

SonicWall DNS Filtering Service(02-SSC-5555)

SonicWall DNS Filtering Service - Subscription licence (3 years) - for SonicWall TZ670; TZ Series (Gen 7) TZ670

DNS filtering is the process of blocking malicious websites and filtering out harmful content using the Domain Name System (DNS). DNS filtering not only prevents data breaches but also reduces the workload of the firewalls and other security solutions.

Key Selling Points

- Transforms domain names into IP addresses
- Maintains and updates the list of blocked sites through domain names or IP addresses
