

Cisco - key expansion module for VoIP phone - 20 keys, 2 pages(DP-9800-KEM=)

Cisco - Key expansion module for VoIP phone - 20 keys, 2 pages - carbon black - for P/N: CON-SNT-DP9KE8MA

The Cisco key expansion module is a versatile accessory designed to enhance the functionality of VoIP phones. It features 20 keys across 2 pages, allowing for efficient call handling and expanded control. The module boasts a 5-inch LCD display, providing a clear and bright interface that is backlit for visibility in any lighting condition. With a resolution of 480 x 800, users can enjoy crisp and detailed visuals. Connectivity is made simple with both male and female 4-pin USB Type-A connectors, ensuring compatibility with a wide range of devices. Additionally, the module is powered directly via USB, eliminating the need for an external power source and making setup and use straightforward. This key expansion module is an ideal solution for users looking to enhance their VoIP phone experience with additional keys and a clear display.

Key Selling Points

- 20 keys and 2 pages for expanded control
- 5-inch backlit LCD display for clear visibility
- USB powered for easy setup and use
- Compatible with VoIP phones for enhanced functionality

Product Features

- Enhanced productivity**
With 20 keys and 2 pages, this key expansion module is designed to enhance productivity by providing additional options for VoIP phone users.
- Clear visual interface**
Features a 5-inch LCD display with a resolution of 480 x 800, offering a clear and bright visual interface for easy operation.
- Effortless connectivity**
Equipped with both male and female 4-pin USB Type-A connectors, ensuring effortless connectivity and compatibility with a variety of devices.
- Convenient power source**
Powered directly via USB, this module eliminates the need for an external power source, simplifying setup and use.
