Avocor Series One Board 65 - Video conferencing device - Optimised for Google Meet

The Avocor Series One Board 65 enhances the video conferencing experience with its advanced technology and design. This video conferencing device is not just a tool but a gateway to more productive and engaging meetings. With its 65-inch 4K IPS display, participants can enjoy clear visuals, thanks to the anti-glare and anti-fingerprint technology, ensuring that the screen remains visible and clean. The integrated sound bar and 8 microphone array deliver immersive audio quality, making every participant heard without the need for external devices.

The Board 65's connectivity features stand out, offering both wired and wireless options to fit any meeting room setup. Its 12 megapixel CMOS camera with a wide 120° field of view captures every participant in stunning detail, while the Auto Focus and ePTZ functionalities adjust to keep the focus where it's needed. Optimized for Google Meet, it seamlessly integrates with one of the leading video conferencing platforms, providing a reliable and high-quality meeting experience. Furthermore, the interactive multi-touch screen enhances collaboration, allowing direct content interaction for more dynamic presentations and brainstorming sessions. The Avocor Series One Board 65 is the perfect centerpiece for any meeting room, designed to facilitate communication and collaboration in the modern workplace.
