

## **Cisco - network stacking module(C9200L-STACK-KIT=)**

### **Cisco - Network stacking module (pack of 2) - for Catalyst 9200L**

Discover the power of enhanced network performance with the Cisco network stacking module. This solution is designed to elevate your networking capabilities, featuring Cisco StackWise-80 technology for efficient wired connectivity. With a bandwidth of 80 Gbps, it ensures that your network can handle even the most data-intensive tasks with ease. The module's plug-in form factor allows for straightforward integration into your existing setup, making it an ideal choice for those looking to upgrade their network without extensive modifications. Additionally, the included 50 cm stacking cable facilitates a quick and easy installation process, ensuring that you can enhance your network's performance with minimal downtime. Whether you're looking to improve data transfer speeds or simply expand your network's capabilities, this Cisco network stacking module offers a reliable and efficient solution.

## **Key Selling Points**

Cisco StackWise-80 technology for efficient network connectivity  
80 Gbps bandwidth for high-speed data transfer  
Plug-in module form factor for easy integration  
50 cm stacking cable for convenient setup

## **Product Features**

### **Enhanced connectivity**

Equipped with Cisco StackWise-80 technology, this network stacking module ensures robust and efficient wired connectivity. Its plug-in module form factor allows for seamless integration into existing setups, enhancing your network's performance without the need for extensive modifications.

### **High-speed performance**

With a bandwidth capacity of 80 Gbps, this module supports high-speed data transfer, ensuring that your network can handle intensive tasks with ease. It's designed to meet the demands of modern networking environments, providing a reliable foundation for data communication.

### **Easy installation**

The external form factor of the stacking cable, along with its 50 cm length, ensures a hassle-free setup. Designed for convenience, it allows for quick and easy connection between devices, streamlining the process of enhancing your network's capabilities.

## **Main Specifications**

Product Description	Cisco - network stacking module
Device Type	Network stacking module
Packaged Quantity	2 (specifications are for single item)
Form Factor	Plug-in module
Performance	Bandwidth: 80 Gbps
Designed For	Catalyst 9200L

## **Extended Specification**

### **General**

Packaged Quantity	2 (specifications are for single item)
Device Type	Network stacking module
Form Factor	Plug-in module

### **Expansion / Connectivity**

Interfaces	1 x stack port
------------	----------------

## Networking

Connectivity Technology	Wired
Performance	Bandwidth: 80 Gbps
Features	Cisco StackWise-80 technology

## Miscellaneous

Cables Included	1 x stacking cable (external) - 50 cm
-----------------	---------------------------------------

## Compatibility Information

Designed For	Cisco Catalyst 9200L
--------------	----------------------
