

Blanco LUN Eraser Data Centre Edition(4L41L66737)

Blanco LUN Eraser Data Centre Edition - Subscription licence (3 years) - 1TB capacity - volume - 1-5 TB - ESD - required software license

Following completion of the data erasure process, using Blanco LUN Eraser, LUNs are immediately available for reuse, giving you the ability to operate, whatever your platform, with the minimum possible downtime.

Key Selling Points

- Resale, return, reuse
- Data erasure policy that ensures compliance

Product Features

- Resale, return, reuse**
Blanco LUN Eraser provides an easy and cost-effective way to maintain the integrity of your IT assets, whether owned or leased, while securely erasing your data. Integrate the product with your ITAM/ITSM platform for seamless decommissioning. Erase any type of disk drive supported by UNIX, Linux and Microsoft Windows (including IDE, SCSI, FC and iSCSI), or erase virtual data stores from virtual servers hosted on public cloud platforms.
- Data erasure policy that ensures compliance**
Securely erase IT storage assets to improve data management policies and achieve regulatory compliance. With Blanco LUN Eraser, your organization can ensure all sensitive data is securely erased from logical unit numbers and macOS devices (with t2 chips).
