

Neat Center(NEATCENTER-SE)

Includes table mount and ceiling mount.

Neat Center, a video conferencing device, is designed to transform any meeting room into a hub of clear communication and collaboration. With its integrated 16-microphone array, participants' voices are captured with clarity, ensuring that every contribution is heard. The device's networking capabilities, including both Wi-Fi and Ethernet (PoE) connections, along with USB-C support, provide flexible setup options for any room configuration.

The Neat Center also boasts three 8.0 megapixel cameras that deliver 1080/30p high-definition video, featuring a 360° field of view, automatic people framing, and noise reduction. These video capabilities ensure that every participant is seen clearly, making remote meetings more engaging and productive. Additionally, the device's environmental adaptability, with a wide operating temperature and humidity range, ensures reliable performance in any office setting.

Designed with the modern workplace in mind, Neat Center combines aesthetic appeal with functional excellence. The LED ring and accelerometer not only provide visual feedback and device status but also contribute to the device's sleek, professional look. Whether for small team huddles or large boardroom gatherings, Neat Center is the comprehensive solution for superior video conferencing experiences.

Key Selling Points

- 16-microphone array for superior audio capture
- Wireless and Ethernet (PoE) connectivity for flexible installation
- Triple 8.0 megapixel cameras with 360° view for comprehensive room coverage
- 1080/30p video resolution for crisp, clear conferencing visuals
- Built-in features like noise suppression and automatic people framing enhance meeting quality

Product Features

- Advanced audio clarity**
With an integrated 16-microphone array, Neat Center ensures every voice in the room is heard with crystal clear clarity, making it ideal for professional conferencing environments.
- Seamless connectivity**
Featuring both Ethernet (PoE) and wireless Wi-Fi options, along with USB-C connectivity, Neat Center offers versatile networking solutions to meet the demands of modern workspaces.
- High-definition video**
Equipped with three 8.0 megapixel cameras and supporting 1080/30p video modes, Neat Center delivers high-quality video conferencing with a 360° field of view, automatic people framing, and noise reduction for an immersive meeting experience.
- Intelligent design**
The built-in LED ring and accelerometer not only add to the aesthetic appeal but also enhance functionality, indicating the device's status and orientation for optimal performance.
- Robust environmental adaptability**
Designed to operate within a wide range of temperatures (0°C to 35°C) and humidity (10 - 90% RH), Neat Center is built to perform reliably in diverse working environments.

Main Specifications

Product Description	Neat Center - video conferencing device
Device Type	Video conferencing device
Dimensions (WxDxH)	8.4 cm x 8.4 cm x 29.7 cm
Weight	1.47 kg
Video Input	Digital video camera
Audio Input	16-microphone array
Networking	Network adapter - Wi-Fi

Extended Specification

General

Device Type	Video conferencing device
Width	8.4 cm
Depth	8.4 cm
Height	29.7 cm
Weight	1.47 kg
Built-in Devices	3 x 8.0 megapixel camera, 16 microphone array, LED ring, accelerometer

Expansion / Connectivity

Interfaces	1 x network / power - Ethernet (PoE) - RJ-45 1 x USB-C - 24 pin USB-C
------------	---

Networking

Type	Network adapter
Connectivity Technology	Wireless
Data Link Protocol	Wi-Fi
Features	LED status indicator, security slot (Kensington security lock compatible), noise suppression, reset button, power over Ethernet (PoE), built-in hardware transcoding

Miscellaneous

Cables Included	1 x network cable - 3 m
Included Accessories	Ceiling mount, table mount

Environmental Parameters

Min Operating Temperature	0 °C
Max Operating Temperature	35 °C
Humidity Range Operating	10 - 90% RH

Video Input

Type	Digital video camera (colour) - integrated
Video Modes	1080/30p
Features	360° field of view, automatic people framing, image distortion correction, noise reduction, auto white balance, dereverberation, speaker framing

Audio Input

Type	16-microphone array - integrated
