

# NOTIFIKASI ALOMEDIKA

## 1. OPPO/ VIVO

**Not getting Alomedika notifications ?**

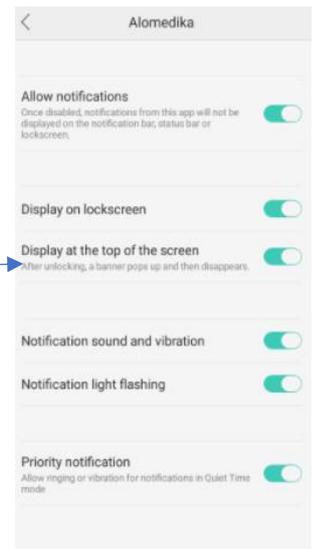

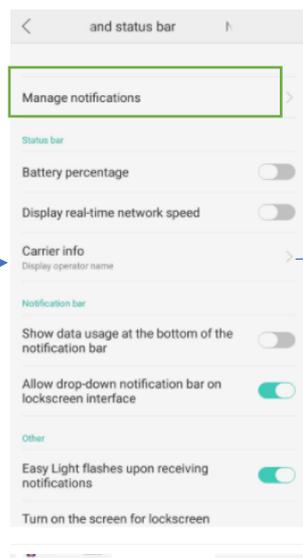

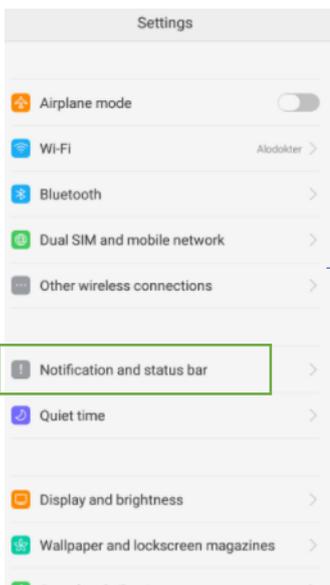

There are some restrictions made by **Oppo** and **Vivo** to reduce the usage of the battery. Please follow the steps to get Alomedika notifications :

**vivo**

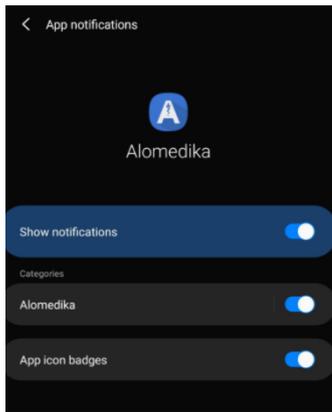

Setting > Battery > High Background Power Consumption > search and click Alomedika app > click the switch to ON

**oppo**

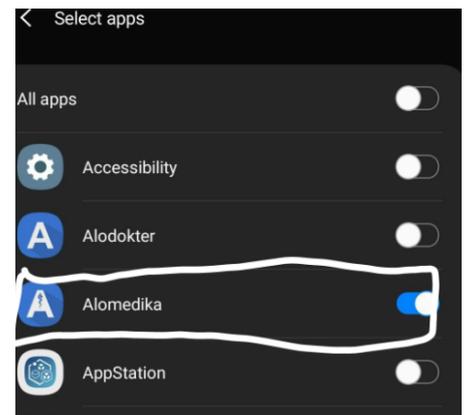

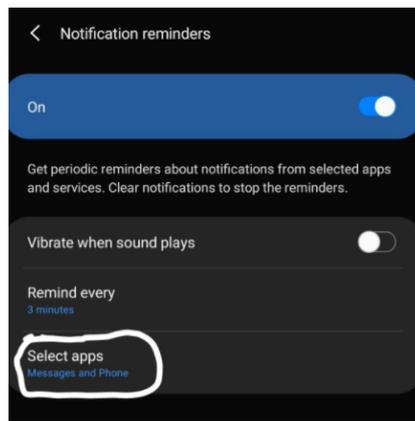

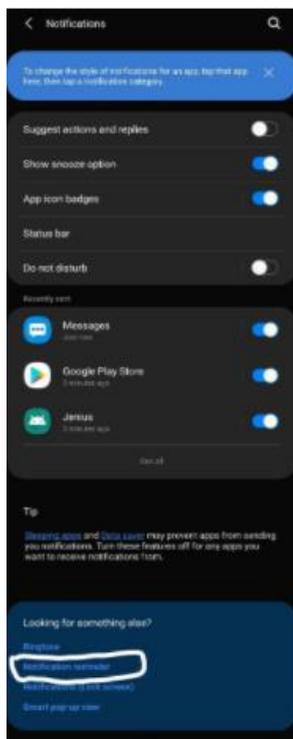

Setting > Battery > turn off Smart Power Saver > click Custom Power Consumption Protection > search and click Alomedika app > choose Allow Background Running

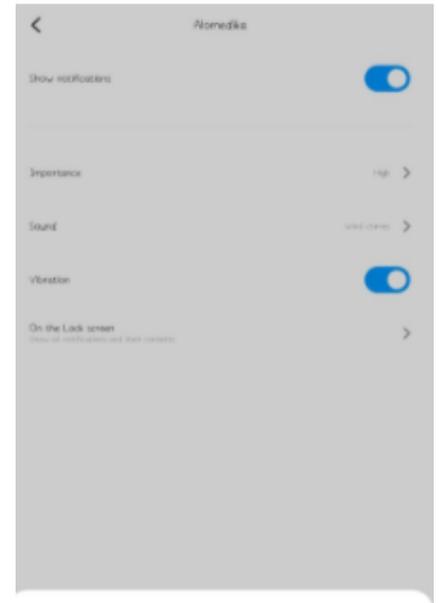

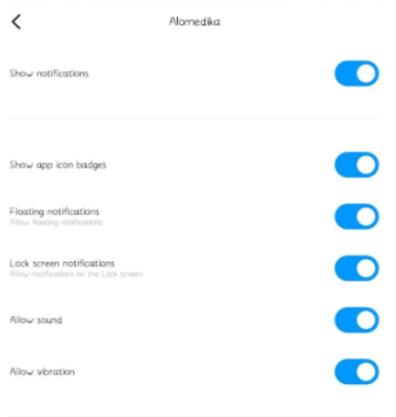

## 2. SAMSUNG M SERIES

Untuk Reminder Notifikasi dapat dilakukan dengan cara berikut

### 3. MI UI 11

On the Lock screen

> Show all notifications and their contents

Show all notifications but hide contents

Don't show notifications at all
