

Alienware AW510K(AW510K-W-WW)

Alienware AW510K - Keyboard - backlit - USB - key switch: CHERRY MX Low Profile Red - lunar light - for Alienware Area-51, Aurora, Aurora R10, Aurora R9, M15, M17; G5 5090; XPS 8940

The combination of linear switching characteristics, low actuation force and shorter travel gives you better control as well as quick and smooth triggering, allowing you to efficiently pick off adversaries one by one.

Key Selling Points

- Key durability of 50 million keystrokes with no loss of quality
- Fully programmable keys for macros and key assignments
- Dedicated audio control with sound roller for fast & accurate adjustability
- AlienFX 16.8 million color per-key RGB lighting
- Floating keys architecture
- Anti-ghosting/N-Key rollover
- A redesigned 3 section layout
- USB passthrough and dedicated media keys

Product Features

- Command in comfort**  
Reinforce your reign on a slim form factor that provides enhanced ergonomics and a more natural palm posture even in the middle of combat.
- Join the fight**  
Connect to your gear quickly through an easy-to-access USB passthrough. Plus, dedicated media keys make it a snap to access and control your game's intensity without losing focus.
- Map it out**  
Navigate easily on an optimized, redesigned, three-section layout that lets you maximize your reaction time.
- Make it personal**  
Barrel through campaigns with fully programmable keys for macros and key assignments that let you breeze past bosses.
- Sound off**  
Quickly access and control your media with dedicated audio controls and a volume roller that give you seamless audio adjustability at every stage of your adventure.
