## ROOFSUPPORT CLICK

RoofSupport CLICK offers super fast installation with the clickable attachment of the cable tray to the RS roof support and the click connection between the cable trays. No tools are required. RoofSupport CLICK is zinc plated based on zinc plus. With this 1200-hour salt spray test it has been demonstrated that the corrosion resistance falls under category 8+. This is the highest attainable corrosion resistance on stainless steel. Thanks to the click connection of the cable tray, potential equalisation up to 100 linear meters is guaranteed. RoofSupport CLICK is available in widths from 60mm to 300 mm and in sets from 12 to 24 meters based on one item number.

## WHY ROOFSUPPORT CLICK

- ⌘ Super fast assembly
- ⌘ No tools required
- ⌘ Better protection against corrosion (C8+)
- ⌘ Coupling piece already mounted on the cable tray, fewer loose parts
- ⌘ Complete sets available under one item number
- ⌘ Potential coverage of up to 100 linear meters guaranteed
- ⌘ Proven technology: storm damage free for 10 years

RoofSupport CLICK is available at nationwide electrical and PV wholesalers.
