

LIGNUM DESIGN ADDITIONS

D3 PVA Wood Glue

Sets in just 10 minutes

-  Suitable for interior and exterior use
-  Resin based
-  High strength formulation
-  Easy clean up, dries clear

DESCRIPTION

LIGNUM DESIGN ADDITIONS D3 PVA WOOD GLUE is a high quality resin based adhesive for all wood to wood bonding requirements. It can be used both internally and externally and provides a high strength, impact resistant bond that is usually stronger than the wood itself. It is ideal for all general wood-working and joinery applications (including solid & engineered wood flooring), furniture assembly and household DIY. It is easy to clean up with water and dries clear. It conforms to the international standard EN 204 (D3) and BSEN 14256.

APPLICATION

Ensure surfaces to be bonded are clean, dry and free from grease. Apply adhesive very thinly to both surfaces and assemble immediately. May be handled carefully after 10 minutes (initial set). Clamp or apply weight pressure for 3-4 hours. Remove excess adhesive immediately with a damp cloth. **STORAGE** - Store in cool, dry conditions. **PROTECT FROM FROST.** **SHELF LIFE** - 12 months from date of manufacture.

LIMITATIONS

Not suitable for applications subject to continuous immersion in water. Do not use in temperatures below 10°C. It is the user's responsibility to determine the suitability of product use. If in doubt, please contact Customer Services or refer to the latest technical data sheet. **EXTERIOR USE:** All glue joints must be protected with an impervious paint system when dry.

HEALTH & SAFETY

Safe in normal use. However, as a precaution, wash any splashes off skin. If product enters eyes, flood immediately with water. Do not take internally. Keep out of reach of children.
