**Product Features**

**Tackle intensity with WD Red Plus**

Packed with power to handle the small- to medium-sized business NAS environments and increased workloads for SOHO, WD Red Plus is ideal for archiving and sharing, as well as RAID array rebuilding on systems using ZFS and other file systems. Built and tested for up to 8-bay NAS systems, these drives give you the flexibility, versatility, and confidence in storing and sharing your precious home and work files.

**Exclusive NASware 3.0**

With Western Digital's exclusive NASware 3.0 technology, you can optimize each and every drive. Built into every WD Red Plus hard drive, NASware 3.0's advanced technology improves storage performance by increasing compatibility, integration, upgradeability, and reliability.

**Built for optimum NAS compatibility**

WD Red Plus drives with NASware technology takes the guesswork out of selecting a drive. Optimized for NAS systems, the unique algorithm balances performance and reliability in NAS and RAID environments. Simply put, a WD Red Plus drive is one of the most compatible drives available for NAS enclosures. But don't take our word for it. WD Red PLUS drives are a reflection of extensive NAS partner technology engagement and compatibility testing.
