

3M(BP133W1E)

3M - Notebook privacy filter - bright screen, 16:10 - adhesive - 13.3" - black

Enhance privacy and protect your screen with the 3M notebook privacy filter designed for 13.3-inch displays. This filter uses Nanolouver technology, allowing only those directly in front of the screen to see the contents while keeping prying eyes at bay. With an aspect ratio of 16:10, it suits a range of notebooks, providing functionality and ease of use. The installation is easy with the included COMPLY adhesive strips, ensuring a secure fit without damage to your screen.

Key Selling Points

- 60° viewing angle limits visibility from the sides
- Reversible design offers both glossy and matte finishes
- Anti-glare feature reduces reflections for improved clarity
- Touchscreen compatible for ease of use
- 85% light transmittance maintains vibrant display quality

Product Features

- Effective privacy protection**
The privacy filter utilizes advanced Nanolouver technology to ensure that only the person directly in front of the display can view the content clearly while blocking the view from the side.
- Versatile installation**
Equipped with COMPLY adhesive strips, this filter allows for easy and secure application on compatible devices without leaving residue when removed.
- Enhanced visual comfort**
Featuring an anti-glare surface, this filter minimizes reflections, making it easier to work in various lighting conditions.
- Dual finish options**
With a reversible design, users can choose between a glossy finish for vibrant colors or a matte finish for reduced glare, adjusting to their specific preferences.
- Light transmittance and blue light reduction**
This privacy filter transmits 85% of light, maintaining display brightness while incorporating blue light reduction features to help reduce eye strain.
