

Cisco - network stacking module(C9300L-STACK-KIT=)

Cisco - Network stacking module (pack of 2) - for Catalyst 9300L

The StackWise-320 kit for Catalyst 9300 Series fixed uplink models consists of two stack adapters and a stacking cable.

Key Selling Points

- Cisco StackWise-320 technology for enhanced network efficiency
- 320 Gbps bandwidth for high-speed data processing
- 50 cm stacking cable included for easy setup
- Plug-in module form factor for straightforward integration

Product Features

- Enhanced connectivity**
The Cisco network stacking module uses Cisco StackWise-320 technology to deliver significant enhancements in connectivity. This plug-in module not only simplifies network management but also ensures a seamless and efficient networking experience.
- Impressive performance**
With a bandwidth value of 320 Gbps, this network stacking module is notable for its performance. It's designed to meet the demands of high-speed data processing, ensuring that your network can handle intensive tasks without any lag.
- Flexible installation**
Featuring an external form factor and a 50 cm stacking cable, this module offers flexibility in installation. Its design ensures that it can be easily integrated into your existing network setup, providing an immediate improvement in performance and connectivity.

Main Specifications

Product Description	Cisco - network stacking module
Device Type	Network stacking module
Packaged Quantity	2 (specifications are for single item)
Form Factor	Plug-in module
Performance	Bandwidth: 320 Gbps
Designed For	Catalyst 9300L

Extended Specification

General	
Packaged Quantity	2 (specifications are for single item)
Device Type	Network stacking module
Form Factor	Plug-in module
Networking	
Connectivity Technology	Wired
Performance	Bandwidth: 320 Gbps
Features	Cisco StackWise-320 technology
Miscellaneous	
Cables Included	1 x stacking cable (external) - 50 cm
Compatibility Information	
Designed For	Cisco Catalyst 9300L
