35 mg

How to use: Is recommended the daily intake of 1 or 2 sachets, to be dissolved in a glass of still water at room temperature (200ml approximately). Put the powder first and then the water, stir vigorously and drink immediately. The presence of granules on the water surface is due to gastroprotection of chondroitin sulfate. It does not affect the quality and taste of the product.

Warnings: Keep out of reach of children under three years old. Do not exceed the recommended daily dose. Food supplements are not intended to be as a substitutes for a varied and balanced diet and a healthy lifestyle. Do not administer to children under three years old.

Storage method: Store in a cool, dry place, away from heat sources. The expiry date refers to the intact product, correctly stored.
