Product Features

Full-sized performance

At 1 liter, the ThinkCentre M75q Tiny Gen 2 can be tucked away anywhere, while providing enterprise-level performance with its powerful processor. This PC is designed for multitasking, content creation, data-crunching, and more - all from a compact unit. It also features DDR4 SODIMM slots and dual punch-outs, allowing you to configure it to meet your specific business needs.

Secure inside and out

Work fearlessly, thanks to the reinforced security of ThinkShield - a comprehensive, end-to-end security solution. ThinkShield combines advanced hardware, software, services, and processes to protect your data and your business. This desktop also features AMD Memory Guard, providing full memory encryption to protect sensitive data.

Enhanced experience, easy expandability

The ThinkCentre M75q Gen 2 is designed to grow with your business. It connects to industry-specific equipment as well as legacy peripherals, monitors, and is built for easy expansion. It's also designed with people - and shrinking workspaces - in mind. It fits easily into any environment, connects to up to three displays, and allows fast charging and data sharing via its front-panel USB-C port.

Comprehensive manageability and reliability

The ThinkCentre M75q Tiny Gen 2 is easy to deploy, upgrade, and manage. It features built-in driver support for older OS versions and toolless access. AMD PRO manageability allows IT professionals to administer to a full fleet from any location within your organization. It's easy to connect to a Tiny-in-One display, among other mounting options. And it's MILSPEC-tested against 10 conditions for durability and reliability.
