Coffee table Iraty

Design by Grégoire de Lafforest

mercoeur:

édition

The coffee table, on the other hand, was conceived as a sculptural piece that breaks with the sobriety of the other pieces and brings a «twist» to the whole through its format and materiality. This form was inspired by the neighboring Auteuil greenhouses of my place of residence. Inspired by the work of Sol Lewitt, the structure accentuates the rigorous, repetitive, and austere aspect in contrast with the brightness and richness of form of the glass parts.

Composition:

Mix of St Just glass assembled in stained glass using the Tiffany technique Patinated steel structure.

Dimensions:

Width 1730 x Depth 1116 x Height 400 mm

Production time:

14 weeks

Weight:

?? kg
