

# Design Lighting & Wall Acoustics from Mycelium

Designed for modern commercial interiors. Each piece is original, with the unique structure and appearance of mycelium, a new sustainable material that is light yet strong and naturally improves room acoustics.

# Lights

## Hanging Lights

**Linea**

1 000×150×90 mm (L×H×W)

**Plate**

990×485×60 mm (L×H×V)

## Wall Lights

**Linea Wall**

1 050×200×100 mm (L×H×V)

**Plate Wall**

990×485×60 mm (L×H×V)

**Note:** Our products are made from mycelium, a living material that grows naturally. During this process, slight variations in size, shape, or texture may occur. Each piece is therefore one of a kind, bearing its own unique imprint of nature.

# Wall Acoustics

## Acoustic Panels

**Panel Quadra**

390×390×40 mm (L×H×V)

**Panel Silens**

10×20×40 – 610×605×40 mm (L×H×V)

## Wall Tiles

The wall tiles form a continuous surface without visible joints, featuring the natural texture of mycelium.

**Mura Tiles**

10×20×40 – 610×605×40 mm  
(L×H×V)

**Note:** Our products are made from mycelium, a living material that grows naturally. During this process, slight variations in size, shape, or texture may occur. Each piece is therefore one of a kind, bearing its own unique imprint of nature.

# Selected Projects

## Elmet Group

Lights distributor showroom

## Progresus

Conference room installation

## Dos Mundos

Café installation
