

Layette, explores translucency, layering, and material tactility through sculptural lighting.

Using fibreglass, aluminium, and considered hardware, the works create atmosphere through softness and structure—inviting light to become part of the form itself. The Layette collection is produced locally in Tasmania, Australia.

Materials Options

Fibreglass
Aluminium Rod
Stainless Steel Fixings

Light Source

Voltage: 220–240V ~ 50Hz

Wattage: 4W

LED Colour Temperature: Warm
White 2700K

Customisation

Custom sizes, finishes, and specifications available upon request.

Production Lead Time

6–12 weeks from order confirmation

Origin

Made in Australia
