

## HPE StoreEver Command View (TC444AAE)

### HPE StoreEver Command View - Licence - electronic - for HP StoreEver MSL6480 Tape Library - Win

HPE Command View TL for Tape Libraries aggregates multiple HPE tape libraries for centralized management. It is also the nerve center for TapeAssure data collection and analysis and, importantly it is able to manage existing ESL G3, ESL E-Series, EML, and the MSL libraries. With Command View TL and the ESL G3 or MSL Library Manager you can manage your tape libraries - monitor backup logs, check drive status, receive trouble alerts, diagnose problems, and much more - through a simple browser interface from anywhere in the world.

## Key Selling Points

- Set up and configure your tape library in the SAN in less than two hours with configuration wizards and graphical interface
- Select from a list of multiple supported libraries to manage
- View asset information for the library system
- View health summaries for all components of the library system
- View library inventory: slots, media, and drives
- Search for media by barcode label
- View details on drives and robotics, including WWNs, speeds, and connection types
- Automatically discover hosts and HBAs on the SAN or add your own for access control and security purposes
- Upgrade firmware on all library components
- Configure SNMP and email trap/event destinations to receive alerts asynchronously
- View persistent event logs for the library system

## Product Features

### Simplify the management of your libraries

Save time by performing all your daily management and troubleshooting tasks with a single program, Command View for Tape Libraries, which can be accessed from anywhere via a browser interface.

### Improve the security of your library

Role-based security allows you to establish different levels of security access to Command View TL (administrator, operator, guest and service accounts).

## Main Specifications
