

HOUR BRIAR VANITY MIRROR

The Mirror series is named lovingly after Briar - Bec's late mother. She remembers her as graceful and magnetic and she remains an important influence in her life and work. The mirror series acknowledges her mother's demeanour and is a celebration of sophisticated femininity. The design employs both high-tech and low-tech methodologies, giving it modern, yet handcrafted appeal. The bead-like wood-turned form is taken from the Agathis floor lamp and the Phila table lamp, yet scaled down to delicate proportions.
