

## Effortless Attendance Monitoring – Transform Your Process with Totem

### Totem Attendance is a comprehensive solution offering:

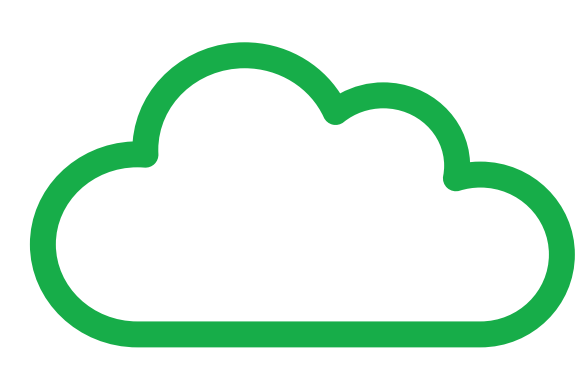

-  Cloud Hosted
-  Mobile app for staff
-  Multi-Language support
-  Geofencing for attendance
-  Real-time reporting
-  Multiple check-in methods
-  WFH and flexi-time support
-  Integrates with Payroll

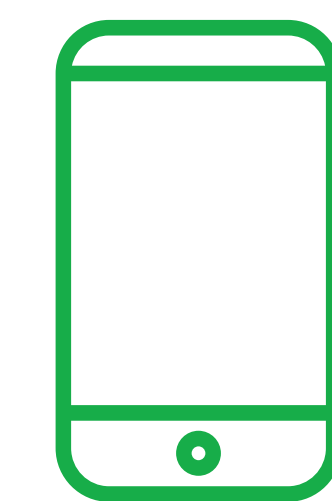

## Key Features:

Streamline attendance management, improve accuracy, and increase efficiency, while providing greater flexibility and control over employee time tracking.

**Cloud Hosting:** No servers. No installs. All you need is a browser. Access anytime, anywhere.

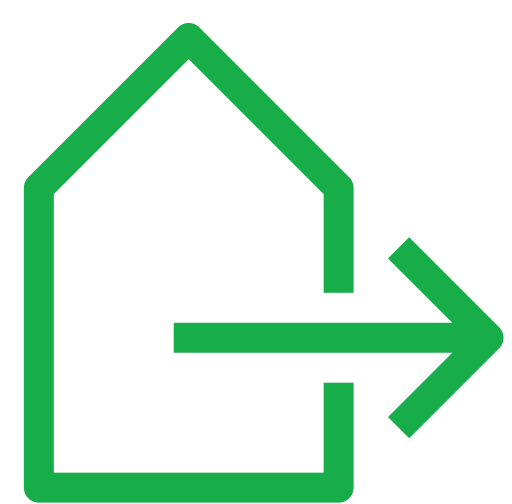

**Mobile Application:** Clock in with one button, track in real time, and let managers approve requests in seconds.

**Geofencing:** Manage check-ins with approved locations or offer flexible options with manager approval.

**Work From Home:** Check in seamlessly from home or any approved location using the mobile application.

**Multiple Check-in:** Choose from methods: mobile, kiosk, beacon, fingerprint, or face scanner.

**Flexitime:** Set fixed or flexible check-in hours for enhanced control and greater staff flexibility.

**Kiosk Mode:** Streamline check-ins with the Kiosk app for easy collection and processing.

**Real-time Reporting:** Access to staff check-in details with live data feeds and reporting summaries.

**Integration with Payroll:** Automatically include OT and working hours (daily employees only) on Payroll.
