

HPE Aruba Networking AP-730-CVR-20(S1H25A)

HPE Aruba Networking AP-730-CVR-20 - Snap-on cover - white with non-glossy finish (pack of 20) - for HPE Aruba AP-730-CVR-20

The HPE Aruba AP-730-CVR-20 from Hewlett Packard Enterprise is designed to meet the demands of modern businesses and smart environments. With its support for both Bluetooth Low Energy (LE) and Zigbee, this device offers IoT compatibility, allowing for effortless integration with a multitude of devices and applications. This ensures not only enhanced operational efficiency but also opens up new possibilities for smart automation and monitoring.

Moreover, the AP-730-CVR-20 stands out with its Dual-Band Wi-Fi capabilities, operating across both 5 GHz and 6 GHz frequencies. This feature ensures high-speed and reliable wireless connections, minimizing interference and maximizing performance for all connected devices. Additionally, the implementation of DSSS (Direct Sequence Spread Spectrum) technology bolsters network security and communication reliability, making this device suitable for environments requiring dense wireless deployment. With these features, the HPE Aruba AP-730-CVR-20 is poised to deliver networking solutions that cater to the evolving needs of businesses and smart environments.

Key Selling Points

- Bluetooth Low Energy (LE) and Zigbee for IoT connectivity
- Dual-Band Wi-Fi support for 5 GHz and 6 GHz frequencies ensures high-speed, reliable connections
- DSSS technology enhances network security and reliability

Product Features

- Advanced connectivity**
Equipped with Bluetooth Low Energy (LE) and Zigbee, the HPE Aruba AP-730-CVR-20 offers IoT compatibility, enabling seamless integration with a wide range of devices and applications for enhanced operational efficiency.
- Optimized wireless performance**
Featuring Dual-Band Wi-Fi across 5 GHz and 6 GHz frequencies, this device ensures high-speed, reliable connections with less interference, providing an optimal wireless experience for all connected devices.
- Robust networking capabilities**
Utilizing DSSS (Direct Sequence Spread Spectrum) method, the AP-730-CVR-20 enhances network security, reduces noise interference, and increases the reliability of wireless communications, making it suitable for dense deployment scenarios.

Main Specifications

Product Description	HPE Aruba Networking AP-730-CVR-20 - snap-on cover
Product Type	Snap-on cover
Packaged Quantity	20 (specifications are for single item)
Colour	White with non-glossy finish
Designed For	HPE Aruba AP-730-CVR-20

Extended Specification

General

Packaged Quantity	20 (specifications are for single item)
Product Type	Snap-on cover

Enclosure Colour	White with non-glossy finish
------------------	------------------------------

Compatibility Information

Designed For	HPE Aruba AP-730-CVR-20
--------------	-------------------------
