

Cisco Meraki - expansion module - Gigabit Ethernet / 10Gb Ethernet / 25Gb Ethernet SFP28 x 8 (C9300X-NM-8Y-M)

Cisco Meraki - Expansion module - Gigabit Ethernet / 10Gb Ethernet / 25Gb Ethernet SFP28 x 8

The Cisco Meraki C9300X-NM-8Y-M network adapter is an efficient expansion module designed to elevate your network's performance and flexibility. With its eight SFP28 ports, this module supports a wide range of data link protocols including Gigabit Ethernet, 10 Gigabit Ethernet, and 25 Gigabit Ethernet, making it a versatile choice for any business. The module's ability to handle data transfer rates of up to 25 Gbps ensures that your network can support data-intensive applications without any lag. Its plug-in form factor allows for easy installation, providing a straightforward solution for network expansion. Whether you're looking to enhance your network's connectivity, speed, or reliability, the Cisco Meraki expansion module offers an efficient and effective solution.

Key Selling Points

- 8 SFP28 ports supporting 1/10/25GBase-X for flexible connectivity options
- Data transfer rate of up to 25 Gbps for high-speed network performance
- Plug-in module design for easy installation and network expansion
- Supports Gigabit Ethernet, 10 Gigabit Ethernet, and 25 Gigabit Ethernet for versatile network integration
- Uplink feature for enhanced performance and reliability

Product Features

- High-speed connectivity**
Experience network performance with the Cisco Meraki expansion module, offering 1/10/25GBase-X interface for high-speed connectivity. This plug-in module ensures your network can handle data-intensive applications with ease, providing a data transfer rate of up to 25 Gbps.
- Versatile network integration**
Designed for versatility, the module features eight SFP28 ports that support Gigabit Ethernet, 10 Gigabit Ethernet, and 25 Gigabit Ethernet. This range of connectivity options allows for seamless integration into existing network infrastructures, enhancing flexibility and scalability.
- Efficient network expansion**
The Cisco Meraki expansion module is an efficient solution for network expansion, featuring a plug-in form factor for easy installation. Its uplink features ensure optimal performance and reliability, making it an ideal choice for businesses looking to enhance their network capabilities.

Main Specifications

Product Description	Cisco Meraki - expansion module - Gigabit Ethernet / 10Gb Ethernet / 25Gb Ethernet SFP28 x 8
Device Type	Expansion module
Form Factor	Plug-in module
Ports	Gigabit Ethernet / 10Gb Ethernet / 25Gb Ethernet SFP28 x 8
Data Link Protocol	1GbE, 10GbE, 25GbE
Data Transfer Rate	25 Gbps

Extended Specification

General

Device Type	Expansion module
Form Factor	Plug-in module

Expansion / Connectivity

Interfaces	8 x 1/10/25GBase-X - SFP28
------------	----------------------------

Networking

Ports	Gigabit Ethernet / 10Gb Ethernet / 25Gb Ethernet SFP28 x 8
Connectivity Technology	Wired
Data Link Protocol	Gigabit Ethernet, 10 Gigabit Ethernet, 25 Gigabit Ethernet
Data Transfer Rate	25 Gbps
Features	Uplink
