# FIFE TRIPOD LAMP

## DESCRIPTION

Originally designed in 2009 as our debut lighting piece, the Fife Tripod embodies the foundation of our mission: to provide you with products that endure the test of time in their quality and iconic aesthetics. Pulling inspiration from techniques of Shaker craftsmen, Fife's wooden legs are hand-turned on a lathe. You'll find the simplicity of form pairs effortlessly with the utility of our work in a way that makes this piece —much like our full catalog of furniture and lighting— a seamless and complementary addition to a variety of awe-inspiring environments.

## YEAR OF DESIGN

2009

## MATERIAL

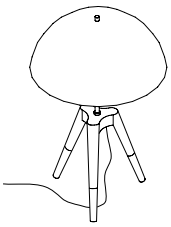

Spun metal shade and accents paired with tapered wooden legs.
