ALLEGRO SCONCE

DESCRIPTION

Evoking the shapes and rhythms of trumpets and drums, Allegro takes its inspiration from the cool jazz of the 1950's. Prized for malleability and sturdiness, brass has been a choice material for luthiers and lighting artisans for centuries. Go to the beat of your own drum, and bring the pop and groove of Allegro into your interior spaces. Miles Davis has never sounded cooler, then under the warm glow of this new collection of pendants, ceiling mounts, and sconces.
