailing experience in areas such as the Baltic Sea, the Mediterranean, the Atlantic, the Caribbean and in regatta sports. He also supervised the restoration of the pilot schooner „No.5 Elbe“, which was launched in 1883 (material included 1.25 kilometres of new oak planks). He has co-written this book with Anna-Marie Frick, a German skipper from Kiel, without whom this book would not have been started.

The Work: How to make old Yachts shine in new Splendour

Classic yachts make the hearts of many boat owners beat faster. They are reminiscent of the golden era of boatbuilding. However, the care and repair of these time-honoured sailing boats presents owners with special challenges.

Boat expert and yacht enthusiast Uwe Baykowski is known for his expertise in the care of classic wooden yachts. His repair manual contains everything needed to restore and care for an old boat. This is how a yacht shines again in its old splendour!

With the practice-oriented care and repair instructions in this book, all the important work can be done yourself. The author describes in detail the professional care and maintenance of the individual boat parts. All necessary work is explained step by step and supplemented with numerous

pictures. Valuable tips for boat accessories and care products round off the extensive knowledge.

- > A comprehensive maintenance and repair manual for all work during the season and in winter storage
- > Carry out boat repairs yourself: repair instructions from bow to stern
- > Practical gift for boat owners and friends of classic yachts

Christian Irrgang

Fish ‘n’ Ships

A Sailing Summer around England and Scotland

144 pages
90 illustrations
210 x 240 mm
Paperback

ISBN 978-3-667-12697-9
€ 29.90 (D)

Published in March 2023

The Author:

Christian Irrgang is a German sailor and photographer. He has been working for renowned German magazines like *Stern* or *Geo*. Passionate by the Baltic Sea, he is the author of two books on the subject by Delius Klasing: *Ostsee linksherum* and *Ostsee-menschen* (both titles now only available as e-books in German language).

The Work: An unforgettable Sailing Trip from the Baltic Sea to the British Isles

Almost five months at sea, sometimes as a solo sailor, sometimes with friends – Christian Irrgang experiences a new sailing adventure in the summer of 2022. His third sailing book takes the passionate Baltic Sea sailor to British waters.

From the Thames up along England's south coast, he explores the Isles of Scilly with their Caribbean flair and then sets off in the direction of Dublin and Belfast through the stormy Irish Sea. His sailing trip goes all the way to Scotland.

Small sleepy coastal villages, lively big cities and lots of interesting encounters: Christian Irrgang could have completed his trip in less than 3 months. But the focus of his sailing trip was not on speed, but on collecting exciting travel stories.

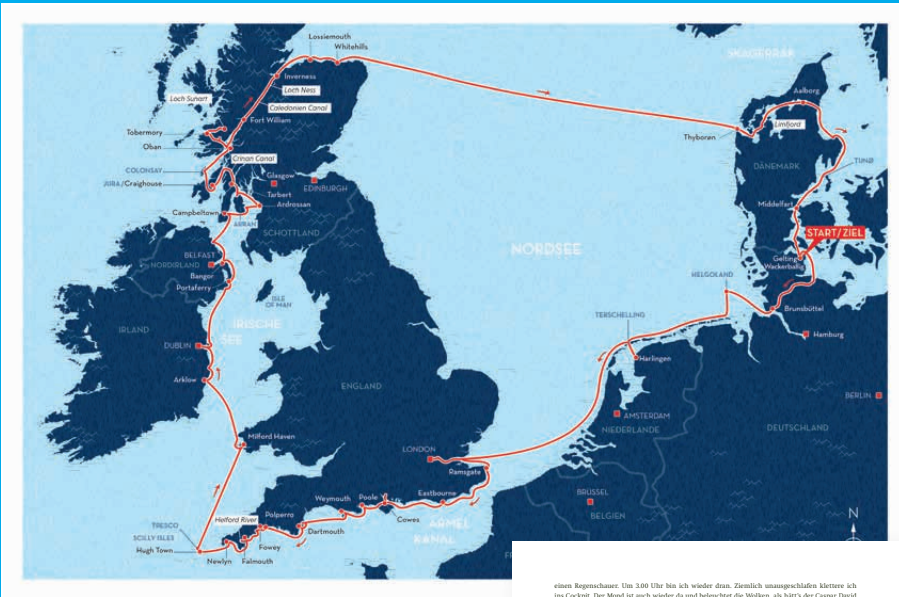

His new sailing book is full of big and small experiences and impressive photos.

> A travelogue that takes you along – from the sandy beaches of the Isles of Scilly to Loch Ness – with photos from aboard the OBLOMOW

> A sailing summer full of contrasts: 144 days at sea, 2,800 nautical miles

> But also with many shore excursions: from cream tea in Cornwall to nights in quaint pubs

> The book shows everything that fascinates sailors about England: unique coasts, currents and tides

ersten Regenschauer: Um 1.00 Uhr bin ich wieder dran. Zuerst umarmen mich die Wellen. Der Wind ist auch wieder da und beleuchtet die Wolken, als hätte der Caper David Friedrich gemalt. Plötzlich wird er rot und immer rötlicher eine totale Monatsfinsternis, toll, was für ein Spektakel! So verfliegt die Zeit. Keine Nacht dauert ewig, und auch auf die Tide ist Verlass. Als es schließlich hell wird, kommt die Stimmung wieder von hinten.

Um halb zehn nehme ich das Telefon und wähle die Nummer der UK Border Force. Seit Großbritannien aus der Europäischen Union ausgeschieden ist, ist vieles komplizierter geworden. Auch die Einreisefristen für Regler. Schon zu Hause in Hamburg habe ich eine Voranmeldung ausfüllen müssen, auf dem ich per Hand vermerken sollte, wo wann wo ins Land kommt. Namen, Passnummern, Einreiseland und Port of Entry sollten wir wissen. Dazu die strenge Anweisung, kein Eintrag in die 12-Miles-Zone der gelben Flagge Q zu setzen und diese erst auf Anordnung eines Grenzbeamten gegen die Gelbflagge auszuzeichnen. Die Wachen hatten eine sehr nette Passantenkontrolle. Ich erzähle ihr, wer wir sind und wo wir hingehen. Sie nicken das zur Kenntnis, sagt: „Wir melden uns wieder“, und legt auf.

Langsam wird es spannend. Von der Menschlichkeit links und rechts ist vom Wachen aus nicht viel zu erkennen. Der Fluss wird immer schmäler, spärlicher als 1500 Meter hinter uns liegen die B&B. Noch bevor wir die Thames Barriere, das Hochwassergewerk, erreicht haben, taucht die Skyline der Docklands auf. Das Sperrwerk passen wir nach Amsterdam über Hook. Bald darauf macht der Fluss eine scharfe Linkskurve, und dann befinden wir uns plötzlich auf der westlichen Seite der Erdbegegnung. Ein paar Minuten später schenkt der Nulmilenstein den Flusslauf noch einmal in Langsicht, und wir probieren das Kommando, so lange wie möglich auf der dünnen Linie zu balancieren.

Die Hochhäuser der City wachsen in den Himmel, bis plötzlich, direkt vor unserem Bug, die Tower Bridge auftaucht. Jetzt bleibt noch noch die Sonne durch die Wolken – aber, wenn ich das in meinem Club erzähle – ... kurz vor der Brücke rein in die Hafenschleuse, dann können wir die Laternen im mittleren, dem schönsten Becken von St. Katharine Docks belagern. Montagmittag ist es nun, 10 Stunden vor dem Start.

Ich stehe gerade bei der Hafenmeisterin, um Gutes zu sagen, als vier Gelbwesten auftauchen. Die Border Force – unsere Begleitungskommission. Zurückfragen haben sie nicht, sie kommen lieber gleich persönlich. Freundlich, aber sehr bestimmt sind die Kontrollanten unserer Flotte. Egal, ob sie auf dem Boot kommen dürfen, wo sie sich unzufällig umsehen. Was die wohl suchen? Ah, ich sehe auch Bewegung der Proviant-Frage. Ich bin nach der Q-Flagge einholen darf, gucken sie recht darauf. Die gelbe Flagge Q? Dann haben sie noch zu gucken. Landeplatz!

06 AHOY, LANDLUBBERS! SAINT MAWES AM SONNABEND, 18. JUNI DER 49. TAG

Die Abreise aus Poole beginnt um, wie mir befreundete Freunde zu Hause das prophezeit haben. Grau und dröge. „England? Und Schottland?“ Da ist doch immer nur schlechter Wetter. Also ich würde mir das ja noch mal überlegen.

So oder ähnlich lauten viele Kommentare, wenn ich von meinem Vorhaben erzähle. Aber natürlich hat mich das nicht abgeschreckt, denn ich wusste ja, wie es in Wirklichkeit ist. Natürlich so wie heute. Ab mittags klettert es auf, nachmittags hat die Sonne die letzten Deutschen wieder vertrieben. Dafür spielt der Wind seine Spielchen mit mir. Er startet mäßig aus Südost, dreht dann aber bald ins auf West, und damit es mir nicht langweilig wird, meiert er zwischenzeitlich östlich bis, sodass ich sogar die Segelfläche verkleinern muss. Da bin ich erst auf der Höhe von St. Alban's Head. Dann platzt wie ein Teilchen, liegt das hohe Kap im Norden. Die Segelfläche wird Lodge genannt, und ein Blick in die Karte bereitet mir gewisse Sorgen. Überflutet es Wind geht es umher, und die Wellen. Dazu sind da viele spitzenförmige Krügel reingemalt. Tatsächlich kommt mir die Tide inzwischen entgegen, aber das Gefühl zu umfassen habe, wasgenau fünf weitere Meilen weit nach Süden zu fahren. Ich riskiere's einfach. Kurs ändern, wenn es umzugehen wird, kann ich immer. Und weiß, die See reist so heute gut mit mir. Ein Gegenstrom von geschätzten unterhalb Kanten lässt meine Bugwelle schön rauschen, aber sonst bleibt um mich herum alles ruhig. Das nächste Hindernis ist eine großformatige Leuchtboje direkt neben. Da ich aber über Hook keine Warnung gehört habe, am Land auch keine roten Leuchtbojen erkennen kann und zudem einen Fischkutter sehe, der da vorn in aller Ruhe sein Netz durchs Wasser schleppt, halte ich Kurs und fahre mitten hindurch. Und siehe da, keiner vermerkt, auch daraus zu lernen.

12 AHOY, LANDLUBBERS! INVERNESS AM MONTAG, 29. AUGUST DER 121. TAG

Von Keweenaw durch den Sound of Mull und nach Tobermory fahren wir in einem Rutsch durch, weil für den folgenden Tag viel Regen angekündigt ist. Wenn man von Süden kommt, liegt vor Tobermory eine Insel quasi im Weg, Calve Island. Der grifflende Blick in die Seekarte zeigt, dass man bei bestimmten Wasserständen wegen der Abkürzung durch die Engstelle leicht land und Strand nehmen kann. Sicherheitsdrehen gucke ich mal nach, was weiterherüber denn dann zu sagen hat, und es steht. Dieser Abkürzung spart einen ungefähr eine halbe Meile im Vergleich zum Kurs außen rum. Und jetzt weiter ins Original. In Inverness will ich das gut opening the only reason is that the passage would be just to prove you can't. Heute, wo die Pubs den ganzen Tag geöffnet sind, gibt es nur einen Grund für diese Passage: zu zeigen, dass man's kann! Ah, ich verstehe, man würde solche Texte auch mal in deutschsprachigen Handbüchern finden.

Nachmittags wird es sonnig und warm. OBLOMOW liegt mit dem Heck quasi im Wald. Hohe Büsche, Vogelgeräusche statt Mäusen. Klima auch der Plinius tree sein, hat aber Atlantik-entbindung. Damit wir das nicht verpassen, steigt auch ein stromer Nordwind dafür, dass die Frische Stimmung radikal umschlägt. Mit einem Schwell bringt er den ganzen Hafen aus der Ruhe. Selbst große Boote sind wie wild am Tanzen. Ich hatte abends wohlweislich nach der Rückkehr installiert, aber viel gehalten hat das nicht. Wir haben wirklich eine über unsichtige Nacht. In der Nacht hat eine große Kreuzfahrter den Hafen geworfen, morgen sind die Strände voller Touristen. Sie stören die Sonnenbäder und drängen sich vor der Duffell, um Tickets für eine Führung zu ergattern. Die Whiskyfabrik steht direkt am Hafen, der wirrige Duft von Rauch und Malz liegt über der ganzen Stadt.

Darüber klappt die Sonne einen unfähigen Kampf gegen eine völlige Übermacht. Wir binden ein Riff aus Geck und laufen über ins Loch Smaat. Sonne ist ja deswegen erst so spät drangeschienen, weil sie sich vor der Schuttheit, vor Wind und Wellen auf hoher See gründe. Deswegen haben sie sich für die Trapper durch den Calve Island Canal bewahrt. In dem wir in ein paar Tagen einfallen werden. Da kann ihr nichts passieren. Aber obwohl hier gerade immer wieder Überflutungen von

Bobby Schenk

Astronavigation

without Formulas – practice oriented

120 pages
81 illustrations
150 x 225 mm
Hardcover

ISBN 978-3-667-12525-5
€ 24.90 (D)

17th edition

Published in April 2023

The Author

Bobby Schenk was listed among the 100 greatest sailors of all time by the magazine YACHT. Together with his wife Carla he circumnavigated the world with their yacht Thalassa as early as 1970. Bobby mastered the most dangerous situations and even navigated without aids and GPS. He sold more than half a million copies of his books in ten languages. He is considered the navigation expert. Schenk gave decisive impetus to modern computer navigation almost a quarter of a century ago. His developments were used by the German Air Force and by German astronauts, as well as on board large ships and yachts on all the world's oceans.

The Work: Navigating safely to your Destination with the Sun, Moon and Stars

Navigating at sea using only the stars is a challenge for many sailors. In this practical volume, navigator expert Bobby Schenk shows that anyone can learn the art of astronomical navigation.

In an entertaining and easy-to-understand way, he teaches the basics of pinpoint orientation with the help of the sun, moon and fixed stars. The experienced circumnavigator explains how to reliably determine a location using only a sextant, celestial data and the exact time.

Modern satellite navigation and electronic aids have made navigating on board much easier in recent decades. Nevertheless, no responsible sailor should rely solely on GPS and computers. If the on-board electronics fail in emergency situations, it can be life-saving to master the classic methods of determining position. Bobby

Schenk helps to apply supposedly complicated procedures correctly in an emergency. This way, astronavigation loses its fear even for beginners!

> The standard work on astronavigation at sea in the 17th edition: compact, suitable for everyday use and explained in a comprehensible way

> Easy navigation with sextant, chronometer and nautical yearbook

> Practical sailing book with numerous exercises and tasks for self-calculation

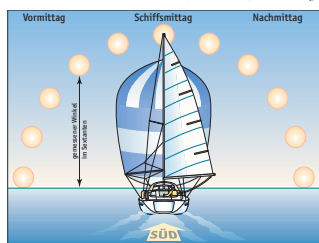

> Boat navigation with simple on-board tools: How to navigate without GPS and Co.

II. An Bord gilt UT1

Die UT1 ist genau: mittlereuropäische Zeit minus eine Stunde oder deutsche Sommerzeit minus zwei Stunden.

Also zum Beispiel 12.00 Uhr MEZ = 11.00 UT1. Die Weltzeit (die abgekürzte «UT1») von Universal Time One ist praktisch identisch mit der früher gebräuchlichen mittleren Greenwichzeit. Sie entspricht der englischen Normalzeit, sodass wir die Zeitangabe von BBC nicht mehr umrechnen brauchen. Alle nautischen Unterlagen, die wir benötigen, beziehen sich auf UT1.

Vergessen wir das alles, was wir so an Halbwissen gespeichert haben über wahre Ortszeit, mittlere Ortszeit, Sonnenzeit oder gar

12

III. Eine Winkelmessung bringt die Standlinie

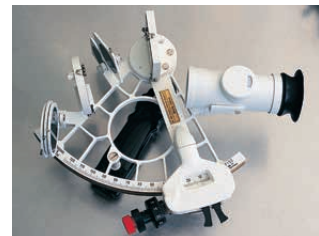

über dem Datumsstreifen. Gerade Letzterer hat zum Beispiel meinen geitigen Weg in die astronomische Navigation blockiert, weil ich ihn einfach nicht begriffen habe. Dabei war die Aufgabe ganz unnötig, denn: Am 28.8. – beim Zwölf-Uhr-Schlag vom Big Ben in London – ist es und bleibt es der 28.8., gleichgültig, ob die Skipperin beim Überfahren der Datumsgrenze vor Falsch die 19. oder die 20. Welle nimmt. Den Big Ben lässt dies nämlich kalt.

In der Navigationsecke gibt es nur die Weltzeit ein.

Ergebnisse von Seite 11:
1) 207°18' 2) 121°26' 3) 37°03'
4) 297°37' 5) 306°38' 6) 200°22'
7) 73°32' 8) 353°43,6' 9) 67°14,6'

15

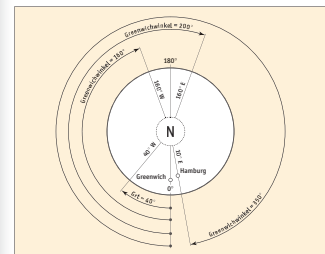

dem als «Declination» oder «Abweichung» bezeichnet. In den nautischen Unterlagen wird sie häufig mit dem griechischen Buchstaben «δ» abgekürzt. Sie stellt wie jede normale Breite auf der Erde vom Äquator aus in Richtung Nordpol von 0° bis 90°N und in Richtung Südpol von 0° bis 90°S.

Wie bei jeder anderen Position auf der Erdoberfläche werden die einzelnen Längengrade vom Greenwich-Längengrad aus nach Westen durchgezählt. Während auf der Erdoberfläche von 0°E. entspricht also einem Greenwichwinkel* (= Länge des Bildpunktes, abgekürzt «Gr») von 359°.

Die Länge des Bildpunktes ist der «Greenwichwinkel» (Gr).

* Die exakte Berechnung «Greenwicher Standpunkte» erfolgt über das bis vor wenigen Jahren noch in Gebrauch gewesene Weltzeitbuch, das die genaue Bildpunkt-Länge vom Bildpunkt des Greenwich-Längengrads berechnet.

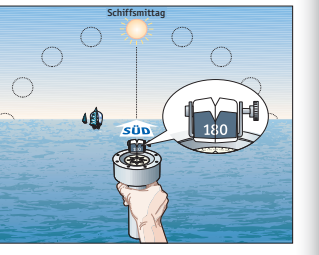

Unter dem jeweiligen Datum im N. J. (Nautischen Jahrbuch) sind zunächst die Bildpunkt-Koordinaten nicht für jede Sekunde, sondern stündlich mit «Gr» und «δ» angegeben (Anlagen 5 und 6). Betrachten wir die Position nun über 24 Stunden: h was wir haben: Die Änderung ist klein, aber nicht Null.

Jetzt aber g. Am 23.8.2026 + UT1 1. Das im N.J. zunächst in Stunden (s) minus e.

Sie ist eine der ältesten, einfachsten und genauesten Methoden, um zu einer Standlinie aus einer Sonnenbeobachtung zu kommen. Wegen ihrer Einfachheit und Zuverlässigkeit gehört die Mittagbreite – auch in der Großschifffahrt – zum täglichen Brot der Navigatoren. Außerdem ist es seit Menschenzeiten in der Schifffahrt üblich, den Schiffort auf hoher See mindestens einmal – zur Mittagzeit – festzustellen. Deshalb drängt sich die Mittagbreite in der Gezeitennavigation förmlich auf. Bis in das 19. Jahrhundert, als genaue Uhren oder gar Chronometer auf Segelschiffen

noch unbekannt waren, war die Mittagbreite die Navigationsmethode auf hoher See schlechthin, weil zur Berechnung der astronomischen Standlinie die Stellung der Sonne als Zeitangabe anreichte. Wenn es sich auch bei der Mittagbreite um einen speziellen – höchst einfachen – Sonderfall der astronomischen Navigation handelt, so besitzt sie dennoch auch auf der gleichen Überlegung, die wir zu Eingang dieses Buches (Seite 16 ff.) Die astronomische Standlinie ist ein Kreis um den Bildpunkt mit der Entfernung «Berechneter Bildpunkt» als Radius.

Wie der Name sagt, kann die Sonne bei der Mittagbreite nur in dem Zeitpunkt gemessen werden, in dem Schiffsmittag ist. Dies hat nun gar nichts mehr mit unserem bürgerlichen Mittag um 12 Uhr zu tun. Verfolgen wir die Sonne auf ihrem Weg über das Firmament während eines Tages-

Schiffsmittag

140

26

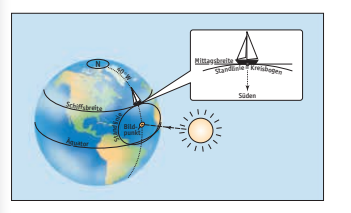

ablaades, so lässt sich beobachten, dass die Sonne morgens irgendwo im Osten aufgeht, dann vormittags aufsteigt, langsam Richtung Westen wandert, irgendwann auf dem höchsten Punkt ihrer Bahn steht – und wieder sinkt und schließlich gegen Abend irgendwo im Westen hinter dem Horizont verschwindet. Natürlich wissen wir, dass sich in Wirklichkeit die Erde um die eigene Achse dreht, unsere Vortriebskraft entspricht es aber besser, wenn wir zum Zwecke des Erfassens der Astronavigation ruhig die Sonne um die Erde wandern lassen. Wir haben also gelernt, dass die Sonne mittags im Süden steht. Würden wir auf einem Schiff unabhängig von der Uhrzeit die Sonne mit dem Kompass in dem Moment anpeilen, in dem sie an ihrem höchsten Punkt steht, so würden wir eine rechtwinklige Polung von ganz genau 180°, also Süden, erhalten.* Dieser Zeitpunkt ist Schiffsmittag.

Wie können also durchaus unseren Kompass bei Schiffsmittag durch eine Polung der Sonne überprüfen. Nach Berücksichtigung der Messung und der Ableitung

Schiffsmittag ist dann, wenn die Sonne den höchsten Punkt ihrer Tagesbahn erreicht hat. Schiffsmittag ist dann, wenn die Sonne ganz genau im Süden steht – rechtwinklige Polung 180°. Hat die Sonne ihren höchsten Punkt erreicht, so peilt sie rechtwinklig genau 180°.

Die Mittagbreite ist praktisch eine Gerade. Bei der großen Entfernung zum Bildpunkt der Sonne, dessen Weg auf einem Breitengrad entlang um die Erde auf der betreffenden Seite des N.J. nachgelesen werden kann.

* Das gilt für unsere Breiten. In der Breitenkreise sehr weit nördlich – im N. J. – kann sich die Sonne für einige Tage im Norden – rechtwinklige Polung 360°.

Mittagbreite

E-Mobility on Water

Emission-free Cruising with Sailboats and Motorboats

128 pages
124 illustrations, with many graphics
and tables of international relevance
148 x 210 mm
Paperback

ISBN 978-3-667-12366-4
€ 19.90 (D)

Published in autumn 2022

The Work: Full on E-Mobility! For sustainable Mobility in Water Sports

Electric mobility has reached the world of shipping and water sports a long time ago. But anyone who wants to buy an electric boat or convert their existing boat to electric propulsion is faced with several questions. Is an electric motor worthwhile for every type of boat? What are the advantages and disadvantages of this drive technology, and what does it cost to retrofit an electric boat motor?

E-technology expert Jens Feddern answers the questions of skippers and water sports enthusiasts. The most important aspects are covered, from the technical and theoretical basics of alternative drives to various forms of propulsion and exact calculations on economic efficiency. Concrete case studies show how the conversion to electric propulsion succeeds. This book takes

away the fear of sailors and motorboat drivers of switching to alternative marine propulsion and shows why e-mobility is important on the water.

The guidebook for all environmentally conscious skippers who want to contribute to climate protection without sacrificing comfort and driving pleasure!

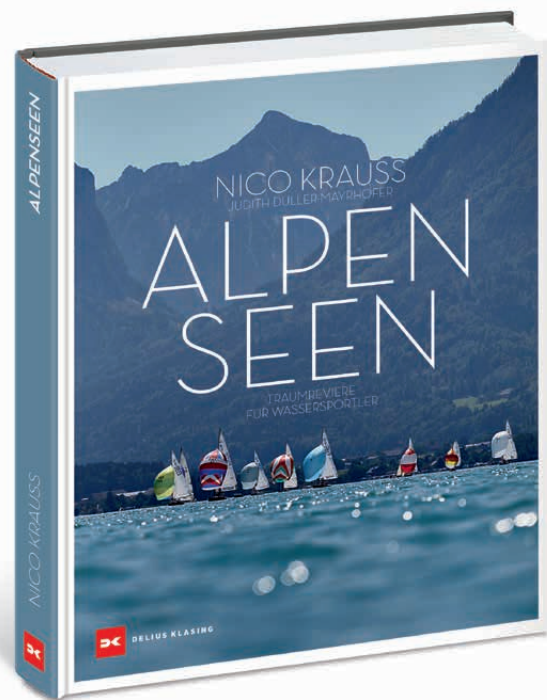

- Electric boat motors in practice: installation, operation, maintenance
- How does an electric motor work? Electrical basics for skippers
- From small sailing boats to large blue-water yachts: practical tips and examples for conversion

The Photographer:

He grew up on the coast. He is in love with the wind and the water. Nico Krauss has turned his passion into a profession: he works as a freelance photographer for international campaigns and various magazines and has already published several books and calendars with his extraordinary sailing photographs.

The Work: Water Sports with Mountain Views

High above sea level exists some of the most popular water sports areas in Europe: the Alpine lakes. Embedded in a dreamlike landscape, the crystal-clear inland waters offer all kinds of outdoor activities on water and on land.

Photographer Nico Krauss captures with his camera what makes the mountain lakes so special. Whether idyllic landscape shots or lively action shots, whether Lake Constance, Lake Maggiore or Lake Achen – his pictures awaken the longing for water on the skin and snow-covered peaks on the horizon.

Nico Krauss is best known for his spectacular sailing pictures. This time, his new illustrated book turns to all water sports and, in addition to great

yachts, also puts surfers, stand-up paddlers and canoeists in the lime-light. This high-quality book edition is accompanied by atmospherically beautiful texts. His photographs make you want to go on your own sailing trip or kite holiday in front of the unique Alpine scenery.

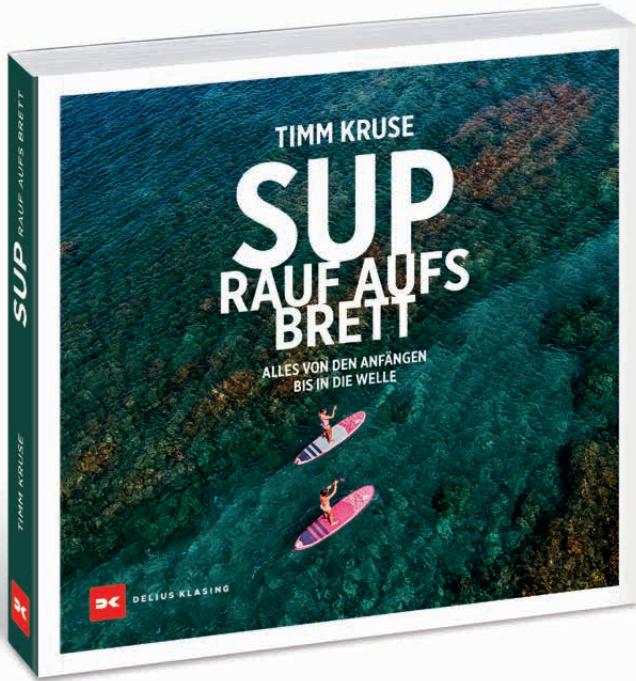

- > Lively, powerful, expressive: the new illustrated book with photographs by Nico Krauss
- > Impressive photos of the most beautiful lakes in Germany, Italy, Austria and Switzerland
- > Unique mixture of illustrated book and guidebook with atmospheric photos and texts to dream about
- > Not only for sailors: diverse water sports areas from Lake Achen to Lake Maggiore

SUP – Get on the Board!

Everything from the Beginnings to the Wave

192 pages
120 photos
210 x 210 mm
Paperback

ISBN 978-3-667-12518-7
€ 29.90 (D)

Published in autumn 2022

The Author:

Timm Kruse is a writer, television journalist and globetrotter. He has fasted for 40 days, sailed around the world, spent a year as a guru's chauffeur and always dares to leave his comfort zone. He is a SUP adventurer through and through: He was the first person to paddle down Europe's second longest river standing up. On the Elbe, he had a thrilling race against professional runner Philipp Jordan, and the stand-up paddler even pilgrimaged the Way of St. James on his board.

The Work: Stand Up Paddling from A to Z

Stand-up paddling is the new trend among water sports. Athletes all over the world now appreciate the SUP board as a fitness equipment for a full-body workout. But the paddle board is also ideal for splashy after-work strolls or extended SUP tours on rivers and lakes.

SUP guru Timm Kruse makes it easy for you to get started with stand-up paddling. In the SUP Bible, he has bundled all his expert knowledge and provides answers to all questions about the sport. Even professionals on the SUP board can still learn something here!

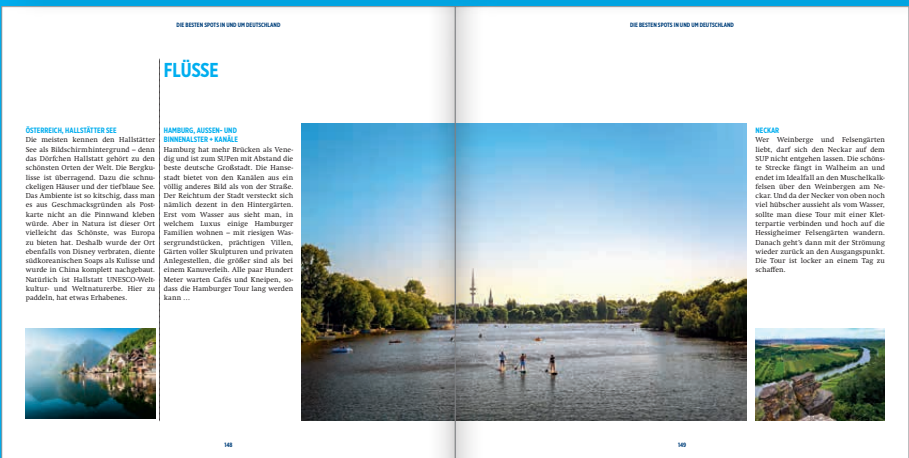

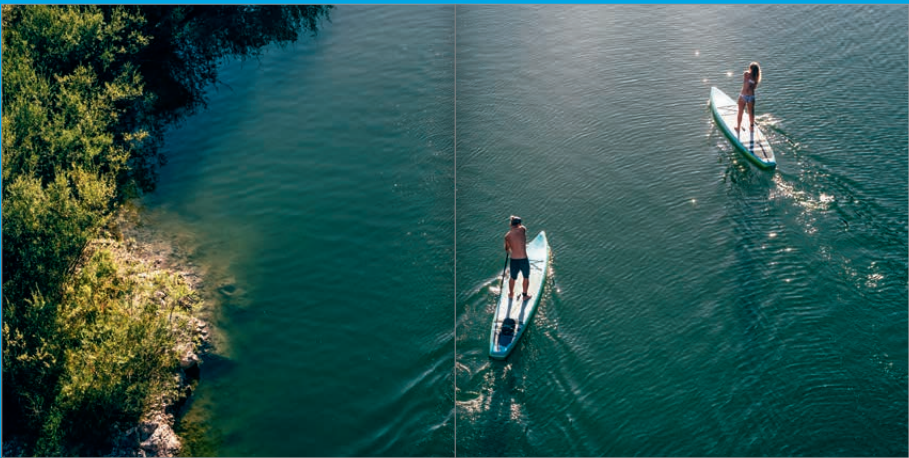

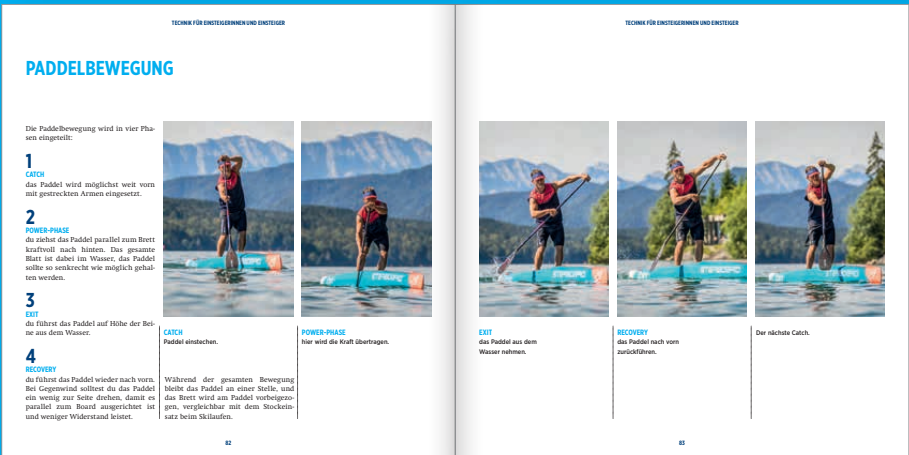

- > The right SUP equipment from stand-up boards and paddles to clothing, apps and accessories
- > Everything you need to know for SUP touring: safety on the water, fitness and injury prevention tips, area and weather knowledge
- > Learning SUP made easy with techniques for beginners, advanced and professionals
- > The best SUP spots for paddling in Germany and worldwide for short and longer trips

THE BIG KAHUNA

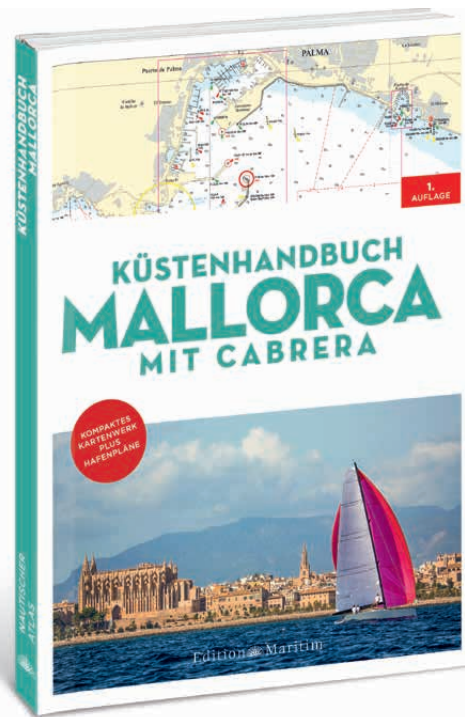

Eine der vielen Geschichten über den Ursprung des SUPs geht auf den Vollblut-Hawaiter Duke Kahanamoku zurück. Für die westliche Welt war dieser fremd aussehende, zum Fisch gewordene Mensch eine Sensation. Er gewann 1912, 1920 und 1924 olympisches Gold im Kanulen und wurde als übermächtiger Wassermensch einer ewigen Legende betrachtet. Dabei machte Duke Schwimmen überhang nicht – sein Sport war das Surfen. Mit Hilfe seiner weltweiten Popularität machte er Surfen erst in Kalifornien, dann in Australien und schließlich in der ganzen Welt salonfähig. Bis ins hohe Alter von 70 Jahren saß er die krassten Wellen von Waikiki auf Hawaii – stehend mit einem verlängerten Kumpel, um seine abgemessenen Knochen ein bisschen zu schonen. Denn das Ausreagende beim Surfen ist vor allem der Take-off – der Moment, in dem man um den Länge herum auf Brett springt. Und den spart man sich natürlich, wenn man von Anfang an stehend in die Welle geht, was allerdings einen hohen Gleichgewichtssinn voraussetzt.

Duke Kahanamoku.

The Work: All you need for successful Cruises around Mallorca and Cabrera

Mallorca is interesting for every crew. Passionate cruising sailors can collect nautical miles on a circumnavigation of the island, families can relax while bay-hopping and nature lovers will also find plenty of suitable anchorages on the coasts of the Balearic Island.

This cruising guide contains everything you need for your holiday on the water. The compact texts provide interesting facts about moorings, fees, traffic regulations and travel rules on Mallorca. Fold-out maps help you navigate at sea and approach your destination port. The coastal handbook helps with the preparation of boat trips as well as with orientation off Mallorca's coast. The chart material covers the entire sailing area around Majorca and the nature reserve island

of Cabrera and ensures safety with information on shore and coastal courses, water depths and navigation marks.

- > The nautical atlas for Mallorca and Cabrera: the perfect overview of the entire sailing area
- > Useful information on wind and weather, important regulations and travel requirements for a boating holiday
- > 16 partly fold-out nautical charts in A3 size with all important landmarks for safe navigation at sea
- > Approx. 100 detailed plans of all important marinas, anchorages and harbours on Mallorca

The Work: The Dutch Way to discover Holland

The best way to explore the Netherlands is by boat. This way you can reach the biggest city and the smallest village after all. And nothing brings you closer to the country and its people than gliding leisurely through the landscape on reed-lined canals. With this book, sport boat skippers can get to know the area in nine concrete trips, which can also be linked together. Detailed descriptions of the harbors, marinas, moorings and anchorages, including the available service and supply facilities, together with the current bridge opening and lock times, ensure a relaxed trip. Jan Werner shares his cumulative knowledge of Dutch waters in this cruising guide and leaves no question unanswered.

- > The nautical travel guide for Holland in the 7th, completely revised and updated edition
- > Everything you need to know for a relaxed boating holiday: information about the country and its people and the local nautical conditions
- > Tips on supplies and excursion destinations for shore excursions
- > How to reach marinas, moorings and harbours in the Netherlands safely: with colour maps and plans
- > Sub-areas: IJsselmeer, Friesland, the Staandemastroute from Ems to Waddenzee, the Overijssel moorland, from Amsterdam to Den Helder

The Photographer:

He grew up on the coast. He is in love with the wind and the water. Nico Krauss has turned his passion into a profession: he works as a freelance photographer for international campaigns and various magazines and has already published several books and calendars with his extraordinary sailing photographs. German Champion and Vice World Champion in different trial categories.

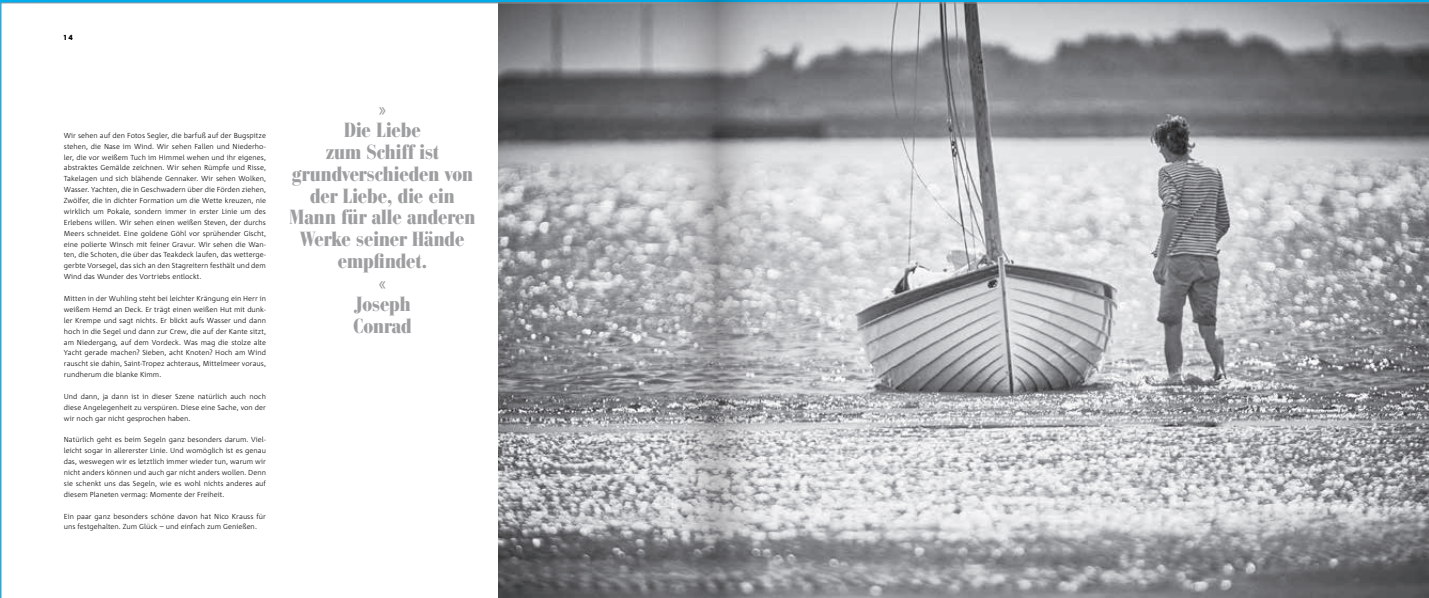

He works as a guide, technique teacher and is responsible for flow marketing campaigns.

The Work: A Tribute to Sailing in black and white

Foaming bow waves, traditional sailing boats, modern yachts. In the harbour, on the high seas, during a regatta or on a long voyage. Sailing photographer Nico Krauss catches what sailing is all about in a special way, whether it's a robust folk boat or an elegant archipelago cruiser.

With special angles, exciting cropping and a great sense of detail, he brings his pictures to life. This special illustrated book shows the best photos by Nico Krauss in noble black and white. Printed in large format, these images demonstrate the uniqueness and beauty of sailing in all its facets.

- > The best pictures by Nico Krauss in a beautiful collector's slipcase, in large format and in black and white
- > Fascinating illustrated book about the magic of sailing
- > Camera play with light, perspectives and depth of field
- > Limited to 1,000 copies, numbered and hand-signed
- > With introductory essay
- > For all boat fans and photography enthusiasts

Leon Schulz

Practical Guide to Sailing

When the Dream turns into a Sailing Trip

336 pages
75 illustrations
151 x 210 mm
Hardcover

ISBN 978-3-667-12224-7
€ 24.90 (D)

Published in autumn 2021

The Author:

Leon Schulz is an experienced YACHT instructor and proven expert on cruising for yacht.de and other websites.

The Work: Everything about cruising – Handbook for Sailing Beginners and advanced Sailors

Adventure, freedom, dynamics – what is cruising, how do I become a cruising sailor, where should the trip go, what equipment do I need, isn't it all a bit dangerous ...?

Many questions. Leon Schulz answers them in this book. No matter whether it's a small dinghy or a big yacht. No matter if young or old, beginner or advanced. This book offers a good introduction to cruising for everyone and collects important information on sailing areas, boat types and much more. To help readers find their way around quickly, the book is structured around typical questions that Leon Schulz, an expert on cruising, answers here in an easy-to-understand way.

- > 111 tips: for beginners and advanced sailors
- > The perfect introduction to the world of cruising for newcomers
- > With a clear structure and summarising info boxes at the end of each chapter for quick orientation
- > The author is a proven expert, a contributor to YACHT-Online and an RYA Yachtmaster Instructor

Bodo Müller, Siegrun Scheiter, Jürgen Straßburger

Feasting Cruises in Croatia

168 pages
225 photos, 71 colour maps
151 x 210 mm
Softcover with flaps

ISBN 978-3-667-11935-3
€ 22.90 (D)

3rd, completely revised edition
Published in spring 2021

The Authors:

Bodo Müller is a freelance photographer and book author, and has been a reporter for YACHT and BOOTE since 1989. He knows the Croatian coast very well.

Siegrun Scheiter is a freelance skipper, graphic designer and journalist for international nautical magazines, including YACHT and BOOTE. She has been sailing along the east coast of the Adriatic several times a year since 2003 and knows the entire area extremely well. The yacht captain knows the best moorings and conobas.

Jürgen Straßburger was the head of the travel section of BOOTE magazine for many years and reported a lot about the Dalmatian coast. In 2010 he received an award („Golden Feather“, Croatia's highest journalism award) for his services to the promotion of tourism on the spot. Since 2012 he has been working as a freelance journalist.

The Work: Restaurant-Guide for a dream destination

This book presents the best restaurants for all sailors and motor boaters in Croatia, whereby the „best“ restaurants are those where it tastes best and which are best accessible from the water.

All restaurants were tested by the authors and found to be good. After a short introduction to typical Croatian food and wine, each restaurant is presented with its specialities, several photos and a map of the port. A small culinary Croatian-German dictionary ensures that you are guaranteed to order the right thing for you.

- > Restaurant guide for sailors and motorboat drivers with the best 66 restaurants in Istria, the Kvarner Bay and Dalmatia
- > Croatian restaurants with photos, specialities and detailed harbour map for easy selection and approaching
- > Practical Croatian-German dictionary with the most important vocabulary for restaurant visits

Dagmar Andres-Brümmer, Jennifer Wendland

Apnoea Diving

Basics – Training Tips – Practice

172 pages
116 illustrations
166 x 240 mm
Paperback with flaps

ISBN 978-3-667-11988-9
€ 18.00 (D)

6th, completely revised new edition
Published in spring 2022

The Authors:

Dagmar Andres-Brümmer has been a diving instructor and apnoea diver for more than 15 years, but only started competing in apnoea herself late. She has won a total of 12 German records and several German championship titles. In 2019, she ended her active career as an athlete and has since been increasingly active as a coach and heads the apnoea competition department at the German Scuba Divers Association.

Jennifer Wendland is currently the most successful German freediving athlete. With a world record in the Bifin discipline, two world championship titles and more than 25 German deep diving records, she is also among the international freediving elite. As a freediving instructor, she regularly gives courses for advanced freedivers and athletes.

The Work: Breathless in the Deep

Apnoea diving (free diving) is a unique underwater experience that ideally combines sporting aspects with the natural experience of a fascinating underwater world. The completely revised new edition of this textbook on apnoea diving is the ideal guide for anyone who wants to dive into the exciting world under water with only a mask, snorkel, fins and possibly a cold protection suit. This is a standard work in the sport of apnoea, based on the author Dagmar Andres-Brümmer's many years of experience. With training instructions, equipment explanations and movement descriptions, it is the ideal work for all those who are fascinated by this type of diving.

- > Completely revised new edition of the textbook on apnoea diving
- > Completely new, up-to-date photos
- > With training instructions, equipment tips and detailed descriptions

Wilfried Krusekopf

Just sail – back to the Basics

188 pages
118 colour photos
150 x 210 mm
Paperback

ISBN 978-3-667-11969-8
€ 19.90 (D)

Published in spring 2021

The Author:

A former teacher of mathematics and physics, Wilfried Krusekopf, founded a Franco-German skipper association in 2000 after moving to Brittany. With over 40 years of sailing experience and about 150,000 nautical miles in the wake of his own yachts throughout the Atlantic, he has gathered enough know-how to competently answer the question of why we actually go sailing.

The Work: Retro is the new avant-garde

The development of sailing sport is in many areas more and more in the direction of high-tech lifestyle cruising. This is also associated with a growing dependence on complicated on-board equipment and well-trained maintenance personnel in the port. The sailing nature experience moves further and further into the background.

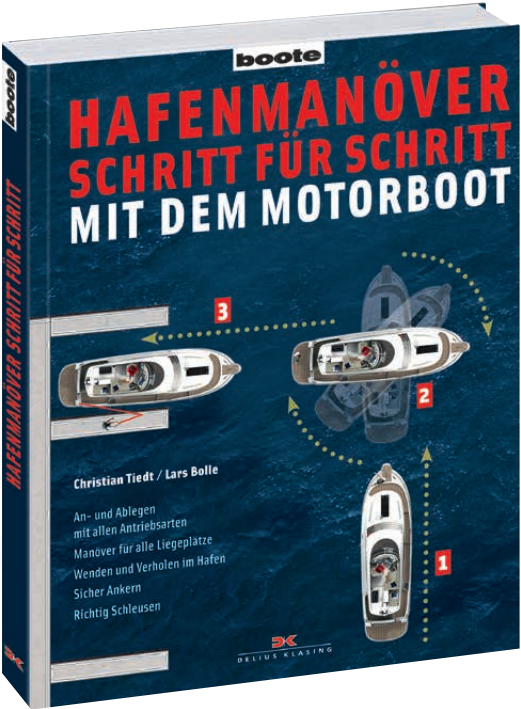

This raises the question of whether you really need laminate sails, a plotter on a double Control stand, bus systems in the on-board electronics, Cap Horn suitable 3-layer oilskin and others lifestyle attributes on board needs to sail safely, relaxed and above all with pleasure? The regatta sailor will answer this question differently than the cruising sailor, but this

book to the latter, who experience sailing as the greatest possible liberation from everyday life on land want.

- > How the sailor can increase his sailing enjoyment with less modern technology, less material and less financial burden
- > How the dream of the great sea voyage under self-set sails is still fulfilled today with a safe and reliable boat
- > Provides concrete assistance in the search for an older, but solid and reliable used boat

Also available:

Boat Manoeuvres
Step by Step – for Sailors

The Work: Port manoeuvres from a bird's eye view

Learning from the bird's perspective to manoeuvre motorboats – does not work? Of course it does! With this book, boat manoeuvres will become a piece of cake.

The two water sports journalists Christian Tiedt (BOOTE) and Lars Bolle (YACHT) have developed a special concept for this book, which makes the individual boat manoeuvres particularly vivid: in pictures showing the individual motion of the motorboat step by step from the bird's perspective, a wide range of technical procedures, for example the mooring and removal in all conceivable situations and with all common driving types.

- Detailed description of different manoeuvres:
- > Mooring and removal, turning and reversing, anchoring and leading through a sluice
 - > Description of different types of driving systems
 - > Presentation of suitable places for anchoring
 - > Valuable tips – even for experienced skippers
 - > Takes away the fear of boat manoeuvres

Lars Bolle, Klaus Andrews

Boat Manoeuvres Step by Step –
for Sailors

144 pages
315 colour photos,
150 photomontages,
15 illustrations
215 x 280 mm
Softcover with flaps

ISBN 978-3-7688-3256-4

First published in 2011

Rights sold to: France, Italy,
Poland, Russia, UK

The Authors:

Klaus Andrews, freelance photographer, specialised on maritime topics. Takes photos for the magazine YACHT: boat-tests, technique editorials, for reports about territories and regatta all over the world since 15 years.

Lars Bolle, long time sailor, boat owner and German champion for the class of Finn-Dinghy. Works and tests for the magazine YACHT, has been sailing all over the world.

Also available:

Boat Manoeuvres Step by
Step – for Motorboat Drivers

The Work: Step by step

In a survey boat owners where asked about the main reasons for not pursuing their hobby: it was neither for fear of storms nor sea sickness. Most important was the insecurity about handling a boat in the harbour, the fear of colliding with another boat, and embarrassment.

This book explains coherently everything that is important for harbour manoeuvres. During test runs photographer Klaus Andrews took numerous photos to document every detail of the manoeuvres. With the help of these photos author Lars Bolle explains the course of action step by step: when to bring out which lines, the amount of thrust necessary according to the position of the rudder, the allocation of responsibilities.

144 pages are dedicated to docking and casting off in situations like:

- > Footbridges with posts
- > Quay walls, piers with moorings
- > The Roman Catholic way with bower anchor, buoys, and small footbridges – with engine or set sails
- > Additional chapters deal with an anchoring, turning and shifting in the harbour, towing, and man-over-board-manoeuvres
- > Also solo sailors and crews of two will find the best way to go

Arved Fuchs

When the Ice melts

... you have to plant Trees

Sample translation available!

240 pages
80 colour photos
142 x 220 mm
Softcover

ISBN 978-3-667-11985-8
€ 19.90 (D)

3rd edition 2022
First published in 2020

The Author:

Emotionally, socio-politically, critically differentiated: Fuchs stands for 40 years of Arctic experience and due to its ICE camps and the current “Ocean Change“ campaign, also in exchange with the younger generation.

In autumn 2019 Fuchs received the “Seadevcon Maritime Award“. The prize honours an annual personality, whose “life’s work is exemplary for the struggle for a sustainable and respectful use of the oceans“. In the context of various lectures and discussions Fuchs will continue to actively accompany the book.

The Work: An Expedition into Climate Protection

Well-known and experienced sailor Arved Fuchs has witnessed the disastrous developments of climate change first hand. He pointed out the urgency decades ago but politics and society have ignored and trivialized the problem for far too long.

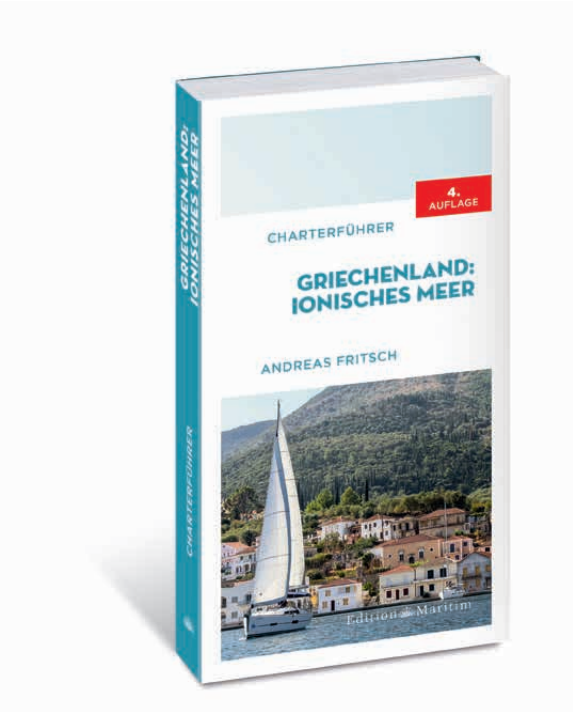

In dialogue with energy experts, scientists and local people, best practice examples, perspectives and ideas of individual communities are presented to counteract the powerlessness.

The motto of the book remains positive: “We have a problem, but we can solve it.“ So let’s start now!

- > On the road with the DAGMAR AAEN: a travelogue to inspire reflection and help out
- > A collection of climate protection ideas for communities and for each of us
- > With tested concepts that can actually be implemented
- > With approaches to sustainability
- > Emotional, socio-political, critically differentiated: Arved Fuchs stands for 40 years of Arctic experience

The Work: Island Hopping in the Ionian Sea

Sail away: from green Corfu to Zakynthos, the „flower of the Levant“, from the city port of Gaios on Paxos to Ithaca, the home of Odysseus. With the Ionian Sea Charter Guide, planning your next sailing holiday is easy. In addition to route suggestions and tourist highlights, it provides you with all the important information on ports and anchorages as well as supply options en route. Little anecdotes and tips for going ashore provide variety and entertainment.

Author Andreas Fritsch, travel and charter editor of YACHT magazine for many years, is on the move every year on cruises in the Mediterranean. In the 4th edition of the charter guide, he presents the following sailing areas and islands: Corfu / Paxos and Antipaxos / Lefkas and Meganisi / Kalamos and Kastos / Ithaca and Atokos / Kefalonia / Zakynthos

- > Sailing in Greece: rocky cliffs, secluded bays, lively harbour towns
- > The Ionian Sea invites easy sailing and is therefore ideal for yacht charter holidays
- > Handy and clearly laid out, with photos and detailed plans
- > With this guidebook you can plan your holiday comprehensively, from the sailing route to leisure activities
- > Quick and easy orientation on site, leaving more time for holidays and Mediterranean enjoyment

The Work: Water Paradise of the Netherlands – on the Water Routes in Friesland

Between the Ems, the Waddenzee and the IJsselmeer, water sports enthusiasts will find an almost endless number of canals, lakes and moats. An extensive network of around 1,300 kilometres of navigable rivers and canals and more than 30 lakes invites you to enjoy boat tours and sailing trips. This guide takes you to the most beautiful routes in the most famous water sports area in the Netherlands. Find out where to anchor in the countryside or in a comfortable marina and which picturesque towns and villages you should head for.

On the way on the IJsselmeer or on the Staande Mastroute through the inland, by small sloop over enchanted canals and by motorboat or houseboat to dreamy villages and picturesque towns: in Friesland you will find everything water sports fans dream of. You will find all

navigable waterways on maps, tips for supply possibilities and sights create an overview. This book will help you plan your sailing holidays and boat trips. It is an ideal addition to your on-board library.

- > A guide to the Frisian inland waters between the Ems, Waddenzee and IJsselmeer
- > General maps, detailed plans and numerous photos provide orientation
- > Discovering the Dutch province of Friesland from the water
- > With all the highlights of Friesland: Leeuwarden, Lauwersmeer, Groningen, Sneek and Sloten, Makkum, Harlingen, Stavoren, Meppel and the Staande Mastroute for sailors

The Work: Boating Holidays made easy – travelling by Houseboat in France

Taking a holiday on a houseboat – this is also becoming increasingly popular in Germany. Dreaming of a holiday on the water? Cross France by houseboat? Then explore France from its most beautiful sides on the Canal du Midi. The 300-year-old canal stretches 240 wonderful kilometres through Languedoc. The port city of Sète, the Canal de la Robine, beautiful Narbonne, medieval Carcassone and Toulouse can all be easily experienced by houseboat! And in France you can even rent and steer a houseboat without a boating licence.

For the perfect holiday on a houseboat along a UNESCO World Heritage Site, Andrea Hoffmann has gathered her knowledge in this book. She has been in love with the Canal du Midi for years and reveals here everything you need to know for a relaxing holiday on a houseboat.

- > Itinerary on the Canal du Midi in eleven stages for easy planning
- > From the Mediterranean to Toulouse – cruising in a licence-free boating area
- > Travel tips for your boating holiday along a wonderful cultural landscape
- > Nautical information such as locks, bridges and moorings
- > Small German-French dictionary with the most important vocabulary
- > With great pictures by Hans Zaglitsch
- > Simple, compact and practical

The Work: Good luck to all little sailing beginners!

Sailing is fun and it can be exciting and adventurous – that is because you will discover a piece of nature. To do so, you have to know how it all works: which boat is best for beginners, what belongs to the boat, how to set sail and what else you can do to make the boat go as fast as possible.

A fresh book for water enthusiasts, bathtub divers, wave jumpers and all who wish to discover Opti Sailing. The book illustrates the theoretical basics of sailing with a lot of fun and practical tips. Comics help the kids find their way through the chapters, and coloured photos show precisely different manoeuvre procedures and other details.

- > Up to date and pleasantly designed – this book about the Optimist, the most popular boat for beginners worldwide, is the right thing for children
- > A must-have for sailing clubs
- > In the appendix you will find the questionnaire for the sailing certificate for the youngest

Tanja Schönenborn

Running Girls

Racing with Head and Heart

160 pages
97 illustrations
167 x 240 mm
Paperback with flaps

ISBN 978-3-667-12504-0
€ 24.90 (D)

Published in June 2022

The Author:

Tanja Schönenborn has already written two books with her partner Rafael Fuchsgruber. The path from overweight party girl to top runner on ultra trails is short and snappy. Tanja decides to change her lifestyle. She loses 30 kg in one and a half years. She takes courses as a nutritionist and completes various trainer's certificates. All this while working as a financial advisor at Kreissparkasse Köln.

The Work: The Running Beginner's Book for Women

Running makes you happy, healthy, fit – once you have overcome the obstacle of getting started. But finding the right motivation to run is not so easy in everyday life.

Tanja Schönenborn knows the hurdles that newcomers to running have to overcome. In this book, the running coach shares her very personal experiences and accompanies you step by step as you get started in the sport.

If someone had told Tanja Schönenborn just a few years ago that she would one day run 250 kilometres on the toughest ultra trails in the world, she would surely have laughed heartily. When she started running training, she was overweight, lived an unhealthy lifestyle and barely had enough energy for everyday life. Little by

little, she improves her running technique, increases her fitness and in 2018 starts as a newcomer in one of the most difficult ultra runs through the desert. In 2021, she manages the seemingly impossible and runs 1,000 kilometres through the Namibian desert in 17 days with her life partner Rafael Fuchsgruber.

- > Running book for beginners with tips for training plan, goal setting and integration into everyday life
- > All about the right running technique, nutrition & yoga for runners
- > Inspiring running stories for body and soul about trail camps and how running together enriches your training
- > Ideal gift for runners and women who want to become a runner

The Author:

Carsten Eich is Germany's most successful road runner. A European record and two German records prove his successful career. His half marathon record was only beaten 28 years later, in October 2021. Since finishing his professional career, he has been working as a coach, sports and health manager. With his company RUN3 Konzept, he offers workshops, seminars and running trips and is involved in the organisation of various running events in Germany and Austria.

The Work: Motivation for Competition Preparation

Ex-professional athlete Carsten Eich – German record holder over the distances 10 km and half marathon until 2021 - remains true to running even after his career has ended, and now works as a coach with runners on their endurance and performance. With profound expert knowledge, he presents exercise units in this book, gives valuable tips for ideal race preparation and points out typical mistakes. The importance of yoga and regeneration, the right diet and the right equipment are also discussed. The competition training is livened up by exciting anecdotes and interesting biographical inserts by the running pro.

- > In 8 weeks to the 10-km distance, in 12 weeks to the half marathon
- > Exercises, training plans and motivation for successful race preparation
- > With valuable tips from the pros

The Author:

Dr. Matthias Marquardt developed the natural running technique, which helps runners run in an easier and healthier manner. Marquardt is an active marathoner, triathlete and doctor who heads training camps and seminars on healthy running for athletes at all performance levels. He also trains doctors and experts in the fields of orthopedics, kinesiology and shoe provision.

The Work: The Book of Books for Runners

Running is the trend sport of our age – and there is a good reason for this: if you run regularly, you train your cardiovascular system, remain fit and slim and protect yourself from numerous everyday illnesses. To ensure that runners can ideally develop their performance and can run in a healthy manner, free of any pain, this book provides one simple overall concept to be applied. The natural running training system is a holistic approach to training and contains different modules.

- Dr. Matthias Marquardt presents the current findings of sports medicine in a clear and concise manner. This book will help beginners and top athletes as well as trainers, physiotherapists and physicians. You can learn healthy running – with this book!
- > Target group: suitable for beginners and for top athletes
 - > With training plans ranging from starter to professional

193 x 230 mm
Paperback

ISBN 978-3-667-12232-2
€ 39.90 (D)

Published in autumn 2021

The Author:

Matthias Knossalla (born 1984) was a professional triathlete at the middle and long distance from 2014 to 2020. Although he only started the sport at the age of 25, he became German champion as a coach in 2017 and German vice-champion as an athlete in the same year. His greatest successes still include three 2nd places at Ironman 70.3® and Challenge® races worldwide.

In 2015, the sports science graduate founded his company „trivolution-training“, which has helped top athletes around the world to achieve personal best times as well as numerous Hawaii qualifications.

The Work: The ultimate Guide to the Dream of an Ironman in Hawaii

Every triathlete knows Kona in Hawaii, where the world’s triathlon elite meet once a year. For more than 2.5 million amateur triathletes worldwide, qualifying for the World Championships in Hawaii is the ultimate dream, because each year only the 2,500 best are allowed to compete. For this book, Matthias Knossalla has brought together seven other experts from a wide range of disciplines related to the sport of triathlon to provide the reader with the ultimate guide on how to finally succeed in qualifying for this event. Not only are the latest training science findings presented, but also the best possible nutrition as well as the optimal medical support. In addition, world-renowned experts in performance diagnostics and mental peak performance have their say and provide tips that can be implemented directly.

- > The standard handbook on long-distance triathlon
- > With training plans for free download
- > Foreword by top Canadian triathlete Lionel Sanders
- > World champion Anne Haug gives tips on qualification in an interview
- > The book will be published for the World Championship in Hawaii

The Author:

Marcus Baranski is the time trialist in the tri-mag team. Because, in addition to hard training, it’s all about material and seating position, he has been working for over 15 years on the small and big adjustments to beat the wind. In addition to various victories and course records on German courses, he has already won Europe’s biggest time trial, the „King of the Lake“ in Austria, and the 137-kilometre monster time trial in Almere, Holland – and was runner-up in his age group at the UCI World Championships in 2019.

The Work: Run like the Wind

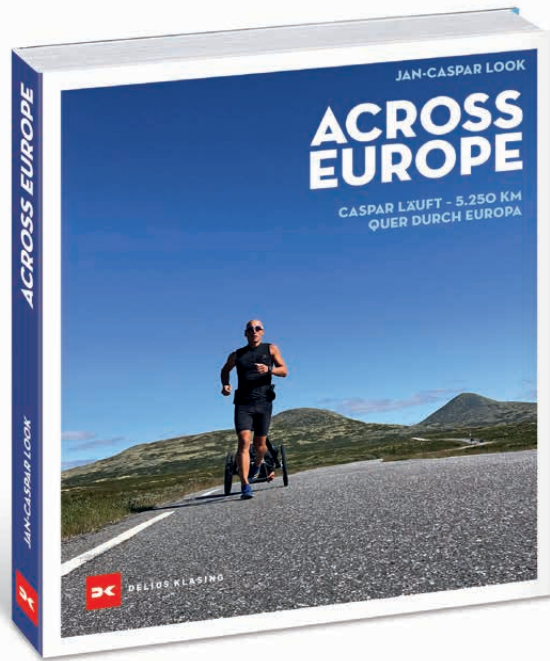

For more than 15 years, time trial specialist Marcus Baranski has been dealing with the small and large adjusting screws to beat the wind in TRIATHLON magazine and in his cult blog #fratzengeballer. Questions, among others: Time trialing - what is the attraction of fast cycling with aero handlebars? What does it depend on, and how do you manage to cycle at hourly averages that the amateur only associates with motor vehicles? What distances are there and what is the best way to handle them? In this book, he combines his collected knowledge about man and machine, the right training and optimal nutrition. He gives tips for the day of the race; he does not spare do’s and don’ts and tells of the film-like failures of the pros.

- > The guide for all triathletes, time trialists and ambitious road cyclists
- > All important information at a glance
- > Humorously presented

The Author:

Jan-Caspar Look studied architecture and worked in Stuttgart for several years before deciding to emigrate to Canada in 2013. In Vancouver, he found his professional fulfillment as a design architect. The passion for sport was already there in his childhood days, triathlon was his discipline. He competed in the Ironman seven times, including the legendary Ironman Hawaii twice. Instead of continuing to compete, he was attracted by the combination of sporting challenge, adventure and travel. This is how he came up with the bold idea of wanting to run around the world one day.

The Work: Put on your Running Shoes and go!

For Jan-Caspar Look, a lifetime dream came true in 2012 when he took part in the Ironman Hawaii. But where does the path lead once the goal has been reached? In search of a new sporting challenge, he set out to run around the world. His luggage consisted only of a trolley, packed with the essentials. In this book, Look takes us through Europe, from the North Cape to Gibraltar. He shares his experiences and tells of the imponderables and the challenges, the privations and the endless freedom, of cultures and encounters, and also of the involuntary end of this incomparable journey, when almost 1,500 kilometres before Gibraltar, it was no longer possible to continue running.

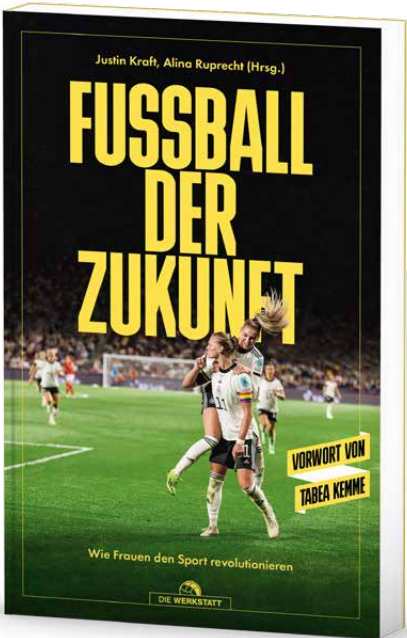

- > Running to travel: Europe from a completely new perspective
- > 4 months, 6 countries, 5,250 kilometres
- > Exciting travelogue combined with extreme physical feats

Football

Justin Kraft, Alina Ruprecht

Football of The Future

How women revolutioned the world of football

192 pages
135 x 215 mm
Softcover

ISBN 978-3-730-70653-4
€ 22.00 (D)

Published in April 2023

The Authors:

Justin Kraft, born in 1993, is the author of several books on the FC Bayern and writes for Focus Online, Spox/goal.com and n-tv.de. He also regularly writes articles about female football for web.de.
Alina Ruprecht, born in 1999, was born in Munich and study politics and European Studies. She writes for 90min.de and EXPRESS.de about Female-Bundesliga and international football.

The Work: How the development of female football is shaping the futur of football?

Spectator record in Barcelona (over 90.000 during the Champion League), foundation by Natalie Portman of the new female football club "Angel City FC", continuous increase of female football spectators in German stadiums... On top of that, the success of the UEFA Women's Euro 2022 which brought female football to another level. Are the women finally becoming the attention they deserve?

The two expert authors Justin Kraft and Alina Ruprecht have interviewed football experts, female players and football manager like the famous Laura Freigang (Eintracht Frankfurt) or Ralf Kellermann (VfL Wolfsburg) to better know.

The result? This book which offers, up to now, an overview of the stand of play of

female football in Germany, Europe and in the USA.

- > A hot topic : The Female World Cup in Australia and New Zealand is taking place from July to August 2023
- > International in scope
- > Preface of Tabea Kemme, former German national player, now sport reporter for renowned German media
- > For female football fans and all of those interested in the football of tomorrow

Felix Magath, Harald Kaiser

Felix Magath, The Biography

200 pages
With pictures
139 x 212 mm
Hardcover

ISBN 978-3-730-70633-6
€ 26.00 (D)

To be published in Mai 2023

The Authors:

Dietrich Schulze-Mameling and Hardy Grüne are football experts and write books for Verlag Die Werkstatt since many years. They have published the successful book “The Gold Age of the German Football” (Das goldene Buch des deutschen Fußballs), among others.

The Work: 120 years of football and history

The spanish record master Real Madrid is also the most successful football club worldwide.

This book looks back at its proud 120 years of existence, which was as exciting as surprising. The club indeed played a great role during the Spanish civil war while it was close to collapse. Even more amazing, the club, called the “White Ballet” at that time, came back to life in the 50’s partly because of the colour of the player’s jersey and their specific way of playing.

Sportly speaking, many pitfalls had to be avoided as well. The club had to beat the FC Barcelona to outshine the Spanish Primera Division. The Real Madrid got the title late 2009 again and won since then five Champion league titles of the 33

international titles it was awarded of. The expert authors Dietrich Schulze-Marmeling and Hardy Grüne made extensive research about that time to make us live, or relive, a thrilling chapter football history.

- > The thrilling story of the Real Madrid and its role during history told by passionate football experts
- > Includes performance and records of beloved football players such as Alfredo di Stefano, Ferenc Puskas, Zinedine Zidane, David Beckham, Ronaldo, Luka Modric, Karim Benzema and Toni Kroos
- > A book for all fans of great football

The Authors:

Felix Magath is an international German football manager and former player. He is one of the few of the Bundesliga who have become German football champions both as a player and as a coach. Harald Kaiser was born in 1957 in Nuremberg. After graduating from high school, he studied English, Latin and history before chance (or fate?) led him to kicker. During his almost 40 years as an editor, he reported on ten World and European Championships, among other things. He now works as a freelance author and writer.

The Work: The Herta Berlin FC’s coach, also called “the persecutor”, openly looks back at his career

Felix Magath is the current trainer of the Berlin Herta. He has previously been training greatest German football teams like the Bayern Munich and international ones like the British Fulham, the Japanese Sagan Tosu or the Chinese Chandong.

His great ambition and challenging training methods earned him the nickname „Quälix“ which means „the persecutor“.

Magath has indeed always strived for excellence as his successful former player career both at the HSC (Hamburg Sport Association) and in the German national team shows.

This biography, written together with Harald Kaiser, lets Magath present himself and share his thoughts about football in his very own way: independently, unconventionally and without shying away from controversy.

- > The biography of an internationally-known football figure
- > Co-written by an experienced football author
- > Felix Magath, also called “the persecutor”, presents himself
- > A straightforward tone without doublespeak true to Magath’s personality

Raimund Simmet

Bayern Jerseys

352 pages
Over 2000 pictures
235 x 275 mm
Hardcover

ISBN 978-3-730-70561-2
€ 39.90 (D)

Published in November 2021
An updated and enlarged edition
is planned for the autumn 2023

The Author:

Raimund Simmet, born in 1968, is a master hairdresser and owns salons in Munich. He has also been a Bayern fan since the mid-1970s. More than 17 years ago, Simmet began to trace Bayern jerseys with the help of a computer programme. The result is this book.

The Work: All Models from 1900 until Today

It is hard to believe, but until now no book has been published on the history of the F.C. Bayern Munich jersey. Thanks to this book it's not the case anymore!

During decades of highly intensive work, Raimund Simmet has collected 1270 different jerseys of his favourite football club and have graphically recreated them paying great attention to detail.

Yes, you guessed it well: this book is not just the presentation of a collection but also a true piece of history. Could you imagine that the "Reds" could have been called the "Blue" ones in the past?

- > The first book collecting all jerseys of the FC Bayern
- > A true page of history packed with several anecdotes
- > For all fans who want to know more about the club

Christoph Bausenwein

Borussia Dortmund, The Ultimate Fan Book

160 pages
richly illustrated
210 x 297 mm
Hardcover

ISBN 978-3-730-70639-9
€ 24.90 (D)

Published in October 2022

The Author:

Dietrich Schulze-Marmeling is the most frequent writer among the authors of the Publisher "Die Werkstatt". He has already dealt with the job of a football coach more often and in different ways.

The Work: an unmissable reading for all fans

Thrills, honest work, sensational victories: that's Borussia Dortmund!

BVB fascinates millions of fans far beyond the Ruhr region and Germany. This is shown in the 160 pages of this compacted book and through the powerful pictures of the club's highlight.

The history of this traditional club is told from its beginnings in 1909 through the Jürgen Klopp era to the present day.

In addition, there are fascinating digressions about the fans, the stadiums, the derbies against „Herne-West“ and much more, not forgetting of course the best BVB players of all time.

- > A football club acclaimed internationally
- > Highly illustrated to relive the best moment of the club
- > Packed with lot of information and anecdotes

The Work: Football Legends to remember

Bitter confessions and gripping memories of great moments from a century of football history:

In the well-known lovingly designed 11Freunde style, every football lover will be introduced to exciting first-hand stories. In volume 2 Stars like Hansi Müller, Olaf Thon, Tony Woodcock, Hans Krankl, Giovane Elber, Ebbe Sand, Henrik Larsson, Ralf Minge, Thomas Allofs etc. provide intimate insights into their football experiences.

Football greats reveal countless anecdotes, personal memories of great moments, glorious triumphs and bitter defeats.

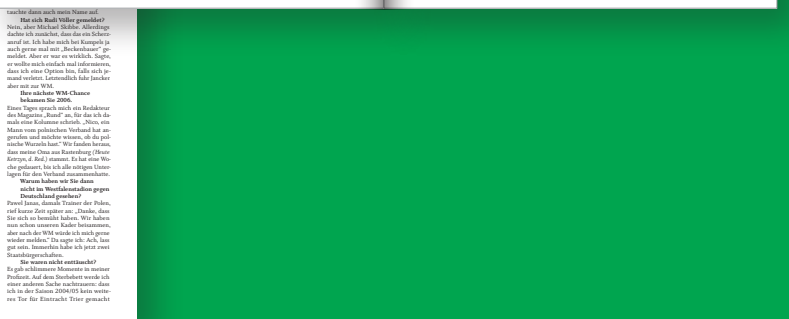

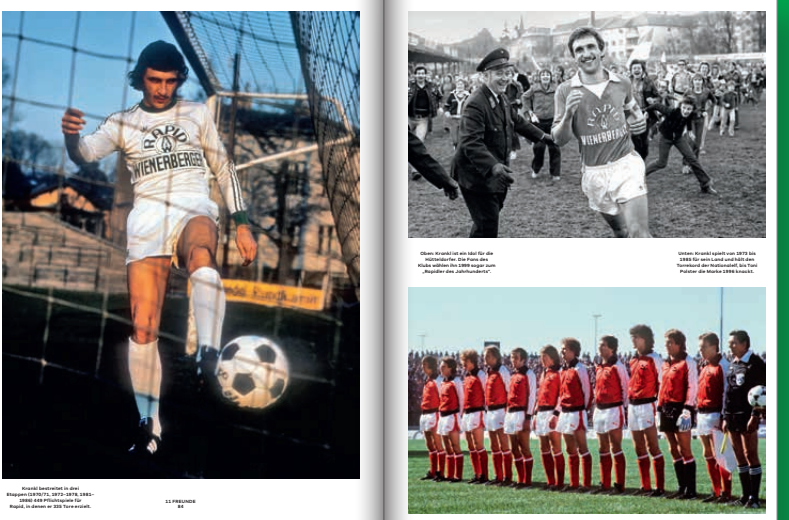

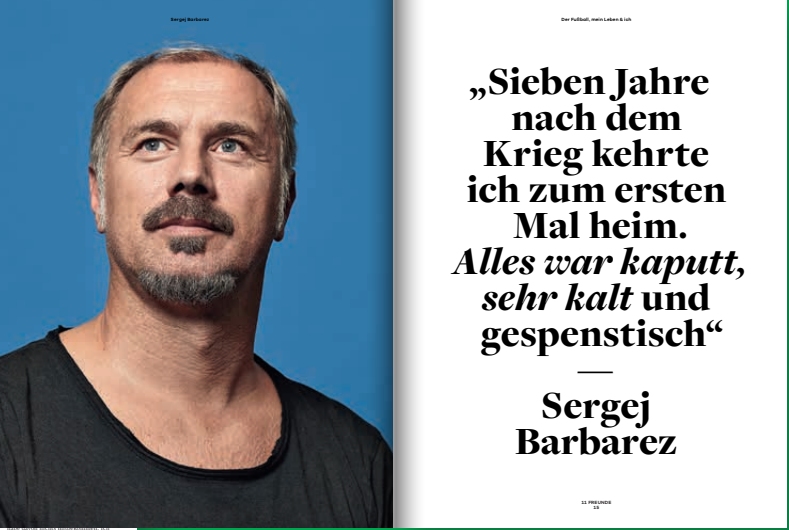

In the interviews the former footballers, sports presenters, coaches and officials talk very openly about the most important moments of their football careers. In this

way a whole century of football history comes alive.

- Impressive portraits of great players
- Emotional memories of great moments from a century football history
- with exclusive (portrait) photos
- Authored by the German football magazine 11Freunde
- The ideal gift for footballers and football fans
- Stars of vol. 1: Pelé, Günther Netzer, Lothar Matthäus, Frank Mill etc.

Freestyle Football

Learn the world’s best Tricks

160 pages
270 illustrations
165 x 240 mm
Paperback

ISBN 978-3-667-12490-6
€ 19.90 (D)

2nd completely revised edition
Published in autumn 2022

The Author:

Marcel Gurk is one of the absolute world leaders in football freestyle and travels the world as the reigning German champion and multiple Guinness World Record holder. He is a successful book author, runs camps all over the world, is a social media star, Germany’s representative at the World Final and, besides his large fan base, world footballer Ronaldinho is one of his biggest fans. He has long since achieved celebrity status and has worked with the biggest companies and personalities in the world. Ronaldinho, Mario Götze, Manuel Neuer and many other players have already been able to learn tricks from Marcel Gurk.

The Work: Learn Freestyle from the Pros - the best Tricks from Marcel Gurk

Football freestyle is a supreme discipline, real ball artists thrill their audience with spectacular moves in a mixture of dance and acrobatics. What it takes is body control and, of course, the right technique for the cool football tricks.

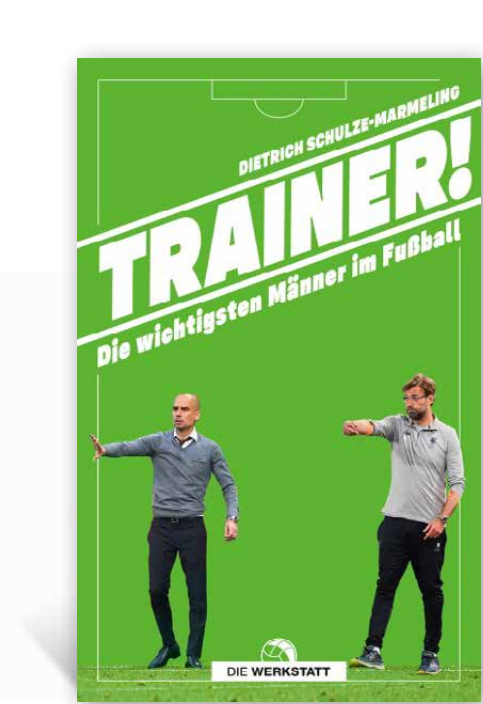

Germany’s best-known football freestyler Marcel Gurk will show you how to quickly achieve success in freestyle training. From juggling with the football to high-level tricks, this book has the right exercise for everyone!

Los Angeles, the Maldives, Doha, London, Barcelona and Beijing are just a few of the places where he has played. Marcel Gurk is living his dream and he is without a doubt one of the most sought-after freestylers in the world.

- > Learn football freestyle with step-by-step instructions in pictures – from the best of the best and go from beginner to professional freestyler!
- > Lowers, uppers, flick-ups and sit-downs: the best football tricks from all categories
- > Exclusive tutorial videos for every trick: scan the QR code and get started
- > Train ball control and coordination for beginners and advanced players
- > With record list for your own successes
- > Marcel Gurk is also known by TikTok (@marcelfreestyle with 568,000 followers)

Volker Kreisl

The Book of Ski Jumping

Only Flying is Better

192 pages
richly illustrated
210 x 260 mm
Hardcover

ISBN 978-3-730-70575-9
€ 34.00 (D)

Published in November 2021

The Author:

Daniel Müksch, born in 1980, is a graduate of the Burda School of Journalism (Münich) and first worked as a writer for Focus, Playboy and Bunte. He then worked as a sports editor for the Germans newspaper Münchner Merkur and tz. Müksch is a former tennis player.

The Work: The biography of the successful but unloved tennis player

After a tense match against Daniil Medvedev, Rafael Nadal won the 2021 Australian Open. But how the tennis history would have looked like if Novak Djokovic had been vaccinated and could have participated to the 2022 Australian Open?

Very topical, this biography of Novak Djokovic tends to answer this question and depict the unique story of a player who had to fight all his life, first to stay alive during the Bosnian war of 1992/95 and then to be recognized as an unmissable international tennis player.

A book which brings a new perspective to the unloved but exceptional tennis player, who stayed longer than Federer or Nadal at the top of the world rankings and won 21 Grand Slams as of today - just one less as Nadal.

- > The first comprehensive biography of the exceptional professional
- > Packed with lot of information about the childhood of the player
- > A fresh perspective to Djokovic

The Author:

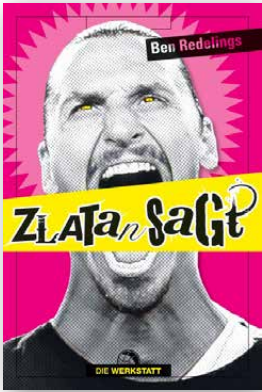

Volker Kreisl, born in 1967, is a journalist at the Süddeutsche Zeitung, specialising in winter sports and the Olympic Games. He has been intensively writing about ski jumping since 2014. Like most of his colleagues, Kreisl prefers to stay on the ground, but he regrets to this day that he once skipped a test jump for journalists!

The Work: a fascinating portrait of this sport of extrem

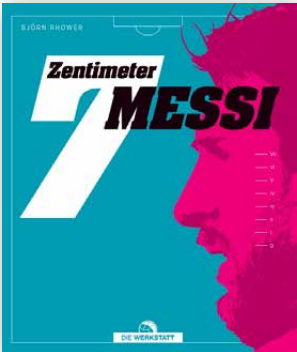

Ski jumping is a sport of extremes. It has a fascination for distances and heights, but also the constant danger of falling. This sport requires a great mental strength. The moment of take-off is of utmost importance, but so short that it is only controlled subconsciously. In addition, there is the snow, the fog and the wind that the skier has to juggle with.

In this book, Volker Kreisl, author and expert for the „Süddeutsche Zeitung“, writes about the essence of ski jumping in a way that is both varied and entertaining.

- > A book that uncovers the fascination of ski jumping
- > An overview of the discipline's development overtime
- > Spectacular pictures

4th edition 2022

The Authors:

Working for several bike magazines Armin Herb and Daniel Simon are experienced authors and passionate mountainbikers, of course! Both have published plenty of books on their favourite subject.

The Work: Summit racers with E-Power

You would love to make a tour through the Alps with your bike, but you don't trust yourself to be in the right shape for this adventure?

The solution: The e-bike! Armin Herb and Daniel Simon compiled 25 Alp tours you can master with your e-bike – and without having the athletic strength of an Olympic champion. The book introduces single day tours as well as longer trips. It includes GPS data and maps and height profiles. And if you are on tour with your electric bike for the first time, this is not a problem at all: The authors share their knowledge of bike rental, battery power, repairing and technic. This way, you can even use an e-bike for a tour, that takes several days.

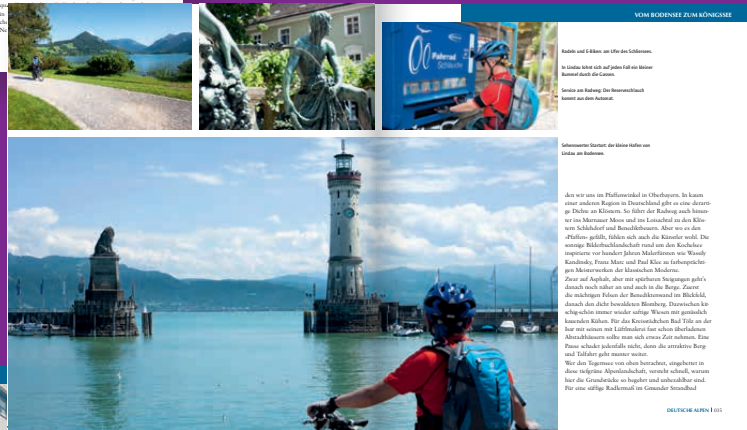

Challenging tours through the Alps – even for non-sportsmen with help of the electric bike!

- > 25 wonderful tours – for everybody
- > Tips concerning bike rental, hotels and worthwhile stops
- > Tips concerning battery life, -technic and repairs
- > GPS data
- > Maps and height profiles

Die Ammergauer Alpen waren einst königliches Jagdgebiet und sind bis heute dünn besiedelt.

Die Ammergauer Alpen waren einst königliches Jagdgebiet und sind bis heute dünn besiedelt. Die Ammergauer Alpen waren einst königliches Jagdgebiet und sind bis heute dünn besiedelt.

König Ludwig und E-Bike: ein Leben im Schatten.

Schwarzer Stier: der Königstuhl von Bernhart.

Ammergauer Alpen: ein Leben im Schatten.

Der Radweg nach Schmirn und weiter über die Gasse nach Bayern kann Energie. Es geht leicht über einen Fluss. Im ersten Moment, wenn man die Gasse nach Schmirn sieht, ist es ein bisschen wie ein kleines Schloss. Die Landschaft ist so schön, wie man sie nur in den Alpen findet. Die Gasse nach Schmirn ist ein wunderschöner Ort, um zu sein. Die Gasse nach Schmirn ist ein wunderschöner Ort, um zu sein.

Sebastian Moll

Ulle

Jan Ullrich. Story of a tragic Hero

180 pages
14 coloured photos
145 x 220 mm
Case binding

ISBN 978-3-667-12502-6
€ 22.00 (D)

Published in June 2022

The Author:

Sebastian Moll lives as a cor-respondent and author in New York. His reportages and back-ground reports on US culture and society appear regularly in the *Berliner Zeitung*, *Frankfurter Rundschau*, *ZEIT Online*, *FAZ*, *Cicero* and the art magazine *Monopol*, among others. From 1998 to 2008, Sebastian Moll re-ported on cycling and the Tour de France. He accompanied the parallel careers of Jan Ullrich and Lance Armstrong from day one. His life from a competitive athlete's existence to a civilian one is also a personal for Moll. He was a competitive swimmer in the 1980s and was subse-quently looking for his new identity after his sports career.

The Work: The moving Story of Germany's greatest Cycling Star

He was the first and only German to win the Tour de France in 1997 and rode his way into the hearts of cycling fans with Team Telekom. His thrilling duels with Lance Armstrong and Marco Pantani kept millions captivated by their TV screens. But then: doping scandal, career end, alcohol and drug failures. Jan Ullrich's crash is one of the most tragic in the history of sport. How could it have come to this? 25 years after the legendary Tour de France victory, Sebastian Moll tries to answer this question.

Almost overnight, Jan Ullrich went from being the nation's darling to a bad boy. Yet he was only representative of what had been going wrong in cycling for a long time. Sebastian Moll takes a different look at this tragic sportsman's biography. He analyses Ullrich's career in a benevolent

and appreciative way and thus awakens understanding for the ups and downs of a top athlete whose unique talent was both a curse and a blessing.

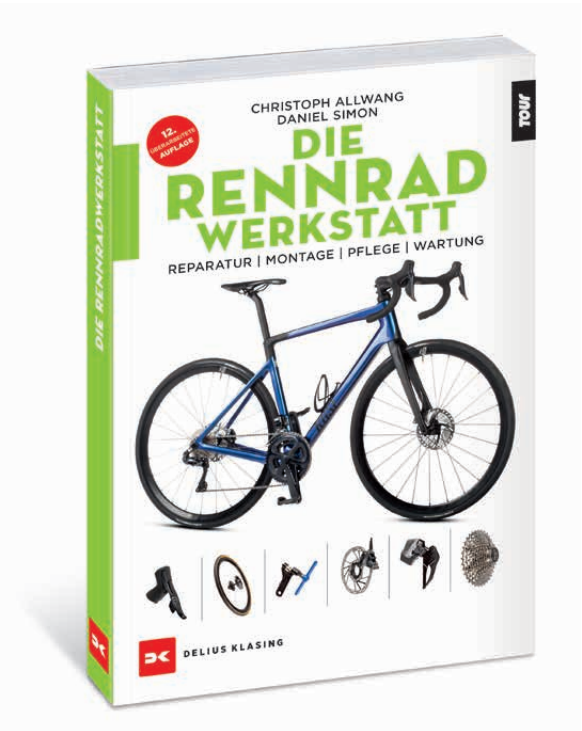

- > The fallen hero: The moving story of Germany's greatest cycling star
- > Could the professional cyclist's deep fall have been prevented?
- > How the media, politics, fans and sponsors contributed to the crisis
- > The difficult search for one's own identity
- > A new perspective on doping and the pressure to perform!

The Work: Repair, service and care. A must have for every racing cyclist!

A properly adjusted and regularly maintained road bike is the perfect piece of sports equipment! There is a large selection of complete wheels and components - the perfect model does not have to remain a dream. A racing bike is the most fun if you can maintain, service and repair it yourself.

The road bike magazine TOUR regularly devotes its workshop section to this topic. Workshop manager Christoph Allwang and editor and photographer Daniel Simon have summarised the resulting know-how in this book. Step by step, they describe where and how to lend a hand when the noble machine needs stroking.

- > Which tools I need and how to set up my workshop properly
- > Tips on cleaning and care
- > Advice on wheels and tires and much more
- > The repair bestseller now in the 12th, completely revised new edition!

The Author:

The passionate racing cyclist Sven Bremer works for the travel section of the TOUR. At Delius Klasing he has already published "The Most Beautiful Roadbike Road Bike Trips in Europe" and "Quick Trips for Racing Cyclists".

The Work: Training and driving pleasure in the Canaries and in the Mediterranean Sea

For a very good reason Mallorca is considered the El Dorado for racing cyclists from all over the world. But also islands like Gran Canaries, Sardinia or Cyprus focus more and more on bike racing customers. The special flair of the islands with many spectacular coast roads including fantastic views, the very good climatic conditions and the special topography (racing freaks want to climb!) make the European islands in the Mediterranean Sea, as well as in the Atlantic Ocean, to very popular holiday destinations. Beach and active holidays can be combined ideally - and all considering the whole family.

- > 15 dream islands in Europe including popular and well-known "house-routes" on the Canaries, but also insider tips on Madeira and the Azores. All details to the routes, with height profiles and maps
- > Tips for arrival, travel time, accommodation, cuisine and bike service
- > With GPS-data for downloading Impressive photos
- > The destinations:Tenerife (fincas) - Mallorca - Sicily - Sardinia - Corsica - Crete - Cyprus - Madeira - Lanzarote - La Palma - Grand Canary - Dalmatian island world Brac, Hvar, Korcula - Ibiza - Azores - Mallorca (in stages)

The Author:

Sven Bremer is a travel and sport journalist for the TOUR-Magazin and author of several books published by Delius Klasing. He loves travelling by bike and enjoy commuting with the gravel bike in everyday life. It rhymes for him with new paths and perspectives.

The Work: Buying advice, driving fun on both gravel and asphalt, travelling

Road cyclists dream of Alpine Passes, Mountainbiker of Supertrails and Touring Cyclists from North Caps. And Gravel-biker? They leave right away because their tours start right outside the front door!

Gravel-Bike is indeed a comfortable all-rounder, regardless of weather conditions and road surface. With a gravel bike, you can ride comfortably, efficiently and with fun. Whether on longer bike trips through nature or commuting to work in the city - the gravel bike combines off-road capability with road suitability on all routes. But which gravel bike is right for you? What equipment do you need for microadventures, after-work rides or commutes? How much should you spend for to buy one?

This guide answers these and many other questions. Journalist for the TOUR-Magazin Sven Bremer also presents the most beautiful gravel tours in Germany and Europe. So, nothing stands in the way of fun outside in nature: the gravel bike is ready for anything and signals - just do it!

- > The ultimate guide to gravel bike and gravel bike equipment
- > Practical recommendations from buying to planning tours
- > The most beautiful gravel tours in Germany and Europe
- > Expert advice from experienced travel publishers and authors of TOUR magazine

Monika Sattler

Adventure Gravel Transalp

144 pages
210 x 240mm
Softcover with flaps

ISBN 978-3-667-12555-2
€ 29.90 (D)

Published in March 2023

The Author:

Monika Sattler studied sport at the University of Minnesota and International Security at the Georgetown University. She has been working for the World Bank, the International Monetary Fund and IBM. She now works as a talent and leadership trainer as well as a professional biker and provide key-skills for a meaningful and successful worklife internationally.

The Work: Testimony and tips of a female gravel bike professional for beginner and advanced bikers alike

Crossing the Alps by bike is anything but an ordinary outdoor activity. The former professional racing cyclist Monika Sattler, always looking for new challenges and after numerous gravel races in the USA, became in 2018 the first woman to ride the 3,300-kilometres Vuelta-a-España route on the same day as the male pros - a record she still holds today.

In this book she tells of her Transalp from Graun in Vinschgau in Italy to Lake Garda: six days, 402 kilometres and 10,440 metres of altitude. She is accompanied by the bike photographer Gavin Kaps, who captures her gravel tour in spectacular pictures.

With enthusiasm and passion, Monika Sattler tells of her tour across the Alps,

provides information on optimal preparation, reveals her insider tips for the best Alpine feast and presents alternative routes for all levels of difficulty, all coming with full GPS data. The book whets the appetite for your own Alpine cross adventure. So, follow the tips of the pro, get on the gravel and off to the Alps!.

- > Expert tips on equipment, packing lists, route planning and nutrition
- > All you need to know about the gravel bike, the all-round bike for road and gravel
- > 20 QR codes for detailed tour descriptions (Komoot)
- > Stunning pictures by bike photographer Gavin Kaps

DIE BESONDERHEITEN EINES GRAVELBIKES

Wenn man heute auf die große Auswahl an Fahrrädern schaut, kann man schnell den Überblick verlieren. Welches Rad ist für welchen Zweck gedacht, und wie unterscheiden sie sich eigentlich?

Das oben erwähnte 500-Kilometer-Transalpe-Rennen bin ich 2013 gefahren. Zu dieser Zeit gab es noch keine Gravelbikes. Ich war mit einem Cyclocrossrad unterwegs, andere mit einem Hardtail. Beides ist möglich, aber man gelangt schnell an seine Grenzen.

HEUTIGE GRAVELBIKES ZEICHNEN SICH DURCH FOLGENDE EIGENSCHAFTEN AUS:

RAHMEN
Wenn man sich den Rahmen eines Gravelbikes anschaut, sieht es auf den ersten Blick aus wie ein Rennrad, aber der Winkel steckt im Detail. Die Geometrie des Gravel-Rads ist ausgelegt auf Komfort. Im Vergleich zum Cyclocrossbike ist der Radstand, also die Distanz zwischen den beiden Laufrädern, länger.

Das führt zu mehr Stabilität und mehr Komfort, da Vibrationen besser absorbiert werden. Zudem sitzt die Barbel im Vergleich tiefer, damit liegt der Schwerpunkt tiefer, und somit sitzt man stabiler auf dem Rad – das ist vor allem mit zusätzlichem Gepäck und Gewicht vorteilhaft. Das erweist sich auch für lange Stunden im Gegenwind als entscheidender Vorteil. Weiterhin ist die Gabel breiter als beim Rennrad, was nicht nur breitere Reifen erlaubt, sondern auch dafür sorgt, dass der Schlamm nicht zwischen Gabel und Reifen stecken bleibt. Durch den steileren Winkel des Sitzrohrs sitzt man auf dem Gravelbike weiter vorn als beispielsweise beim Rennrad.

Der Rahmen ist mit mehr Löchern versehen, die für Taschen, Flaschenhalter und andere Extras gedacht sind. Zusätzlich zur

Main Gravelrad

BUDGET

Das Budget ist sehr variabel – je nachdem, ob man zeltet oder im 4-Sterne-Hotel übernachtet. Zudem kommt es darauf an, in welchem Land man unterwegs ist – Italien ist um einiges günstiger als die Schweiz.

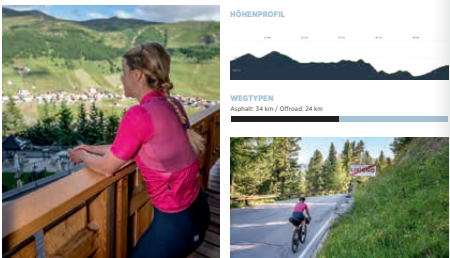

Selbst innerhalb eines Landes kann sich der Preis der Unterkunft um einiges unterscheiden. Dazu kommt noch die Jahreszeit. Willst du dorthin, wenn du hinmichst?

Für meine Transalp veranschlage ich ein Budget von etwa 600 €, da ich so wenig wie möglich mitnehmen möchte. Beim klassischen Bikepacking ist das Gegenteil der Fall, und jegliche Ausrüstung inklusive Zelt oder Tarp wird am Rad verladen.

Bisher war ich dem Zelten nicht gewachsen, da ich immer noch die Erinnerungen an ungemütliche Nächte im Zeltlager mit luftdurchlässiger Matratze und stundenlangem Zeltbau im zarten Alter von neun Jahren verarbeitete. Mittlerweile habe ich mich aber überreden bzw. überzeugen lassen, das Zelten doch noch einmal auszuprobieren, da es anscheinend beratungsschlafmindernd geworden ist. Weiter unten stelle ich deshalb auch eine Ausrüstung vor, die zum Bikepacking geeignet ist.

Für das eher
schmale Budget
sorgen sich Zelt
oder Tarp an,
das sich mit der
richtigen Technik
einfach in den
Bikepacking-
Taschen verstaufen
lässt.

DIE VORBEREITUNG AUF EINE GRAVEL-TRANSALP
41

ETAPPE 3: LIVIGNO NACH SANTA CATERINA 59 KILOMETER UND 1.650 HÖHENMETER

Guten Morgen Livigno! Ich genieße die fantastische Aussicht vom Zimmerfenster und vom Frühstückstisch meiner Hotels auf den Ort und in die Berge. Nach meiner gewohnten Morgenroutine erwartet mich direkt der Anstieg zum Passo d'Elza. Den ersten Teil der Strecke kenne ich schon vom Vortag. Da es eine stark befahrene Straße ist, empfehle ich einen frühen Start. Die Berge sorgen für recht kühle Temperaturen, und ich trage den ganzen Morgen meine Windjacke. Während ich den Berg hochkurbele, schaue ich ein letztes Mal auf Livigno. Nach dem Pass folgt eine kurze Abfahrt, bevor ich mich zum nächsten Anstieg auf die Piste di Fosagno mit der Zoggengrenze mache. Schließlich folgt eine schöne Abfahrt Richtung Bormio. Bisher bin ich nur auf Asphalt unterwegs, aber das ändert sich mit dem Linkabbiegen auf einen sehr sanften

Schotterweg, der sich oben am Berg entlang hangelt. Ich treffe einige Radfahrer auf der Strecke. In einer der Kurven liegt eine kleine Initiativide, die Burger und Sandwiches verkauft. Bei einem Stopp lässt sich der Gletscher auf der anderen Talseite wunderbar betrachten.

Nach einer kurzen Pause mache ich mich auf zu den berühmten Spitzkehren, die zu den Laghi di Cancano führen. Ich komme genau an der vollsten Kehre raus und sehe den Aussichtspunkt bereits von unten. Nach ein paar Minuten gelange ich zur Aussichtsplattform, die mit einer wunderschönen Sicht auf alle 17 Spitzkehren sowie ins Tal punktet und einige Touristen anzieht – kein Wunder. Weiter geht es zum Lago di Cancano. Vor dem Staudamm befindet sich auf der linken Seite ein schönes Café, in dem ich auch meine

The Work: Up with the shuttle, down in the flow

No mountain too high, no descent too long: with the help of funiculars, mountain railways and buses, more and more bikers have the possibility to reach maximum heights, saving energy for the descent and experiencing dream tours that can be completed with a few metres of altitude only.
For this book, travel and sports journalists Daniel Simon and Armin Herb have been on the most beautiful trails in the high mountain landscapes of the Alps - almost exclusively in downhill flow.
This book provides all most important information on around 20 spectacular downhill routes in the alpine high mountains. From tips on local bike rental to the means of transport for the ascent to delicious refreshments along the way - nothing stands in the way of a successful mountain bike holiday.

Whether you take the legendary Bernina Express up to the glacier in the middle of the UNESCO World Heritage Site or take the five-cable car to the Three Peaks circuit in the Sexten Dolomites, downhill flow and magnificent views are guaranteed!

- > Spectacular tours through the high mountains that are achievable by everyone
- > Attractive biking regions in Switzerland, Austria and Italy
- > Tour reports with numerous photos incl. altitude profiles, tour maps, GPX tracks and overview map
- > Info section with tips on the biking region, tour specificities, places to stop for a snack, biking hotels, guiding and web info

Thomas Widerin

First Aid for Cycling Accidents

Injuries, Measures and Checklists

112 pages
188 illustrations
153 x 215 mm
Paperback

ISBN 978-3-667-12362-6
€ 16.90 (D)

Published in spring 2022

The Author:

Thomas Widerin is a bicycle globetrotter and has already published two books with Delius Klasing. The Austrian works as a flight rescuer and is on the road with multivision lectures.

The Work: Well equipped: What to do in Case of an Accident with your Bike?

Whether it's a crash with a mountain bike in the forest or an accident with an e-bike in road traffic: minor abrasions and scratches are easily treated with a plaster, but in the case of more serious injuries, it's important to administer first aid as quickly as possible!
Bicycle globetrotter and flight rescuer Thomas Widerin shows how to react correctly in the event of a bicycle accident. He describes the most important types of injuries in a compact and clear manner and explains the correct execution of all first aid measures in text and pictures. The number of cycling accidents has increased steadily in recent years. Especially e-bikers are involved more and more often. With this book, Thomas Widerin provides a valuable guide to first aid in an emergency, paying special attention to accidents involving children and the optimal

equipment of the first aid bag on the bicycle. This practice-oriented guide shows how to act safely and calmly in any cycling accident!

- > Comprehensive and clear first aid guide for bicycle accidents
- > The basic rules of first aid: life-saving immediate measures at the scene of an accident, the correct emergency call and first aid for children
- > The ideal first aid kit for bicycles
- > Extra tips for accidents abroad and interesting facts about legal consequences
- > With international emergency numbers and removable checklists for emergencies

Daniel Hechenblaickner

Bikefitting

160 pages
114 photos and illustrations
165 x 240 mm
Paperback

ISBN 978-3-667-12220-9
€ 29.90 (D)

Published in autumn 2021

The Author:

The Austrian Daniel Hechenblaickner is a professional bike fitter and physiotherapist. His experience with cyclists and triathletes extends across all age groups, from health and recreational athletes to ambitious amateurs and full professionals. In his career as a cyclist and triathlete, he was Austrian State Champion, Ironman Top 5, Powerman Top 6, European Cup Top 4, World Cup Top 15.

The Work: It's all a question of the right setting

Whether you are a newcomer to road cycling, an experienced mountain biker, or an ambitious ironman – the following applies to all of them: If you are not in harmony with your bike, riding enjoyment and performance will suffer. The requirements for the optimal seating position are high and at the same time very individual: The rider's mobility, the best possible compromise between aerodynamics and riding comfort, biomechanical aspects for optimal power transfer to the pedals, and the race-specific challenges must be harmonized.

Daniel Hechenblaickner explains how the geometry of the bike is linked and adjusted to the anatomical needs and the sporting objective so that everyone can improve and increase his own bike performance.

- > For better performance on the bike: Bikefitting from head to toe for road cyclists, mountain bikers and amateur athletes
- > More fun, less pain: How the right sitting position on the bike influences riding comfort and performance
- > It's all a question of adjustment: calculating saddle height, adjusting pedals, aligning handlebars and much more
- > Well-informed for the fitting appointment with helpful tips and tricks from the pros

The Ultimate Bike Workshop

ISBN 978-3-667-11447-1
€ 19.90 (D)

18th edition enlarged and revised!

Rights sold to : the Netherlands

The Authors:

Bike enthusiast and well-known author Jochen Donner curated the testing department of the magazines TREKKINGBIKE and MyBike.

Daniel Simon takes care of photography and layout for the very same magazines. Both have published several books with Delius Klasing, most recently the very successful pocket guide series “Repairs on the Road“.

The Work: E-MTB – how to lubricate, screw, fine-tune

A growing trend– E-MTB. For example, the quick and effective after work route to some mountain hut, a sporty MTB tour with the maybe less trained partner, a family trip with a kids-trailer, or a single trail surf uphill – E MTBiker will have 100% fun on each meter. To assure that the bike will stay in top form, a little bit of knowledge regarding electric technology, battery pack and drive is necessary.

Jochen Donner and Daniel Simon show that a neat battery, a perfect adjusted and carefully smeared bike technology, punctual changed expandable parts and the critical review of engine, brake systems and lightning as well as the aligning the wheel is no magic.

- > How-to book that bundles useful information for both, newcomers and pros
- > Numerous tips and tricks
- > Helpful step-by-step instructions
- > Many informative photos and graphics

Ines Thoma, Max Schumann

Tuscany Trails

Mountainbiken and Dolce Vita in the Heart of Italy

192 pages
482 illustrations
230 x 265 mm
Paperback with flaps

ISBN 978-3-667-12363-3
€ 34.90 (D)

Published in spring 2022

The Authors:

Max Schumann and Ines Thoma are mountain bike professionals and have been working together with BIKE magazine, among others, for many years. Ines Thoma is German champion and is under contract with Canyon and both are brand ambassadors for Komoot.

The Work: This is how a Mountain Bike Holiday in Tuscany becomes an unforgettable Experience

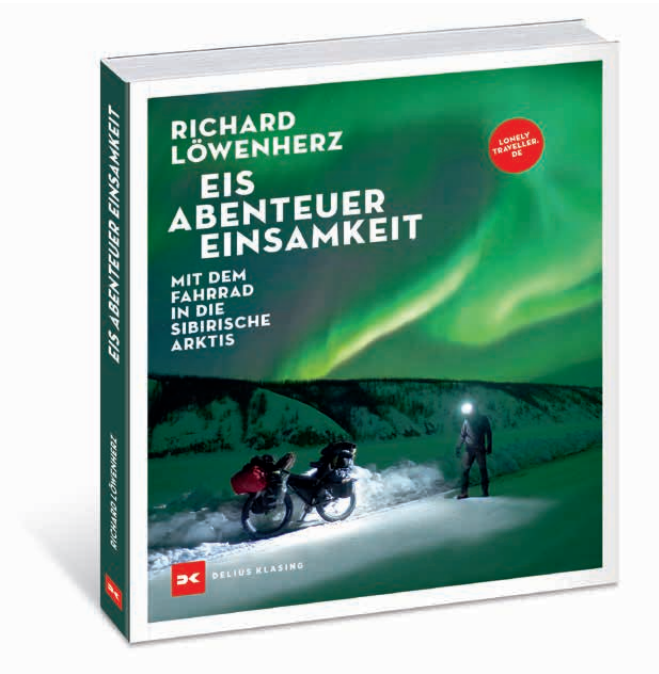

These MTB tours take you to one of the most exciting and beautiful regions in Europe: the picturesque terrain by the sea around Piombino or Calci with an impressive view of medieval Pisa. Tuscany is a mountain bike Eldorado in the heart of Italy and there are spectacular MTB trails. Ines Thoma and Max Schumann have explored the most beautiful tours for mountain bike or E-MTB. In this bike guide, they present selected places that are particularly suitable for a cycling holiday in Tuscany. For each region, the two mountain bike professionals provide useful background information on the bike infrastructure and present three elaborated tours with and without E-MTB. In addition to detailed route descriptions, the two mountain bike pros tell the story behind the areas and portray the trail

builders. Together with the locals, they explore their home and give tips on restaurants, bike shops and accommodation.

- > The most beautiful trails and tours in Tuscany on the mountain bike
- > Including tips on restaurants, bars, bike shops and hotels
- > GPS data for download and overview maps of the region
- > On difficulty level and family suitability
- > Richly illustrated special pages on the respective area, such as a cooking course with „Mamma Matteo

Richard Löwenherz

Ice.Adventure.Lonelyness – Crossing the Arctic on a Bike

160 pages
110 photos
20 illustrations
210 x 240 mm
Hardcover

ISBN 978-3-667-12223-0
€ 24.90 (D)

2nd edition 2022
Published in spring 2022

The Author:

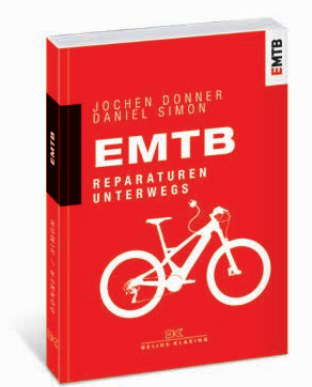

Richard Löwenherz, born in 1980, has been an enthusiastic adventure traveler for half his life with a preference for the wild and remote regions, such as Iceland, White Russia, Mongolia, Uzbekistan, Kyrgyzstan. Means of transport are e.g. the bicycle for maximum independence or the packraft (backpack inflatable boat) for the hidden wilderness routes. After several cycling tours through Russia and Central Asia, he has been increasingly drawn to the hard-to-reach wilderness areas of Northern Siberia and the Arctic Circle for several years. His website: www.lonelytraveller.de

The Work: An extraordinary journey to the icy end of the world

Richard Löwenherz (heart of a lion) lives up to his name. With a bicycle, backpack and a rubber dinghy, he travels alone to the remotest parts of Europe and Asia: always at the limit of what is possible, always with an uncertain outcome. In this book, he reports on his extreme adventure on the ice slopes of Yakutia to the Arctic Ocean, which repeatedly brought him to his physical and psychological limits.

He tells stories about country and people, but also answers very practical questions such as: „How do I cut butter at -30 degrees?“ His impressive pictures not only show the beautiful and rugged landscape, but take us into a world of ice and snow where freedom seems almost limitless. But especially as a solo traveler, it always takes courage, confidence and an irrepressible will!

- > Alone on a bicycle through the outermost regions of Europe and Asia
- > All about mental and physical limits, countries and people and all about practical questions like „How do I cut butter at minus 30 degrees?“
- > Includes impressive pictures of the journey

The Author:

Christian Blanck is a strategy consultant, product and campaign developer for a wide variety of brands. He discovered his passion for old cars during his early years. First at school he purchased for 2000 Deutschmark a three-year-old orange VW Beetle 1303 from 1972! Later in the navy, then during his university years, his camera constantly accompanied the now dad of two. If he had to change his career, he would become a photographer without hesitations. Christian Blanck is the author of several books and calendars on scale model cars for children.

The Work: Model Vehicles for Young and Old

Every year, almost fifteen million cars roll off the production line at this manufacturer. The Siku cars are perfectly made for children's hands. For six decades, the little tin toy cars have delighted car fans big and small. They usually survive breathtaking accidents on the playroom carpet undamaged and make it into the vitrines of enthusiastic collectors.

Christian Blanck has captured the special charm of Siku model cars in pictures for this anniversary volume. Here you can see your childhood favourite vehicles in a brand new light!

The photos in this volume show Siku cars in many roles. Some bear the marks of many rear-end collisions, others have been lovingly rebuilt and are now popular collector's items. In the colourful Siku

universe, you will meet familiar heroes in captivating scenarios!

- > Siku through the ages: 60 years of success story of the metal model vehicles
- > Scratched or polished to a high shine: from playmates with traces of use to Siku collectors' items
- > The perfect gift for enthusiasts: bibliophilically designed book on the occasion of the brand anniversary

Van it Yourself!

Extension Tips for your Camper – from Bus to Sprinter

160 pages
284 illustrations
210 x 240 mm
Hardcover

ISBN 978-3-667-12662-7
€ 29.90 (D)

Published in March 2023

The Authors:

Ute Mans is a freelance photographer and works in the domains of PR and reportage photography for magazines and book publishers.

Her husband Rafael Mans is active in the music industry as a product manager for the hip-hop band „Fettes Brot“. Both are enthusiastic van owners and prefer to travel by camper van on weekends and holidays. They travel all over Europe with their two children. Their philosophy: no holiday without discovering a new country!

The Work: Source of Inspiration for Camper Van Upgrading

Self-determined and sustainable travel with Van & Co. is in vogue – whether you live completely in a camper or motorhome, want to go on holiday cheaply and close to nature or simply enjoy being on the road. Holidays and living in a rolling home makes you independent and allows individual wishes to come true.

How about a little inspiration and know-how? In „Van it Yourself!“, vans and their owners are portrayed, supplemented by easy-to-understand instructions for small DIY projects.

- > Trend topic Vanlife: self-determined and individual travelling
- > Inspiring stories of vans and their owners, with many photos
- > Numerous ideas for camper conversion with smaller and medium budgets: from basic considerations to creative design options that make the stay on board more pleasant
- > Easy-to-understand DIY instructions for all models, can be implemented even without any previous experience
- > Lovely illustrated book with attractive design

Indiblu

Marke:	VW Crafter H2
Baujahr:	2016
Kilometerstand:	164.000 km
Fahrzeugkosten:	15.000 €
Ausbaukosten:	11.000 €
Location:	Berlin, Litauen

Eigentlich wollten Pia und Dennis auf Weltreise gehen. Alles war geplant, ein ganzes Jahr wollten sie verleben, mit dem Anheißerwagen waren schon Subscriptions vereinbart. Doch dann kam alles ganz anders.

Elmo

Da Moritz eine Ausbildung als Elektroniker hat, konnte er die Planung und Installation der Elektrik selbst übernehmen. Auf dem Dach wartet eine Solaranlage für ausreichend Strom für mindestens ein Wochenende, sodass Elmo ohne Landstrom auszukommen kann. Für mehr Stauraum montierten die beiden außerdem eine Dachbox. Und da sie schon einmal dabei waren, auf dem Dach rumzuklettern, haben sie gleich noch eine Dachterasse montiert. Allerdings mussten sie ein Loch für die vorher angebrachte Dachbox freilegen. Als Terrassengeländer haben Lena und Moritz Standard-Douglasdielen genommen und diese dann mit Nut-Schlitten auf dem Dachträger befestigt. Von dort oben haben sie einen perfekten Ausblick auf den Sonnenuntergang über der Nordsee.

Tipp: Der Außenklappstisch lässt sich mit einer Kette einhängen.

DIY Weinglas-Regal

Ein kleines Regal für zwei Weinflaschen und ein bis drei kleine Flaschen Wein darf beim gemütlichen Abend im Camper nicht fehlen. Natürlich kann man das Regal nach Bedarf auch größer bauen – je nachdem, wie viel Platz sich im Van dafür findet.

Zuerst die Größe des Bodens an die Anzahl der Gläser und die Gläsergrößen anpassen. Dazu die Gläser nebeneinander auf ein Brett stellen und Gesamtbreite und -höhe ablesen. Die Größe der Holzleiste dann gegebenenfalls anpassen. Alle Teile mit der Stichsäge zuschneiden, schleifen, streichen, kleben oder nach Belieben verzieren.

Holzplatte, z. B. Spanplatte Kiefer 8 mm
Brettschneider
Handbohrer/Forstbohrer, Durchmesser 2,5 cm
Stichsäge
Handschliffpapier/Schleifpapier
Kleine Holzschrauben, Holzleim
evtl. Holzschutzanstrich/Holzschutz/Öl

Folgende Holzleiste werden für zwei normale Weingläser benötigt (Abbildung gibt nur für eine Holzleiste von 8 mm):
• untere Boden- und Oberkante: 24,8 cm x 8 cm x 10 cm
• Innenboden: 22 x 10 cm
• Bodenwand: 22 x 8 cm
• 2 Seitenleiste: 19 x 12 cm
• Vorderleiste: 24,8 x 9 cm

Für den Boden den Durchmesser des Glas-Stiels, des Fußes und des Kettchen ausrechnen. Der Abstand der Halterungslöcher und Führungsschlitze richtet sich dann nach der Breite von Glasstiel und Glasgröße – die Schlitze müssen etwas breiter als der Glasstiel sein, das Halterungsgloch nicht zu groß und der Abstand der Löcher so, dass die nebeneinander hängenden Weingläser sich nicht berühren.

In unserem Fall kann es mit zwei kleinen Weingläsern ausreichen. Wie dem Holzbohrer zwei Löcher mit dem Durchmesser von 2,5 cm bohren.
Position: 5,5 cm vom rechten und linken Rand entfernt. Der Abstand zwischen beiden Löchern beträgt bei unserem Modell 1 cm. Das Locher werden mittig vom oberen und unteren Rand des Brettes platziert.

Candys

Tipp: Die kleinen Blumentöpfe sind mit selbstklebendem Klebstoff während der Fahrt gesichert.

Zur Dekoration des Küchenblocks haben Andy und Carly Holzkübel gewählt, umstülpt diese Serie zu stellen. Die Folie ist abwaschbar – sehr praktisch im Eingangsbereich des Vans!

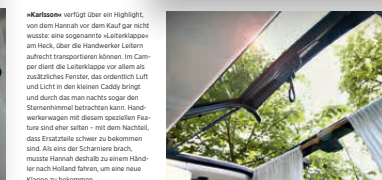

Cathy und Andy sind absolut zufrieden mit dem Ausbau ihres «Candyvans». Trotzdem sehen sie ihren Camper als offenes Projekt, da es ja auch Spaß macht, den Van immer weiter zu verbessern und zu optimieren. Als nächste Schritte haben sie sich das Folieren der Außenseite, die Montage eines Badesetts und den Einbau eines Wasserraumheizers vorgenommen.
Ein Tipp, den Andy für andere Ausbau-Regenstarke hat: Mit professionellem Werkzeug kann man leichter und genauer arbeiten. Während er die meisten Holzarbeiten noch mit einer Stichsäge durchgeführt hat, legte er sich gegen Ende des Ausbaus doch noch Kapps- und Tischkreissäge zu. Damit ging dann alles wesentlich leichter.
Cathy und Andy's Fazit: Ein toller Ausbau ist auch für unerfahrene Bastler machbar. Man sollte sich aber nicht scheuen, für schwierigeren Schritten wie Elektrik und Schweißarbeiten die Hilfe von Profis oder erfahrenen Hobbyhandwerkern dazuziehen.

Karlsson

Bei «Karlsson» ist das beste Beispiel dafür, dass man auch einen kleinen Wagen für wenig Geld gemütlich ausbauen kann. Einige Biotische muss man allerdings machen: Handab- und Trennkabine haben dabei auf den Einbau einer Wasseranordnung mit fließendem Wasser verzichtet und greifen auf Frischwasser aus einem Kanister zurück. Natürlich hat ein Caddy auch keine Steckdose und das Bett ist recht klein. Davon abgesehen hat «Karlsson» aber alles, was man für gemütliche Campen braucht!

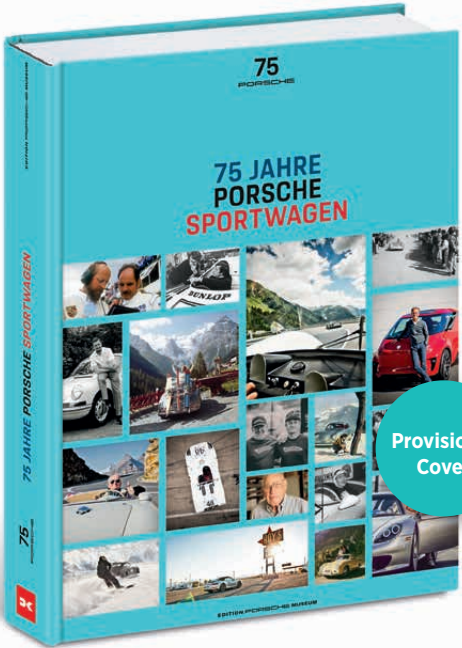

Der Caddy besitzt im Heck zwei Flügeltüren – ideal für einen kleinen Klappstisch. Einen weiteren haben die beiden hinten am Bett angebracht. Caddy «Karlsson» hat sogar eine eigene Emaille-Toilette!

The Work: The official Book for the 75th Anniversary of Porsche!

More than 75 years of history have passed behind the famous sports car manufacturer: a success that Ferdinand „Ferry“ Porsche probably did not foresee when he sent his first car onto the road on 8 June 1948 with the 356 „No. 1“ Roadster. On the occasion of the anniversary celebration, this splendid volume tells interesting, exciting and entertaining stories from more than seven decades of Porsche and lets those who have made a decisive contribution to its success have their say.

This illustrated book is a journey through the history of Porsche and gives us an insight into the transformation of the famous car manufacturer as we look through it. Numerous photos, curated by the Munich photographer and designer Stefan Bogner, take up the stages of the company's history from the 1950s to the

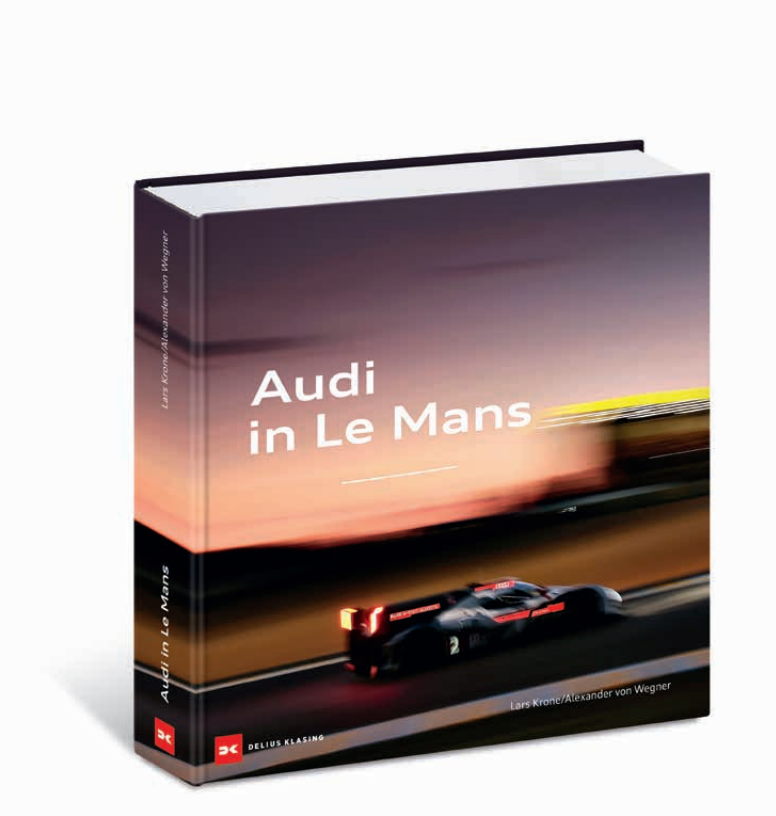

present day and perfectly set the scene for classics and rare models. The elaborate design and elegant cover make the book a high-quality gift for every Porsche fan.

- > From the first Porsche to the Taycan
- > Ferdinand Porsche, Family & Fans: backgrounds and facts of the people behind the car brand
- > From Formula 1 to the Porsche Cup: Porsche sports cars in the flash
- > A noble and high-quality gift for every classic car fan and Porsche enthusiast

The Work: Audi's Success Story at the 24 Hours of Le Mans

When the first Audi R8 finished on the podium at Le Mans in 1999, it was a respectable success. The first overall victory followed a year later with a triumphant one-two-three. By 2016, the racing cars with the four rings had taken twelve more victories and put the fear of the competition into the world's toughest car race.

On the occasion of the 100th anniversary of the legendary 24-hour race, the reading and illustrated book „Audi at Le Mans“ presents a fast-paced journey into the past. In impressive pictures and with a lot of background knowledge from the factory archives, a piece of Audi history is told here in a completely new and exciting way.

Audi knew how to use the 24 Hours of Le Mans as a stage for new technologies. The Ingolstadt company lived up to its slogan Vorsprung durch Technik: the fast Audi models left the competition behind. The first victory of a vehicle with diesel and hybrid technology also goes to the account of the German car brand. This illustrated book portrays the impressive brand history from 1999 to the WEC retirement in 2016.

- > All highlights, all victories: Audi Sport's spectacular run of successes at Le Mans
- > Exciting car book in high-quality design
- > Ideal gift for Audi fans and racing enthusiasts

The Work: Memories of a living Legend of Motorsport

For most people, he is one of the best racing drivers in the world: Walter Röhrl, two-time World Rally Champion, four-time winner of the Rally Monte Carlo and member of the FIA Hall of Fame – a complete listing of all his honours and racing successes is beyond any scope. On 7 March 2022, Röhrl turned an incredible 75 years old. Time to shift down a gear, move to the right lane and look for a rest stop? Not at all. Röhrl is still active as a brand ambassador for Porsche, takes part in rallies and enjoys driving. On his birthday, many companions, fellow racers and competitors recall their time together in this book (Ari Vatanen, Hans-Joachim Stuck and of course his friend and congenial co-driver Christian Geistdörfer). For fans this limited special edition of the book has been hand-signed by Walter Röhrl!

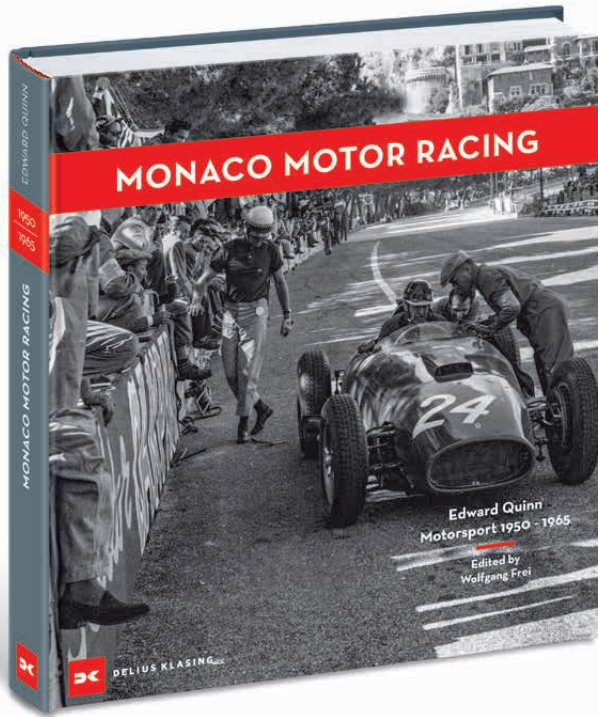

Karsten Arndt and Geistdörfer draw a multi-faceted and exciting picture of the world-class driver.

- > A strictly limited splendid edition in metal slipcase
- > High-quality illustrated book with numerous photos and autograph of Walter Röhrl
- > Interviews and rare personal insights from competitors, colleagues & friends
- > Fascinating sports history: Röhrl biography as hand-signed special edition
- > A look back at the heyday of rally sport in the 70s and 80s

The Photographer:

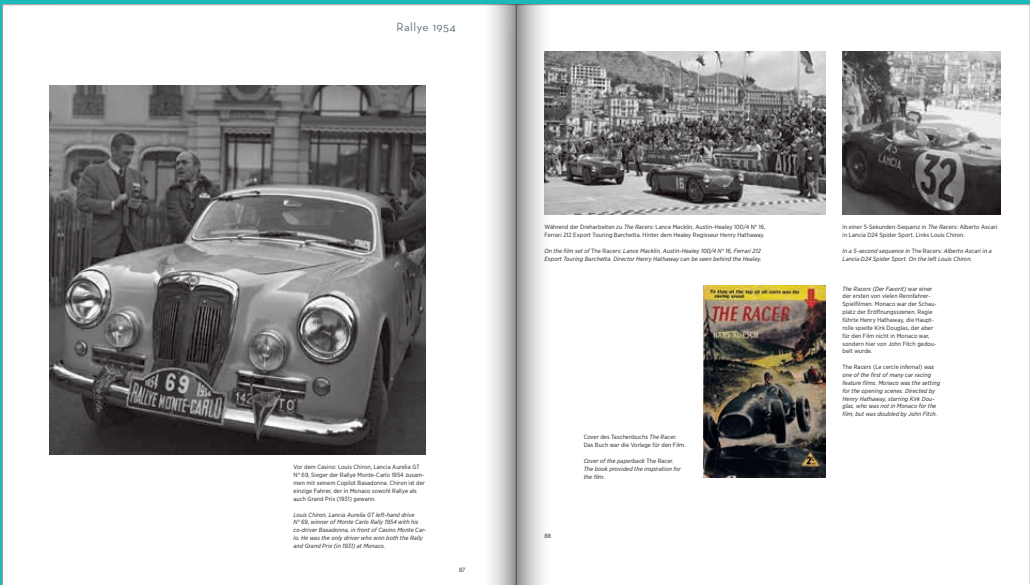

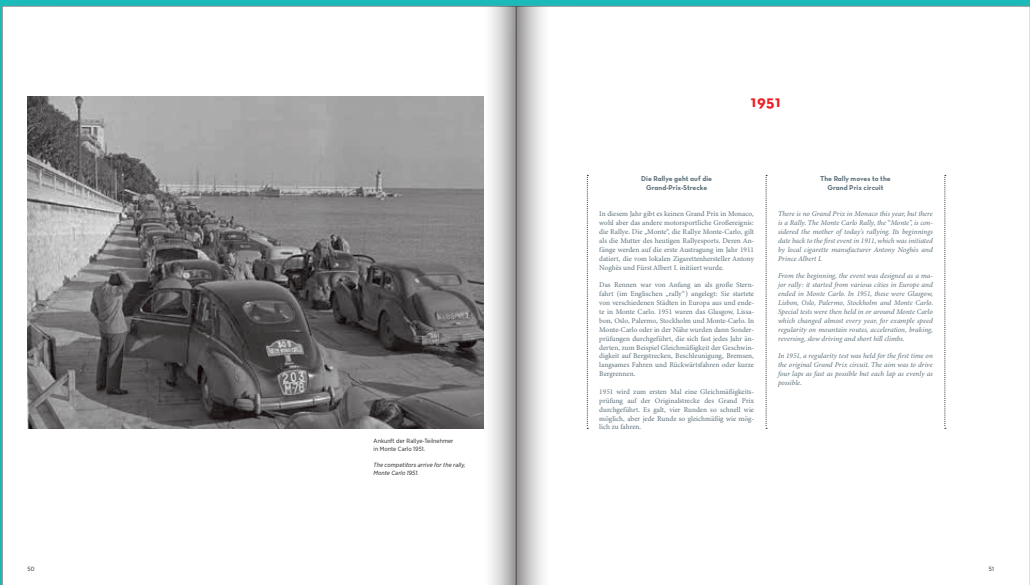

The Irish photographer Edward Quinn (1920-1997) lived and worked on the Côte d'Azur since the 1950s, where stars, managers, aristocracy and artists met in the „Golden Fifties“. Quinn's sensitive photos of Brigitte Bardot, Sophia Loren, Grace Kelly, Marlon Brando, Cary Grant, Aristotle Onassis and many more date from this period. His passion also included photographing the world's most famous car races. Quinn's nephew and heir Wolfgang Frei founded the Edward Quinn Archive AG in 2012 and now takes care of the extensive holdings.

The Work: Formula 1 History at the Circuit de Monaco

The Monaco Grand Prix is considered one of the most demanding races in Formula 1. Constant gear changes and the slowest corner in the world championship have always demanded everything from the racing drivers.

Edward Quinn captured the most famous car race in the world from 1950 to 1965 in numerous photos. In his recordings, the well-known Formula 1 track is presented with almost no crash barriers and run-off zones, without advertising posters and sponsor logos. Many of his pictures are now combined for the first time in a large format illustrated book. Accompanied by short descriptions and background information, they give a fascinating insight into the motorsport history of that time.

- > All legendary racing cars of the time from Ferrari, Porsche, Alfa Romeo, Jaguar
- > Lifestyle and glamour of the post-war years with several celebrities, e.g. Brigitte Bardot, Claude Picasso, Gary Cooper and Grace Kelly or the motor-sport legends Fangio and Moss
- > A gift tip for all motorsport fans

The Work: Ferrari for advanced Drivers

This is a portrait of a Ferrari legend from the 80s. The quality of some sports cars can be deduced from their famous owners. With the Ferrari 288 GTO there are even three Formula 1 drivers among them: Michele Alboreto, Keke Rosberg and Niki Lauda. Sheer coincidence? Unlikely. When in 1984 Ferrari presented the GTO, its racing look and forceful performance data attracted numerous customers. But just 272 of the Italian sports car were built within two years. The last one was handed over personally by Enzo Ferrari to Niki Lauda. In spite of all that the 288 GTO was never used as a racing car. Although its tubular steel frame, the longitudinally mounted twin turbo V8 and 400 PS made it competitive. Even today it achieves top prices at auctions. In this fine box renowned photographers capture the classy design vocabulary of

the 288 GTO and present some of the rare originals in a large-format illustrated book. The extra factbook with texts by brand expert Jürgen Lewandowski gives all the information on the rare Ferrari classic.

- > Premium-quality box with illustrated book and factbook
- > The complete history and all technical data of the Ferrari 288 GTO
- > Over 200 photos of the Ferrari: all designs, years and special models
- > A piece of automobile history about one of the rarest Ferrari models!
- > Only 1.500 numbered copies

The Work: Unique Insights into the Audi Archive

Every large car manufacturer creates an archive of its most important models at some point in the company's history. The history of the Audi brand goes back to the 19th century. The automotive treasure is accordingly huge, encompassing several brands: in addition to Audi, Horch, NSU, DKW, Wanderer and Auto Union.

The Audi archive comprises an impressive collection that is not usually accessible to normal visitors. In addition to regular series models, it is mainly one-offs that can be found here: Audi prototypes, test vehicles, never realised studies. In addition, there are Audis from prominent previous owners, custom-built models and racing cars. With this opulent illustrated book, Audi opens its hall gates for the first time and lets us share in the fascinating range of its brand history.

In order to document the extremely comprehensive and extensive archives of Audi AG, in-house photographer Stefan Warter spent several days in the „holy halls“. Special Audi models are examined in more detail in exciting essays. A visually breathtaking journey through the history of Audi!

- > Magnificent illustrated book in collaboration with Audi Tradition
- > Car models from the DKW to the Urquattro with facts and background information
- > With many Audi classics, little-known prototypes and one-offs
- > Numerous exclusive photos from Audi model history
- > Vorsprung durch Technik: Special Audi models in the spotlight

Porsche 901

The marvellous rediscovery of an early Porsche 901

176 pages
150 illustrations
230 x 265 mm
Hardcover

ISBN 978-3-667-12756-3
€ 49.90 (D)

To be published in July 2023

The Author:

Jürgen Lewandowski writes on cars and luxury brand cars since the 70's. He regularly works for newspapers like *auto motor und sport* or *Porsche Klassik* and authored several titles on cars by Delius Klasing.

The Work: Rediscovery and restoration of an early Porsche 901, the precursor of the Porsche 911

It sounds like a fairy tale or a well-invented story: In April 1964, a blue car roars past the young Alois Ruf, which he later identifies as a pre-production model of the Porsche 901. This awakened in him a fascination for this sports car. When his father gives him his first 901 a few years later - a car with minor accident damage that also happens to be blue - he thinks nothing of it. He drives it, at some point the car is parked in a shady spot and almost forgotten. Just for a while afterwards.

The story of the 901, however, does not leave Alois Ruf behind. He begins a complete restoration, does some research, and can hardly believe what he discovers: His car was an early test car that passed through the hands of Ferdinand Piëch and

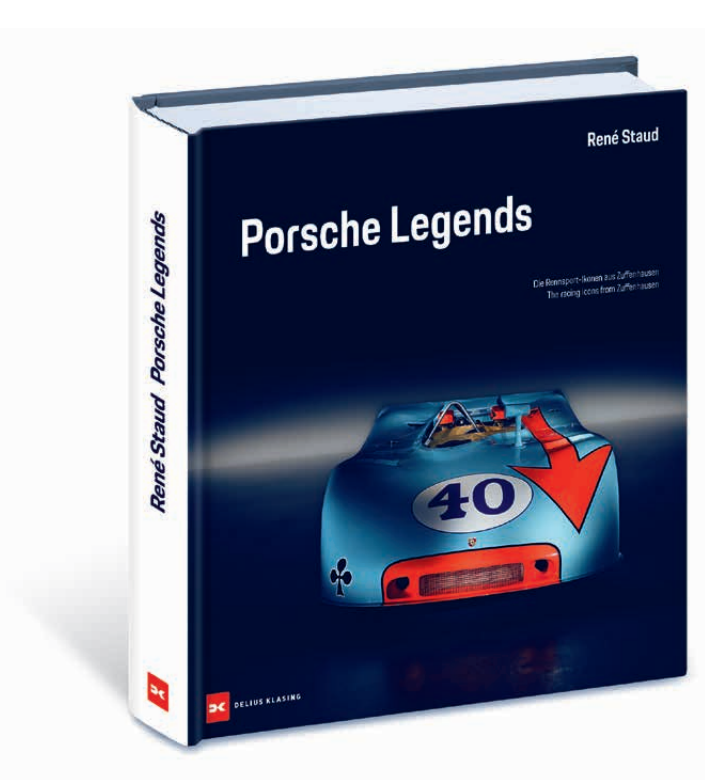

Hans Mezger. To be precise, it is the sixth 901 ever built, making it not only a central piece of 901 and 911 history, but also the very car that raced past young Alois Ruf at the time. Like a fairy tale - but true.

- > The fantastic rediscovery and restoration of an early 901
- > Texts from a proven Porsche specialist
- > Richly illustrated with current and historical photos
- > Large target group with a significant purchasing power

The Work: Porsche Racing Cars on Stage

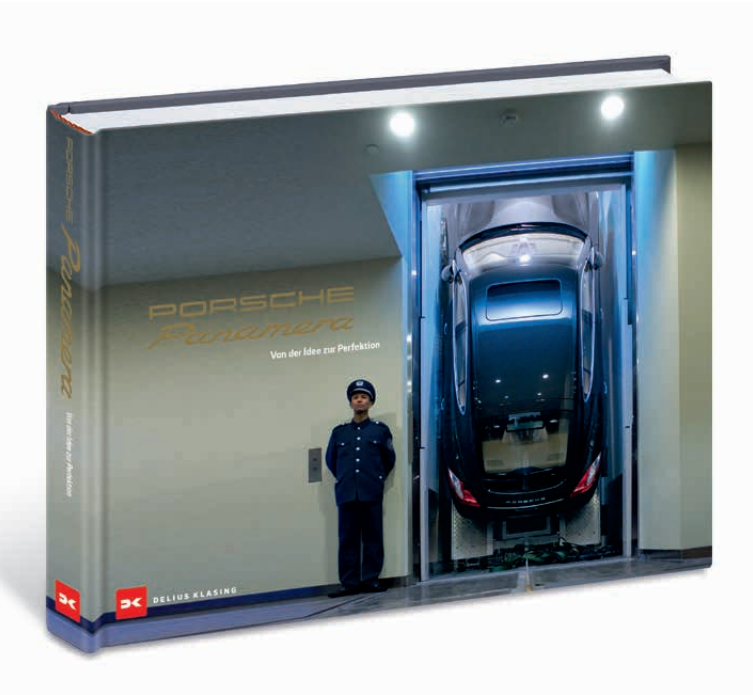

Porsche and motorsport always belonged together. But in fact, private persons were the first to be successful with their 356s on the racing tracks. The Porsche 550 Spyder from the 1950s was the first racing car manufactured at the plant - and achieved great successes right from the beginning!

Motorsport not only gave Porsche the opportunity to test progressive technology that could be transferred to roadsters, it also was the ideal marketing tool with an enormous influence. Looking back at models like the Porsche 917, 904 and 956, successful serial winners and racing legends emerged from that.

- > Porsche motor racing: the greatest racing sport legends from Zuffenhausen
- > All racing cars perfectly staged by star photographer René Staud
- > With background information and technical data on each of the Porsche models
- > Large-format Porsche illustrated book with 200 spectacular photos
- > The ideal gift for Porsche fans and racing sport enthusiasts

The Work: The Evolution of a Comfort Limousine

The first comprehensive book about one of the most successful Porsches, from the initial ideas of the 1950s to the present day – right up to the current Panamera, which is the Porsche of preference in many countries of the world, both as a limousine and in the form of the Panamera Sport Turismo. To this day, there is no sports car that masters the balancing act between performance and comfort more successfully. Together with the Cayenne and Macan models, the Panamera is conquering markets and customers that previously seemed unreachable for Porsche with its two-door sports cars. This book traces the history and development of the Panamera and provides an overview of all model variants and vintages. Interviews with the design and development team round off the illustrated book.

- > The first book on the model history of the Porsche Panamera: from the idea to all model variants and vintages
- > Exciting interviews on the design and development of this luxury-class estate car
- > The book was produced in close cooperation with Porsche AG

Limited edition (1,550 copies)
Published in autumn 2021

The Authors:

Stefan Bogner studied industrial design and founded the design studio „fpm factor product“ München in 1994. He works for brand companies such as Porsche, Alois Dallmayr, MairDumont and Bayerischer Rundfunk. He gained a lot of international design prizes. In 2016, his „Stefan Bogner Creative Studio“ comes into being. He mainly focuses on the automotive, sports, travelling, food and hospitality sectors.

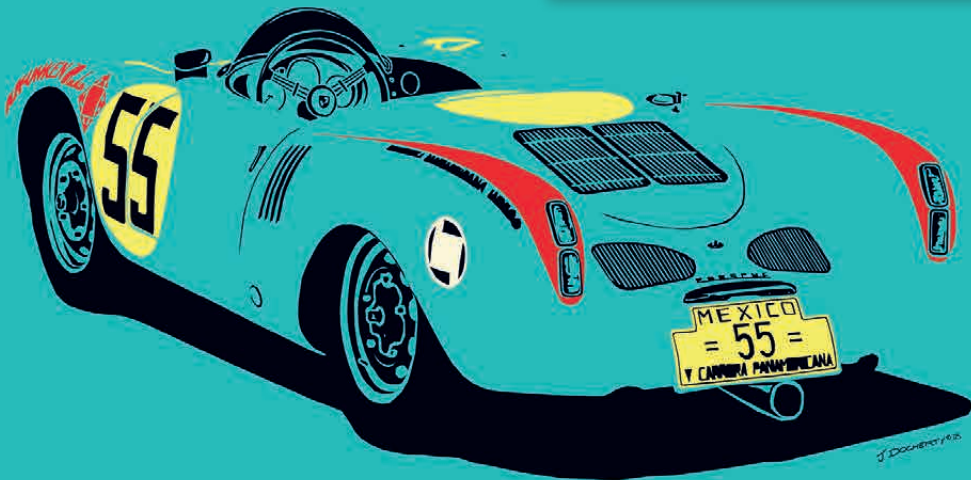

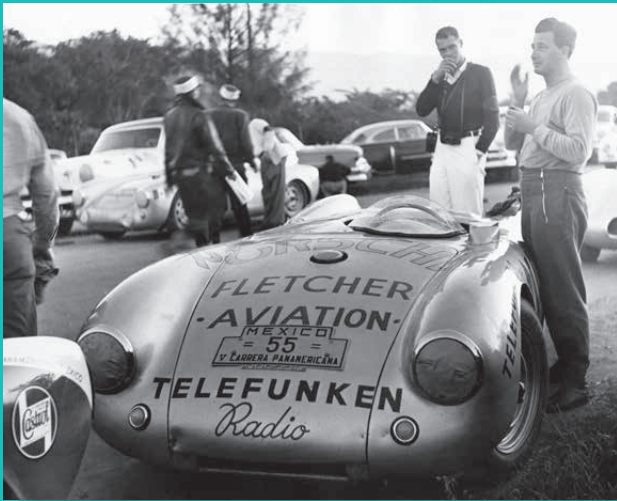

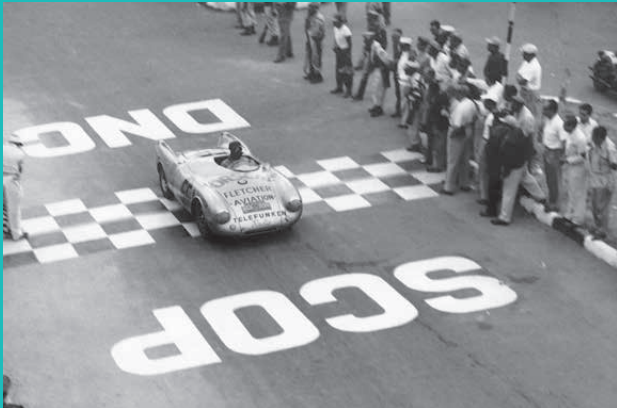

The South African Glen Smale began his career as a motoring journalist and photographer. In 1999, he took over the editorship of a new online motoring publication in England. Between 2004 and 2016, he has written 13 books on sports cars and motorsport. In 2007, he received the „Design Writer of the Year“ award from Laurin and Klement. Since 2005 he has been writing for the TOTAL 911 MAGAZINE and for the Porsche magazine EXCELLENCE. He has made the subject of Porsche his passion.

The Work: A purist sports car for road and track

This car is legendary: with the 1500 RS Spyder, as this car was officially called, Porsche began building cars specially designed for racing in 1953. In 1956, Umberto Maglioli achieved the first ever overall motorsport victory for Porsche at the Targa Florio. Numerous other victories and podium finishes were to follow. Only a little over 100 Spyder cars were built until 1957, which today makes it one of the most expensive Porsches ever. This is not least due to its most famous owner: James Dean's tragic accidental death was in a 550 Spyder - both are immortal till today. Stefan Bogner has created a large-format illustrated book in a stylish box. Some rare originals are documen-

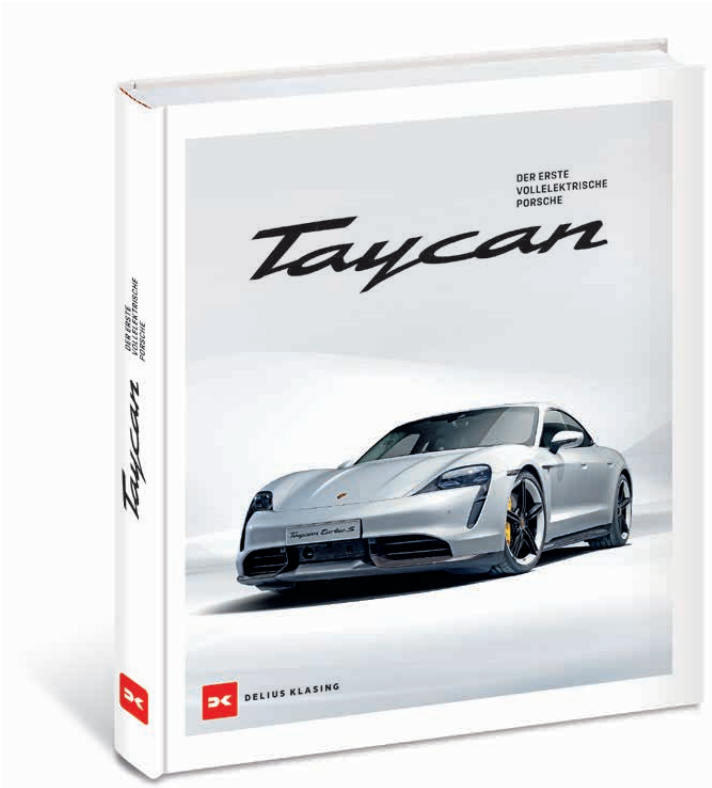

ted - in a timeless and simple design. A separate fact book summarises all the known and less known background information on this model.

- > Limited illustrated book: only 1,500 copies, which corresponds to the model name „1,000 + 550 Spyder“
- > The book was produced in close cooperation with Porsche AG
- > The texts are written by an insider at Porsche
- > A very special book format: illustrated book plus text book in a fine slipcase

The Work: Not only „Big in Japan“. The hottest Sports Cars from the Far East

Sports cars are not only made in Zuffenhausen and Maranello: Japanese carmakers also have a long and successful tradition in this segment. One only has to think of the futuristic Mazda 110 S Cosmo, which inspired enthusiasm with Wankel technology in 1967, and the Toyota 2000 GT from the same year in which James Bond raced through the Land of the Rising Sun in „You Only Live Twice“. In his book, Thomas Imhof brings together icons from the Nissan Skyline to the Mazda RX-7 and the current Toyota Supra. A fascinating overview of well-known and lesser-known sports cars from the Far East.

- > From Toyota 2000 to Nissan GT-R: History and background of the best sports cars from the Far East
- > Compact illustrated book with over 100 photos of well-known and unknown car models
- > Technical data on numerous model variants, special models and rare exotics
- > With car icons like the Toyota 2000 GT, Honda NSX and Subaru Impreza WRX STi
- > A great gift book for car lovers and Japan vehicle enthusiasts!

The Work: Rebrush of our Turbulent Times series

Our popular series that presents classic cars from the 50s to the 80s has been re-designed and re-worked!

As usual the books, written by experts, feature the model history of a particular car and of course the technical features. Each vehicle is classified in its time and accompanied by sympathetic, contemporary photographs, illustrations as well as historical advertising material. The texts are an enjoyable read and the partly unpublished pictorial material leaves you with a lot to explore.

- > New, gifty portrait format
- > Revised and modern interior layout
- > New topics beyond the economic miracle period (e.g. Porsche Transaxle, VW Scirocco, Ford Capri)
- > Competent new authors, fresh pictorial material

More than 100 volumes available, numerous illustrations

The Author:

Dr. Rüdiger Etzold was a motor mechanic apprentice before completing an internship in car body pressing and studying automotive engineering. After his voluntary service at a newspaper, he worked as a technical editor of the GUTE FAHRT magazine and wrote the first book of his “So wird’s gemacht” (How to do it) series. He publishes in several newspapers and professional journals.

The Work: The famous car repair manuals

“How to do it” is aimed at owners of new and used cars who are interested in the car’s technology, showing them how their vehicles work and what kind of maintenance work and repairs can be taken care of by themselves.

“How to do it” consists of more than 100 volumes that describe the most common car models, which makes it one of the most comprehensive German handbook series for cars.

Each volume provides extensive information on the following subjects:

- engine
- fuel system
- exhaust system
- axles
- steering

- braking system
- wheels and tyres
- bodywork
- interior
- heating / air conditioning system
- electrical equipment
- dashboard
- car maintenance

➤ Technical data are based on information by the manufacturers

➤ With detailed photos and drawings

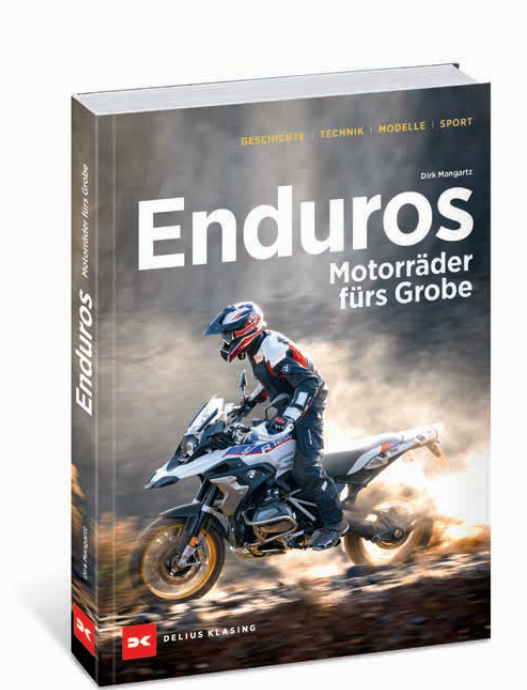

➤ Some of the car brands are:
Audi / BMW /Fiat / Ford / Mercedes / Opel / Peugeot / Toyota / VW

Dirk Mangartz

Enduros – Motorcycles for the Toughest

History, Technology, Models and Sport

176 pages
200 illustrations
165 x 240 mm
Paperback with flaps

ISBN 978-3-667-12365-7
€ 24.90 (D)

Published in spring 2022

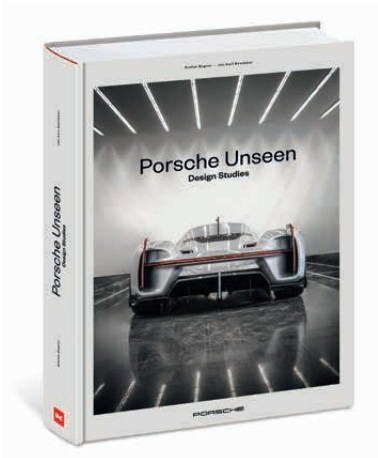

The Author:

Dirk Mangartz works as a motor journalist for book and magazine publishers. He also assists motorbike manufacturers and motorbike accessory shops with press and public relations. A scene insider in the motorbike industry.

The Work: On two Wheels through thick and thin. The Success Story of Enduros

At the beginning of the 1970s, the first „enduros“ designed specifically for off-road use were created. The Yamaha XT 500, which was presented in 1975, can be regarded as an original and trendsetter. With its striking red and silver appearance and excellent off-road characteristics, it quickly attracted a large fan base. Today, the once rough off-road machines have become long-distance touring enduros that belong to the most popular motorbike genre of all. In his book, Dirk Mangartz takes us through the history of these all-rounders, takes a look at their technology, gives an overview of the models on offer and provides riding tips. A fascinating book about motorcycling on and off the track!

- > Passion Enduro: The success story of off-road bikes from the 70s to today
- > The riding technique of the Enduro: Basics and riding tips for beginners and long-time motorcyclists
- > Comprehensive model overview: The most popular Enduros
- > Practical buying advice: Important equipment and useful Enduro accessories
- > Comprehensive compendium with up-to-date data

The Author/ The Photographer:

Ira König is an eco-health educator and has been working as an editor, freelance food journalist and writer on cooking & enjoyment for over 17 years.

Maike Jessen has been working as a freelance food photographer in Hamburg since 1997. She enjoys her photo shooting with a great love to detail.

The Work: Clever Recipes on the Road: varied Cooking on the Campsite

Travelling flexibly, stopping as you please and enjoying boundless freedom - holidays in a caravan have many advantages. But cooking in the tight camping kitchen or on the gas cooker in front of the tent doesn't have to be so complicated! Cook and food journalist Ira König shows how you can conjure up delicious dishes on the camping table quickly and easily. These camping recipes require no more than five ingredients that can be bought everywhere, a little passion and a pinch of creativity. This makes quick holiday cooking fun! Practical and delicious recipes for every day and every occasion are shown here: Whether fresh salads, simple One Pot dishes, barbecue treats or tasty snacks for on the go - everyone will find something. Afternoon cakes and desserts are also catered for. The dishes are complemented by valuable cooking

tips for ingredient variations, ideas for using leftovers and suggestions for the optimal basic equipment for the camping kitchen. Particularly practical: all recipes can be cooked with little preparation and crockery and produce hardly any washing up. Cooking on a camping trip has never been so easy!

- > Combines two trendy topics: camping and simple cooking with only 5 ingredients (e.g. One Pot Cooking)
- > 50 versatile recipes (not only) for holiday cooking
- > With helpful tips on alternative ingredients, storage and using leftovers
- > Ideal gift for campers and all those who like it quick and uncomplicated

Ira König, Maike Jessen

5 Ingredients: Recipes for Cooking on Board

144 pages

The Work: Delicious recipes for hungry crew members

Who would have thought that with only 5 ingredients per recipe you can cook so delicious, light, varied and surprising? Cook and food editor Ira König puts it in a nutshell: Fantastic food, few ingredients, perfectly adapted to the needs of water sports enthusiasts. Because these clever recipes work even in the smallest galley. The trick: Only a few ingredients, a quick, simple and space-saving preparation with few pots, bowls and dishes. The required ingredients are available in every supermarket. From one pot cooking to meal prep towards cool cooking - this modern, fast and smart way of cooking is made for hungry sailors.

- Space-saving, fast and environmentally friendly cooking with simple ingredients and few dishes
- Healthy food without boredom on the plate
- With practical stock list: This food should always be on board
- With helpful ingredient alternatives, storage tips and recycling of leftovers

Nah am Wasser gebaut

Ira König und Maike Jessen sind Nordlichter, wie sie im Buch stehen. Beide leben und arbeiten seit über 20 Jahren in Hamburg und lieben Wasser, Watt und Küste.

Ira ist Food-Redakteurin und hat lange für Zeitschriftenverlage in Hamburg gearbeitet. Am liebsten mag sie moderne, schnelle und einfache Rezepte, die im Alltag funktionieren. Endlose Zutatenmengen und stundenlanges Kochen sind nicht ihr Ding. Dabei sucht sie trotzdem die Herausforderung. Aus möglichst wenig möglichst viel zu machen, ist besonders reizvoll für sie. Da kam ihr die Frage eines befreundeten Seepaars nach Rezepten für die Pantry natürlich genau recht. Wenig Platz, nur zwei Herdplatten maximal, weder Kühlboxen noch Ofen ... Herrlich! So ist die Idee der 5 Zutaten Rezepte fürs Kochen an Bord entstanden.

Maike ist Food-Fotografin und setzt von saftigen Steaks bis zu köstlichen Torten alles kreativ ins rechte Licht. Sie verbringt mit Sohn und Mann fast jedes Wochenende an der Küste und ist fasziniert von den Motiven, die ihre norddeutsche Heimat ihr bietet. Sie liebt es, mit ihrer Kamera durch die Gegend zu streifen und das Küstenidyll auf ihren Bildern einzufangen. Natürlich war sie gleich von der Idee der 5 Zutaten Rezepte fürs Kochen an Bord begeistert und so konnte es kommen.

Das Ergebnis halten Sie jetzt in den Händen – 55 Rezepte mit nur jeweils 5 Zutaten für zwei Personen, die sich und glücklich machen ... viel Spaß beim Lesen, Planen, Kochen und Genießen auf dem Wasser!

wünschen

Ira und Maike

7 Papaya-Avocadosalat mit duftendem Basmatireis

1. Reis nach Packungsanweisung in kochendem Salzwasser garen. Fertigen Reis vom Herd nehmen, mit einer Gabel auflockern und abkühlen lassen.
2. Papaya (oder Mango) schälen und halbieren. Kerne mit einem Löffel herauskratzen. Fruchtfleisch in dünne Scheiben schneiden. Avocado halbieren und den Stein entfernen. Fruchtfleisch vorsichtig aus der Schale lösen und in Würfel schneiden.
3. Salat putzen, waschen, trocknen und in Stücke schneiden. Limettensaft und -schale mit der Sojaölölle verreiben. Öl in einem dünnen Strahl mit einem Schneebesen unterrühren. Vinaigrette nach Geschmack mit Salz und Zucker abschmecken. Salatzutaten vorsichtig mit der Vinaigrette vermengen.

24 g Basmatireis
1 kleine Papaya (ca. 400 g)
1 Avocado (ca. 150 g)
1 Limette
1 kleine Zwiebel
1 kleine Knoblauchzehen
1 TL Sojaöl
1 TL Sesamöl
1 TL Sonnenblumenöl
1 Prise Zucker

30 Minuten

18 Garnelen mit Pak Choi und Kichererbsen

1. Pak Choi waschen, Stielen abscheiden und die dicken Stiele in Stücke schneiden. Kichererbsen abtropfen lassen, Garnelen waschen und trocknen. Tomaten waschen und halbieren. Knoblauch schälen und hacken.
2. Sesamöl in einem weiten Topf oder einer Pfanne mit hoher Wand goldbraun rösten, bis sie duften. Aus dem Topf nehmen und abkühlen lassen.
3. Öl in dem Topf erhitzen und die Garnelen kurz anbraten. Knoblauch und mit Salz und Pfeffer würzen. Knoblauchgarnelen aus dem Topf nehmen und zur Seite stellen. Pak Choi sowie die Tomaten in den heißen Topf geben und bei geschlossenem Deckel ca. 3 Minuten schmoren lassen.
4. Kichererbsen unterheben und erhitzen. Brühe nachgießen und alles mit Salz und Cayenne Pfeffer abschmecken. Garnelen und Sesam unterheben.

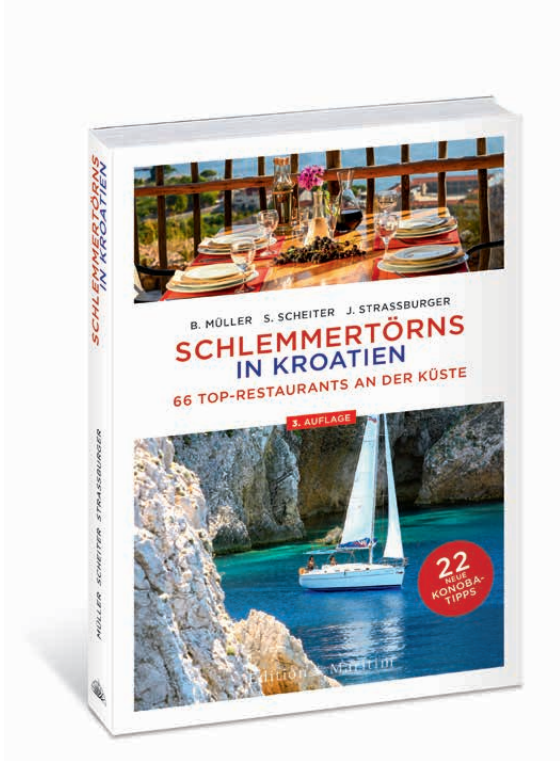

1 Packung Pak Choi (ca. 300 g)
alternativ 200 g Mangold oder Spinat
100 g Kichererbsen (aus der Dose)
200 g Garnelen (ca. 20 Stk.)
1 kleine Zwiebel
1 kleine Knoblauchzehen
1 TL Sesamöl
1 TL Sonnenblumenöl
1 TL Sojaöl
1 TL Sesamöl
1 TL Sonnenblumenöl
1 Prise Zucker

30 Minuten

Published in spring 2021

The Authors:

Bodo Müller is a freelance photographer and book author, and has been a reporter for YACHT and BOOTE since 1989. He knows the Croatian coast very well.

Siegrun Scheiter is a freelance skipper, graphic designer and journalist for international nautical magazines, including YACHT and BOOTE. She has been sailing along the east coast of the Adriatic several times a year since 2003 and knows the entire area extremely well. The yacht captain knows the best moorings and conobas.

Jürgen Straßburger was the head of the travel section of BOOTE magazine for many years and reported a lot about the Dalmatian coast. In 2010 he received an award („Golden Feather“, Croatia's highest journalism award) for his services to the promotion of tourism on the spot. Since 2012 he has been working as a freelance journalist.

The Work: Restaurant-Guide for a dream destination

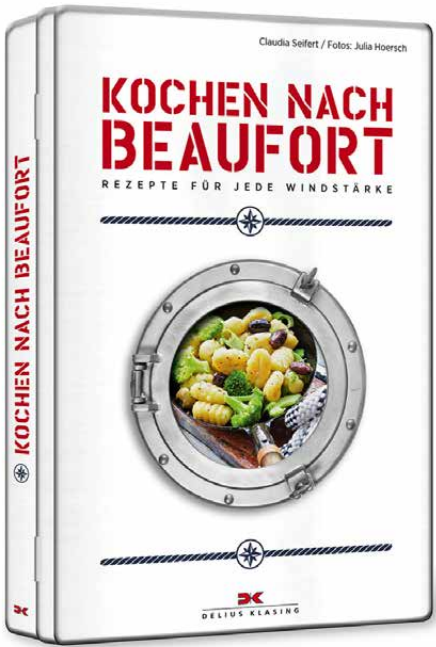

This book presents the best restaurants for all sailors and motor boaters in Croatia, whereby the „best“ restaurants are those where it tastes best and which are best accessible from the water.

All restaurants were tested by the authors and found to be good. After a short introduction to typical Croatian food and wine, each restaurant is presented with its specialties, several photos and a map of the port. A small culinary Croatian-German dictionary ensures that you are guaranteed to order the right thing for you.

- > Restaurant guide for sailors and motorboat drivers with the best 66 restaurants in Istria, the Kvarner Bay and Dalmatia
- > Croatian restaurants with photos, specialties and detailed harbour map for easy selection and approaching
- > Practical Croatian-German dictionary with the most important vocabulary for restaurant visits

Softcover with flaps in metal box with wooden spoon

ISBN 978-3-667-11702-1
€ 19.90 (D)

Rights sold to:
the Netherlands, Slovenia
Published in 2019

The Author/The Photographer:

Claudia Seifert is a food stylist, cookbook author and chef. She loves cooking since childhood and lives in Hamburg.

Since her studies at the renowned “Folkwang-Schule” in Essen Julia Hoersch works for all important food and lifestyle titles like *Essen & Trinken*, *Der Feinschmecker*, *Living at Home*, *Fit for Fun* and many more. She also loves cookbooks and free productions.

The Work: Delicious cooking on board for any kind of weather

Strawberry ice cream with fried strawberries, rump steaks in bourbon marinade with a Mediterranean tomato bread salad and potato stew with vegetables in aquavit, along with smoked trout. Does not sound like the usual cooking on board? Yes, it does! In this book the experienced yachswoman and cookbook author Claudia Seifert shows how to cook (and eat!) delicious meals with the most basic ingredients, tiny cookers and a bit of fantasy – in all weathers and on any boat.

The recipes are arranged according to wind forces. Obviously you would not do so well with a salad when the water washes over your boat and the wind blows your hair in a horizontal line. And of course, small snacks will enrich life on board while the sea is calm and you want to enjoy yachting.

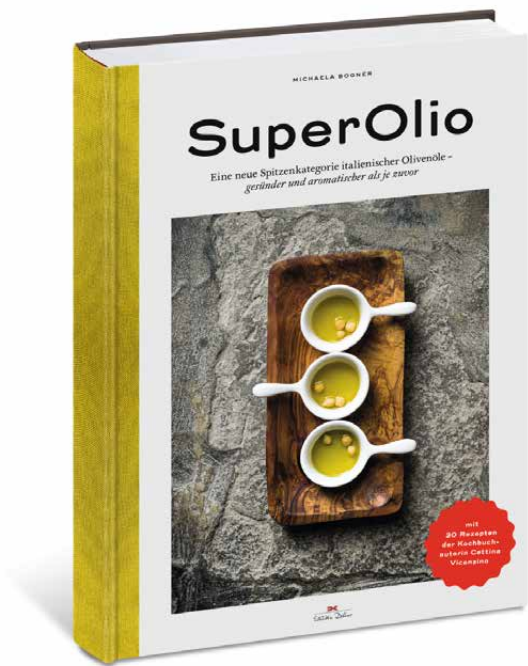

Icons indicate effort and preparation time and facilitate a quick orientation. They are served along with a plain list of ingredients and precise cooking instructions.

Famous food stylist and photographer Julia Hoersch staged the basic but exquisite recipes in a manner so beautiful and mouth-watering you will want to grab your cooking spoon right away. An appealing layout tops off the visual pleasure – a book for any galley and suitable for your home kitchen as well.

- > Cooking pleasure on board
- > Great gift package for all sailors and water sports enthusiasts

Published in 2017

The Author/The Photographer:

Michaela Bogner’s fascination with olive oils started between 1999 and 2005 when she lived near Florence and made first contact with regional olive farmers. In 2011 she was trained as an olive oil taster by the Florentine Chamber of Industry and Commerce and became a member of the Italian ANAPOO, the association of olive oil tasters. Since the olive harvest of 2011/2012 she imports high-quality olive oils from Italy, gives seminars on olive oil and organises commented tastings. The author recently launched her new website: www.superolio.de – with comprehensive information about high-quality Super Olio. Cettina Vincenzino is a food photographer, cook and author of cook books.

The Work: A new top category of Italian olive oils

Wine, whisky or gin tastings are standard, but more and more people wish for a high quality of basic food too. With their interest in brand-new high-quality olive oils, the community of culinarians is about where it was some thirty years ago with wines. Like the ambitious and rebellious young vintners, the young guns back then, today ambitious olive farmers and oil millers create top-quality products by using state-of-the-art techniques and being open to scientific findings. About ten years ago, these highly aromatic oils that are rich with polyphenol did not exist for lack of the necessary oil mill technology.

To help consumers make informed decisions, this book introduces the background of production and cultivation, presents the stars of the scene and a fine choice of exquisite but easy to cook recipes.

- > Trendy topic high-quality basic food
- > Perfectly staged by multiple prizewinning graphic artist and best selling author Stefan Bogner
- > Superb, especially invented 30 recipes by Cettina Vincenzino, food photographer, cook and author of cookbooks

The Author/The Photographer:

Ava Fellmann, journalist, and Emil Levy Z. Schramm, photographer, live in Berlin – and love to discover new culinary delights outside the city walls.

The Work: Urban cuisine in the open air

Outdoors. Stifling heat, crunching sand beneath your feet. A crackling fire in the evening. Watch the grass grow, immersed in fragrances of the forest. Urbanites want to be outside: the countryside, the woods, the sea, feet into the lake.

“Just get out and cook!” contains the taste of outside. It is a cookbook and a portrait. Food tastes good outside. At the fire, above the fire, on the grill, and smoked. It’s a feast, when the water is bubbling and spices are flying. An experience that no kitchen at home can quite match. Outside, on the outskirts, where it tastes so good. In a charming and modern way the book introduces people who like to be outside in various ways: an afternoon barbecue in the park, at the lakeside or at a weekend somewhere outside the city, in a camper van or a Bulli, in the allotment, with a tent

or the picnic basket. Written in a modern visual language, amazing recipes waiting to be tried out.

- > How-to-book and appetizer in one
- > With all information you need to enjoy a good meal outside in the „green kitchen“

We are here for you.
