- Gigabit Ethernet for reliable network connections
- Compact design perfect for travel

Product Features

- Versatile connectivity**
The Microsoft USB-C Travel Hub offers a wide range of connection options with its integrated USB-C cable, ensuring compatibility with various devices and peripherals. This hub simplifies the connection process, allowing for a seamless transition between workspaces without the need for multiple adapters.
- High-speed data transfer**
Equipped with USB 3.2 Gen 2 ports, this travel hub provides fast data transfer speeds, making it easier to manage large files and reduce waiting times. Whether it's for work or leisure, the efficient data handling capabilities enhance productivity and entertainment experiences.
- Comprehensive display options**
With both HDMI and VGA interfaces, the Microsoft USB-C Travel Hub supports multiple display setups, offering flexibility for presentations, conferences, or multi-monitor workstations. This feature ensures that users can connect to a wide range of display devices without compatibility issues.
- Reliable network connectivity**
Featuring an RJ-45 connector for Ethernet 10Base-T/100Base-TX/1000Base-T, this hub provides a stable and fast network connection. It's ideal for locations with poor wireless connectivity, offering a reliable solution for uninterrupted work and streaming.
- Compact and portable design**
The travel-friendly design of the Microsoft USB-C Travel Hub, with its 20 cm integrated cable, makes it an essential accessory for professionals on the go. Its compact size ensures it can easily fit into any laptop bag or carrying case, ensuring connectivity is always within reach.
